Robson Noah Webster, 1863 *The Comic Event* Judith Roof, 2018-01-11 The Comic Event approaches comedy as dynamic phenomenon that involves the gathering of elements of performance signifiers timings tones gestures previous comic bits and other self-conscious structures into an event that triggers by virtue of a cut an expected unexpected resolution. Using examples from mainstream comedy The Comic Event progresses from the smallest comic moment jokes bits to the more complex caricatures sketches sit-coms parody films and stand-up routines. Judith Roof builds on side comments from Henri Bergson's short treatise *Laughter* Sigmund Freud's *Jokes and Their Relation to the Unconscious* and various observations from Aristotle to establish comedy as a complex multifaceted practice. In seeing comedy as a gathering event that resolves with a cut Roof characterizes comedy not only by a predictable unpredictability occasioned by a sudden expected unexpected insight but also by repetition seriality self-consciousness self-referentiality and an ouroboric return to a previous cut. This theory of comedy offers a way to understand the operation of a broad array of distinct comic occasions and aspects of performance in multiple contexts The shady side; or, Life in a country parsonage, by a pastor's wife [M.S.
