The Origins and Character of the Ancient Chinese City, Volume 2 Paul Wheatley, These two volumes elucidate the manner in which there emerged on the North China plain hierarchically structured functionally specialized social institutions organized on a political and territorial basis during the second millennium b c They describe the way in which during subsequent centuries these institutes were diffused through much of the rest of North and Central China Author Paul Wheatley equates the emergence of the ceremonial center as evidenced in Shang China with a functional and developmental stage in urban genesis and substantiates his argument with comparative evidence from the Americas Mesopotamia Egypt Southeast Asia the Mediterranean and the Yoruba territories The Origins and Character of the Ancient Chinese City seeks in small measure to help redress the current imbalance between our knowledge of the contemporary Western style city on the one hand and of the urbanism characteristic of the traditional world on the other Those aspects of urban theory which have been derived predominantly from the investigation of Western urbanism are tested against rather than applied to ancient China The Origins and Character of the Ancient Chinese City examines the cosmological symbolism of the Chinese city constructed as a world unto itself It suggests with a wealth of argument and evidence that this cosmo magical role underpinned the functional unity of the city everywhere until new bases for urban life began to develop in the Hellenistic world Whereas the majority of previous investigations into the nature of the Chinese city have been undertaken from the standpoint of elites The Origins and Character of the Ancient Chinese City has adopted a point of view closer to that of the social scientist than the geographer Paul Wheatley was professor and chairman of the Committee on Social Thought at the University of Chicago He was most famous for his work dealing with comparative urban civilization Some of his books include The Places Where Men Pray Together Cities in Islamic Lands 7th to 10th Centuries Nagara and Commandery Origins of the Southeast Asian Urban Traditions and The Management of Success The Moulding of Modern Singapore with K S Sandhu

The Journal of the Siam Society ,1919 The Origins and Character of the Ancient Chinese City Paul Wheatley,2017-07-12 These two volumes elucidate the manner in which there emerged on the North China plain hierarchically structured functionally specialized social institutions organized on a political and territorial basis during the second millennium b c They describe the way in which during subsequent centuries these institutes were diffused through much of the rest of North and Central China Author Paul Wheatley equates the emergence of the ceremonial center as evidenced in Shang China with a functional and developmental stage in urban genesis and substantiates his argument with comparative evidence from the Americas Mesopotamia Egypt Southeast Asia the Mediterranean and the Yoruba territories The Origins and Character of the Ancient Chinese City seeks in small measure to help redress the current imbalance between our knowledge of the contemporary Western style city on the one hand and of the urbanism characteristic of the traditional world on the other Those aspects of urban theory which have been derived predominantly from the investigation of Western

urbanism are tested against rather than applied to ancient China The Origins and Character of the Ancient Chinese City examines the cosmological symbolism of the Chinese city constructed as a world unto itself It suggests with a wealth of argument and evidence that this cosmo magical role underpinned the functional unity of the city everywhere until new bases for urban life began to develop in the Hellenistic world Whereas the majority of previous investigations into the nature of the Chinese city have been undertaken from the standpoint of elites The Origins and Character of the Ancient Chinese City has adopted a point of view closer to that of the social scientist than the geographer

Cruyssen, 2002-05-15 Ambassadors from Versailles in wigs and lace mounted on elephants crossing rice fields Siamese mandarins prostrate before the throne of Louis XIV a Greek adventurer a scheming French Jesuit these are just a few of the colourful characters that play a role in the early history of relations between Siam and the West In a lively and engaging style Professor Dirk Van der Cruyssen traces the history of European Siamese relations from the arrival of the Portuguese around the beginning of the sixteenth century followed by the Dutch the British and the French Explorers merchants missionaries and ambassadors came and went across the oceans sometimes producing vivid accounts of lengthy voyages lavish courts and strange customs In these descriptions and anecdotes we observe the startling juxtaposition of fundamentally different worldviews arising from two distinct religious milieux Van der Cruyssen expertly weaves together material from journals memoirs and other archival documents quoting from them extensively to construct a compelling historical account of a fascinating relationship Originally published as *Louis XIV et le Siam* Fayard 1991 this English version has been ably translated by Michael Smithies author of numerous books and articles on the French involvement in Siam during the seventeenth century

