Sicilian Grand Prix Attack:

The Grand Prix Attack Evgeny Sveshnikov, 2015-07-16 The Grand Prix Attack is one of White's deadliest weapons against the Sicilian Defence. It continues to be highly popular with tournament chess players all over the world. While earlier publications mainly focused on tactics, this book finally gives the GPA the coverage it deserves. **Grand Prix Attack**

Ken Smith, John Hall (Senior Master.), 1995 *The Grand Prix Attack* Julian Hodgson, Lawrence Day, 1985 *Sicilian Grand Prix Attack* James Plaskett, 2000 The Grand Prix Attack is one of White's most aggressive counters to the Sicilian Defence. It leads to very complicated play and contains pitfalls for the unwary Black player. This guide describes and analyzes the moves.

Grand Prix Attack Julian Hodgson, Lawrence Day, Eric Schiller, 1985 The Grand Prix attack arises after 1 e4 c5 f4 or 1 e4 c5 Nc3 with 3 f4 and has become a feared system on the weekend tournament circuit. White often obtains a crushing kingside attack and the variation has led to many quick victories. One added advantage of the opening is that the strategic ideas tend to be very straightforward and regular practitioners will understand the methods of conducting the attack. *Grand Prix*

Attack F4 Against the Sicilian Julian Hodgson, Lawrence Day, Eric Schiller, 2013-03-01 The f4 Sicilian has become popular and feared because it avoids the frightening amount of knowledge required to play Open Sicilians. It is often not treated with the respect it deserves. The strategic aims are quite simple to understand. CHECKMATE The first edition was written when the Grand Prix Attack was just becoming noticed by strong players. Now there are over 20 000 examples in the databases. Nevertheless, the opening remains based more on the ideas explained by authors Hodgson and Day than on theory.

Starting Out Gawain Jones, 2008 A new look at the sharp and dangerous Grand Prix Attack which is one of White's most aggressive ways of countering the Sicilian Defence. It leads to very complicated play right from the opening moves and contains plenty of pitfalls for the unwary Black player. So whether you play the Sicilian as Black or need an antidote for White, this book is an essential addition to your armoury. *The Grand Prix Attack* Gary Lane, 1997 A comprehensive survey of the attacking lines with f4 against the Sicilian as played with great success by among others grandmasters Short, Hodgson and Hebden. **Attacking 101 - Volume #004** Joel Johnson, 2017-03-30 The goal of the books in this series Attacking 101

Volume 999 is to provide detailed analysis of my own attack games against lower rated players. The players are generally rated in the range of 1700 to 2100. They make the same mistakes you regularly witness in your games but here you get to see a Chess Master dissect and exploit the moves, show why they are wrong and how to punish the opponent's play. This book covers Black Openings and has deep coverage of the Alekhine's Defense and the Polish all lines. *My First Chess Opening Repertoire for White* Vincent Moret, 2016-05-11 Every chess player needs to decide which openings he is going to play. But where do you start? The risk of drowning in the turbulent sea of opening theory is only too real for beginning amateurs. Often your goals and ambitions will be misguided. Trying to win in 20 moves, copying what's in fashion among top GM's or memorizing variations are a waste of time. Most likely you will never play your preparation or end up by jumping from one
