Shrouded Secrets Richard Michael Connaughton, 1994 Written as a challenge to Australian Prime Minister Paul Keating s view of Australian military history one which denigrated the sacrifices made by thousands of British servicemen

The Pacific War William B. Hopkins, 2010-11-04 This important comprehensive study of WWII in the Pacific examines the high level decision making and strategy that led to victory Roanoke Times Once the stories have been told of battles won and lost most of what happens in a war remains a mystery So it has been with accounts of World War II in the Pacific a complex conflict whose nature is often obscured by simple chronological narratives In **The Pacific War** William B Hopkins a Marine Corps veteran of the Pacific war and respected military history author opens the story of the Pacific campaign to a broader and deeper view Hopkins investigates the strategies politics and personalities that shaped the fighting His regional approach to this complex war conducted on land sea and air offers an insightful perspective on how this multifaceted conflict unfolded As expansive as the immense reaches of the Pacific and as focused as the most intensive pinpoint attack on a strategic island Hopkins account offers a fresh way of understanding the hows and more significantly the whys of the Pacific War

Race War! Gerald Horne, 2005-11-01 Japan s lightning march across Asia during World War II was swift and brutal Nation after nation fell to Japanese soldiers How were the Japanese able to justify their occupation of so many Asian nations And how did they find supporters in countries they subdued and exploited **Race War** delves into submerged and forgotten history to reveal how European racism and colonialism were deftly exploited by the Japanese to create allies among formerly colonized people of

color Through interviews and original archival research on five continents Gerald Horne shows how race played a key and hitherto ignored role in each phase of the war During the conflict the Japanese turned white racism on its head portraying the war as a defense against white domination in the Pacific We learn about the reverse racial hierarchy practiced by the Japanese internment camps in which whites were placed at the bottom of the totem pole under the supervision of Chinese Korean and Indian guards an embarrassing example of racial payback that was downplayed by the defeated Japanese and the humiliated Europeans and Euro Americans Focusing on the microcosmic example of Hong Kong but ranging from colonial India to New Zealand and the shores of the U S Gerald Horne radically retells the story of the war From racist U S propaganda to Black Nationalist open support of Imperial Japan information about the effect of race on U S and British policy is revealed for the first time This revisionist account of the war draws connections between General Tojo Malaysian freedom fighters and Elijah Muhammed of the Nation of Islam and shows how white racism encouraged and enabled Japanese imperialism In sum Horne demonstrates that the retreat of white supremacy was not only driven by the impact of the Cold War and the energized militancy of Africans and African Americans but by the impact of the Pacific War as well as a chastened U S and U K moved vigorously after this conflict to remove the conditions that made Japan s success possible

A Brief History of Modern Warfare Richard Connaughton, 2013-02-07 Since Vietnam both the way we fight and our reasons for going to war have become much more complex The importance of a conflict is determined not by its size or by the numbers of combatants involved but by its ripple effects and its influence upon future events In a series of thrilling recreations of eight of the most significant encounters of the last three decades military historian Richard Connaughton presents a fascinating insight into modern warfare including interviews with some of the major figures The conflicts include Goose Green in the Falklands the invasion of Grenada Operation Desert Storm the first Iraq War Operations in Mogadishu as immortalized in the book and film Blackhawk Down the Siege of Gorazde and Operation Barras in Sierra Leone as well as more recent events at Fallujah Iraq and in Helmand Province Afghanistan Richard Connaughton has interviewed most of the major figures involved in each of the conflicts and offers powerful insights into why battles either work or don t This book will tell you what warfare means in the contemporary world and how it can affect tomorrow *Area Bibliography of Japan* Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area *Routledge Library Editions: Postcolonial Security Studies* Various, 2021-08-31 Published between 1985 and 1998 the five volumes in this set explore a wide range of themes and topics relating to postcolonial security studies Offering both broader overviews of political and military regimes across the world and more focused examinations of specific areas and conflicts such as Africa Cuba and the Falklands War they provide a wealth of information that will appeal to those with an interest in military and strategic studies

