Siderurgica Lazaro Cardenas-Las Truchas Nelson Minello, **Siderúrgica Lázaró Cárdenas-Las Truchas** Nelson Minello,1982 **Michoacán. Historia breve** Álvaro Ochoa Serrano, Gerardo Sánchez Díaz, 2016-08-02 Estudio sobre la historia regional de Michoacán que complementa las abundantes obras de investigación sobre la historia de México brindando una visión panorámica y sintética pero no simplificada del apasionante proceso histórico del estado. A través de una narración sugestiva el lector no especializado encontrará un recorrido por la historia de esta entidad regional de notable presencia en la conciencia nacional como una invitación a evaluar las repercusiones de este proceso en su vida cotidiana. Esta edición permite entrar en contacto con la historia general de Michoacán desde la época prehispánica hasta llegar al Michoacán contemporáneo.

Michoacán, sociedad, economía, política y cultura Jorge Zepeda Patterson, 1990 *El fin de toda la tierra* Gustavo Marín Guardado, 2004 Este libro es una contribución al conocimiento de la costa michoacana pues a través de la historia la crónica la ecología la política la economía y la antropología se reconstruye describe y analiza parte de la realidad anegada en una franja de quimeras entre la sierra y el mar. El litoral michoacano se muestra aquí como un espacio vital plagado sin embargo de contradicciones e interrogantes sobre la viabilidad de un mejor futuro lo que depende en mucho del conocimiento la comprensión y la conciencia de los procesos que vivimos y enfrentamos. **The World Bank** Devesh Kapur, John P.

Lewis, Richard C. Webb, 2010-12-01 This effort constitutes the most comprehensive and authoritative work to date on the history of the International Bank for Reconstruction and Development or the World Bank. Author editors John Lewis Richard Webb and Devesh Kapur chronicle the evolution of this institution and offer insights into its successes failures and prospects for the future. The result of their intense labors is an invaluable resource for other researchers and a fascinating study in its own right. The work is divided into two volumes. The first is organized thematically and examines the critical events and policy issues in the World Bank's development over the last fifty years. Chapter topics include poverty alleviation structural adjustment lending environmental programs the International Finance Corporation IFC the International Development Association IDA and the evolution of the Bank as an institution. The second volume contains case studies written by experts with experience in the various regions in which the Bank operates. There are chapters on the Bank's activities in Korea Mexico Africa South Asia and Eastern Europe. Volume 2 also contains essays on the World Bank's relationship with the United States Japan and Western Europe and its partnership with the International Monetary Fund IMF. By special arrangement the authors have had wide ranging access to confidential documents at the World Bank making this work a unique source of information on the internal workings of this critical institution. They have also drawn on extensive interviews with current and past Bank officials. Moreover publication could not be more timely coming as it does when many in the development community and in the U.S. Congress are questioning the Bank's track record and even its reason for existence. *The World Bank Its First Half Century* will be of great interest not only to development practitioners but also to students of

international relations development economics and global finance During the course of the project John P Lewis and Richard Webb were nonresident senior fellows and Devesh Kapur was a program associate in the Foreign Policy Studies program at the Brookings Institution