Journey to the Kingdom of Cambodia Kalman Dubov, The Kingdom of Cambodia has an ancient pedigree a time when its people first established small principalities which evolved in small kingdoms These kingdoms merged often violently eventually establishing the great Angkorian kingdom of the Khmer The great building complex known as Angkor Wat an achievement of stupendous proportion whose dimensions are still being determined is a product of the Khmer Empire The empire was subject to much tension both internally from competing nobles who sought to ascend the powerful throne to outside kingdoms who tried to invade and subjugate the Khmer Vietnam to the east and further south also to the east was the Cham Empire while to the west was the Thai These three kingdoms warred with the Khmer eventually reducing it from grandeur After the Khmer Empire fell Cambodia entered a Dark Ages a period of 431 years from 1431 to 1862 years of scant records Historians today try to reconstruct why the empire fell and why its people moved from the Siem Reap area and why records from this time are almost entirely unknown In 1862 France became Cambodia's protector defending its autonomy from both Vietnam and Thailand Siam who were both nibbling at either end of Cambodia The Protectorate ended in 1942 when the Japanese occupied the land followed by the return of the French in 1945 after the end of the Second World War As in other countries subjugated by colonist powers the defeat of France encouraged Cambodian nationalists to fight for a return to independence and autonomy It is in this crucible that the Khmer Rouge a communist inspired group began an insurrection against the French and later against the Cambodian government The Khmer Rouge inspired by nihilistic beliefs came to power in 1975 and began the tragic genocide of the Cambodian people Between a quarter to a third of the people were murdered representing the best and the elite of its society There were many actors in

this saga both ancient and modern I review these persons to the extent known and the roles they played in Cambodian history and the effect it has had on the country today The character of Pol Pot mastermind and leader of the Khmer Rouge is of special importance I review his strange way of not identifying with a leadership role until absolutely necessary But the menace of this man went much deeper through guile and bland smiles he allayed fear about himself though he ordered the murder of those closest to him Yet even as they were led away they disbelieved the order for their deaths believing that if they could but have a moment with him all would be set right Even those closest to him did not see him for the monster he really was He was a master at guile and deception with none seeing the man as the monster of terror and destruction Even in the Far East where exhibiting emotion and genuine feeling is shunned to the nth degree this man s ability to remain hidden reflects the ultimate achievement But he brought ruin to his nation with today s loss of the elite of the country I spent two months in Cambodia visiting and researching material for this review During my time there I visited the only synagogue in the country the Chabad House in Phnom Penh It was then that I became aware of an amazing fact a granddaughter of royalty celebrated her Bat Mitzvah in the capital attended by members of the royal family The story of how a member of the Cambodian royal family became Jewish is itself an incredible development Cambodia today is a Third World country with many attractions both superb and revolting At core its representations reflect the saga of humanity whose pages are sometimes elevating and also horrific I describe my journey to this corner of Asia hoping I ve done justice to its many contours and personalities

The Role of Religions in the European Perception of Insular and Mainland Southeast Asia Monika Arnez, Jürgen Sarnowsky, 2016-08-17 For people nowadays the constant exchange of people goods and ideas and their interaction across wide distances are a part of everyday life However such encounters and interregional links are by no means only a recent phenomenon although the forms they have taken in the course of history have varied It goes without saying that travel to distant regions was spurred by various interests first and foremost economic and imperialist policies which reached an initial climax around 1500 with the European expansion to the Americas and into the Indian Ocean The motivations of European travellers for venturing to the regions of maritime and mainland Southeast Asia which are the focus of the studies presented here were manifold ranging from the pursuit of power commercial exploitation intellectual curiosity and the aspiration to proselytize among indigenous people This book adds to existing knowledge on travel travel experiences and travel writing by Europeans in mainland and insular Southeast Asia from the 16th to the 21st century based on specific case studies Moreover it demonstrates how Europeans perceived religion in the region presently known as Southeast Asia Working on the assumption that many of the European

traders seafarers explorers and administrators arriving in Southeast Asia came as Christians convinced of the superiority of their religion the contributors to this volume analyse their encounters with Muslims who had been their long standing enemies in the Mediterranean and with Hindus Buddhists and adherents of local religions They involve themselves closely with the travelogues and the role of religions therein and in doing so reveal the ways in which religion influenced the travellers understanding of societies in maritime and mainland Southeast Asia The volume explores a number of questions including How did European travellers perceive religion in different regions of Southeast Asia in different historical periods How did the administrators the missionaries the natural historians and the explorers position themselves vis vis Islam and Buddhism on Java and in Siam And what do travel accounts tell us about the way Southeast Asian people perceived the Europeans