political and military history political and military theory and international relations **Omai Richard Michael** Connaughton, 2005 A vivid account of the tragedy of England's first black celebrity the story of the Tahitian prince brought to England by Captain Cook's companion **The Ghost Mountain Boys** James Campbell, 2008-09-30 A harrowing portrait of a largely forgotten campaign that pushed one battalion to the limits of human suffering Despite their lack of jungle training the 32nd Division's Ghost Mountain Boys were assigned the most grueling mission of the entire Pacific campaign in World War II to march over the 10 000 foot Owen Stanley Mountains to protect the right flank of the Australian army during the battle for New Guinea Reminiscent of the classics like *Band of Brothers* and *The Things They Carried* *The Ghost Mountain Boys* is part war diary part extreme adventure tale and through letters journals and interviews part biography of a group of men who fought to survive in an environment every bit as fierce as the enemy they faced Theirs is one of the great untold stories of the war Superb Chicago Sun Times Campbell started out with history but in the end he has written a tale of survival and courage of near mythic proportions America in WWII magazine In this compelling and sprightly written account Campbell shines a long overdue light on the equally deserving heroes of the Red Arrow Division Military.com **MacArthur's Victory** Harry Gailey, 2007-12-18 A GREAT WARRIOR AT THE PEAK OF HIS POWERS In March 1942 General Douglas MacArthur faced an enemy who in the space of a few months captured Malaya Burma the Philippines the Dutch East Indies and from their base at Raubaul in New Britain threaten Australia Upon his retreat to Australia MacArthur hoped to find enough men and material for a quick offensive against the Japanese Instead he had available to him only a small and shattered air force inadequate naval support and an army made up almost entirely of untried reservists Here is one of history's most controversial commanders battling his own superiors for enough supplies since President Roosevelt favored the European Theater butting heads with the Navy which opposed his initiatives and on his way to making good his promise of liberating the Philippines In the battles for Buna Lae and Port Moresby the capture of Finschhafen and other major actions he would prove his critics wrong and burnish an image of greatness that would last through the Korean War This was the other Pacific War the one MacArthur fought in New Guinea and against all odds and most predictions decisively won *Peacekeeping in Africa* Oliver Furley, Roy May, 2021-05-11 First published in 1998 *Peacekeeping in Africa* was written to help make up the shortfall in the number of books that concentrated specifically on peacekeeping in Africa The book covers the main peacekeeping operations of Africa and provides a wealth of background material In doing so it explores the policies and actions of the international organisations concerned and the participating African states It also considers the impact of sub regional powers and the role of the USA Britain and France Comprising three parts *Peacekeeping in Africa* examines world perspectives case studies and wider issues surrounding Africa's peacekeeping operations *Invading Australia* Peter Stanley, 2008-06-03 1942 was a key year in Australia's history As its people had so long feared White Australia an outpost of empire seemed about to be invaded by the Japanese In that one year Darwin was bombed submarines torpedoed ships in Sydney Harbour and Australian

Militiamen died on the Kokoda Trail Each year more and more Australians celebrate Anzac Day and honour the lives of those who fought for their country There is even a push to create a new public holiday in remembrance and celebration of the Battle for Australia But was there ever really such a battle and how close did Australia actually come to being invaded Invading Australia provides a comprehensive thorough and well argued examination of these and other pertinent questions Peter Stanley writes compellingly about Australian attitudes to Japan before during and after World War II and uses archival sources to discuss Japan's war plans early in 1942 He also shows that rather than a Battle for Australia there was a worldwide fight for freedom and democracy that has allowed the West to enjoy great prosperity in the decades since 1945

The Nature of Future Conflict Richard Connaughton, 1995-09-11 Whilst the collapse of the Soviet Union and with it the associated Warsaw Pact has greatly reduced the threat of a major conflict with Europe the story of the involvement of the United Nations in so called peace operations over the past six years makes it abundantly clear that the world wide incidence of low intensity intra state conflict will remain for us as far ahead as we can see and that the resources and procedures which are essential for the success of future UN operations are yet to be produced Richard Connaughton has already published a philosophical treatise entitled *Military Intervention in the 1990s A New Logic of War* in which he validated the nine principles emerging from a study of the conduct of military interventions between 1918 and 1990 against lessons emerging from the Gulf War of 1990-91 A subsequent quadripartite conference held at the British Army Staff College found that those principles applied equally to an intra state conflict such as the former Yugoslavia In this forthright and highly professional study drawing upon those principles Richard Connaughton seeks to examine the nature of future conflict and knowledge for the benefit of those called upon to make real time decisions He pulls no punches leaving the reader with a very clear understanding of the defects of our present international machinery of the maintenance of peace He emphasises the pressing need for a new free range study of the UN in its 50th year to establish not only the comprehensive reforms to its organisation and procedures that are so badly needed but also a clear statement of what is required of the organisation's membership as the providers of those resources without which success is unobtainable **Australian National**

Bibliography, 1995-05 **Books on Japan in Western Languages Recently Acquired by the National Diet Library** Kokuritsu Kokkai Toshokan (Japan), 1995 *Royal Historical Society Annual Bibliography of British and Irish History* Austin Gee, 1996 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians Subject Guide to Books in Print, 1996 *The Southwest Pacific Campaign, 1941-1945* Eugene L.
