Shuswap Stories:

Shuswap Stories British Columbia Indian Language Project, 1977 Collection of 36 Shuswap Indian stories originally related by several elderly storytellers

The Story of Lynx Claude Lévi-Strauss, 1996-12 In olden days in a village peopled by animal creatures lived Wild Cat another name for Lynx He was old and mangy and he was constantly scratching himself with his cane From time to time a young girl who lived in the same cabin would grab the cane also to scratch herself In vain Wild Cat kept trying to talk her out of it One day the young lady found herself pregnant she gave birth to a boy Coyote another inhabitant of the village became indignant He talked all of the population into going to live elsewhere and abandoning the old Wild Cat his wife and their child to their fate So begins the Nez Percé myth that lies at the heart of The Story of Lynx Claude Lévi Strauss's most accessible examination of the rich mythology of American Indians In this wide ranging work the master of structural anthropology considers the many variations in a story that occurs in both North and South America but especially among the Salish speaking peoples of the Northwest Coast He also shows how centuries of contact with Europeans have altered the tales Lévi Strauss focuses on the opposition between Wild Cat and Coyote to explore the meaning and uses of gemellarity or twinness in Native American culture The concept of dual organization that these tales exemplify is one of non equivalence everything has an opposite or other with which it coexists in unstable tension In contrast Lévi Strauss argues European notions of twinness as in the myth of Castor and Pollux stress the essential sameness of the twins This fundamental cultural difference lay behind the fatal clash of European and Native American peoples The Story of Lynx addresses and clarifies all the major issues that have occupied Lévi Strauss for decades and is the only one of his books in which he explicitly connects history and structuralism The result is a work that will appeal to those interested in American Indian mythology

Before the Country Stephanie McKenzie,2007-11-25 In the late 1960s and early 1970s Canada witnessed an explosion in the production of literary works by Aboriginal writers a development that some critics have called the Native Renaissance In *Before the Country* Stephanie McKenzie explores the extent to which this growing body of literature influenced non Native Canadian writers and has been fundamental in shaping our search for a national mythology In the context of Northrop Frye s theories of myth and in light of the attempts of social critics and early anthropologists to define Canada and Canadian literature McKenzie discusses the ways in which our decidedly fractured sense of literary nationalism has set indigenous culture apart from the mainstream She examines anew the aesthetics of Native Literature and in a style that is creative as much as it is scholarly McKenzie incorporates the principles of storytelling into the unfolding of her argument This strategy not only enlivens her narrative but also underscores the need for new theoretical strategies in the criticism of Aboriginal literatures *Before the Country* invites us to engage in one such endeavour

A Bibliography of Canadian Folklore in English Edith Fowke, Carole Henderson-Carpenter, 1982-12-15 This book is the only comprehensive bibliography of Canadian folklore in English. The 3877 different items are arranged by genres: folktales, folk music and dance, folk speech and naming, superstitions, popular beliefs, folk medicine, and the supernatural, folk life and customs, folk art and material culture, and within genres by ethnic groups: Anglophone and Celtic, Francophone, Indian and Inuit, and other cultural groups. The items include reference books, periodicals, articles, records, films, biographies of scholars and informants, and graduate theses. Each item is annotated through a coding that indicates whether it is academic or popular, its importance to the scholar, and whether it is suitable for young people. The introduction includes a brief survey of Canadian folklore studies, putting this work into academic and social perspective. The book covers all the important items and most minor items dealing with Canadian folklore published in English up to the end of 1979. It is concerned with legitimate Canadian folklore, whether transplanted from other countries and preserved here or created here to reflect the culture of this country. It distinguishes between authentic folklore presented as collected and popular treatments in which the material has been rewritten by the authors. Intended primarily for scholars of folklore internationally, as well as Canadian, the book will also be of use to scholars in anthropology, cultural geography, oral history, and other branches of Canadian culture studies, as well as to librarians, teachers, and the general public.

Signs of the Time Chris Arnett, 2024-07-01 Rock art etched in blood-red lines into granite cliffs, boulders, and caves appears as beguiling graffiti-like abstraction. What are these signs? The petroglyphs and red ochre pictographs found across N e kepmx territory in present-day British Columbia and Washington State are far more than ancient motifs. *Signs of the Time* explores the historical and cultural reasons for making rock art. Chris Arnett draws on extensive research and decades of work with N e kepmx people to document the variability and similarity of practices. Through a blend of Western records and Indigenous oral histories and tradition, rock art is revealed as communication between the spirit and physical worlds, information for later generations, and powerful protection against challenges to a people's land and culture. N e kepmx have used such cultural means to forestall threats to their lifeways from the sixteenth century through the twentieth. As this important work attests, rock art remains a signature of resilience.

Indigenous Archaeologies Claire Smith, H. Martin Wobst, 2004-11-10 With case studies from North America to Australia and South Africa and covering topics from archaeological ethics to the repatriation of human remains, this book charts the development of a new form of archaeology that is informed by indigenous values and agendas. This involves fundamental changes in archaeological theory and practice as well as substantive changes in the power relations between archaeologists and indigenous peoples. Questions concerning the development of ethical archaeological practices are at the heart of this process.

Canadian Reference Sources Mary E. Bond, Martine M. Caron, 1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people, institutions, organizations, publications, art, literature, languages, and history. It lists books of a general nature as well as works in the disciplines of history and the humanities. These large divisions are then broken down by subject, genre, type of document, and province or territory. Titles of national, provincial, territorial, or regional interest are included in every subject area when available. The contents of the book are indexed four ways: by name, title, French subject, and English subject. And to facilitate browsing, the major reference books, those dealing with more than one subject or a large geographical region, are also cross-referenced. Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include citation in the language of the publication and a bilingual annotation. The annotations are

descriptive and provide information on the content arrangements and indexing of works the availability of non printformats previous editions and title changes and related works Canadian Reference Sources will be an invaluable referencetool for future scholars and researchers
