Sidney Keyes Collected Poems

**Sidney Arthur Kilworth KEYES, Michael
Leverson Meyer**

Sidney Keyes Collected Poems:

Collected Poems Sidney Keyes, 2002 Including a wide variety of poems and dramatic monologues this collection of Sidney Keyes's work demonstrates the poet's mastery of literature. Keyes was considered by some to be a prodigy writing strikingly even before his undergraduate years at Oxford. His work illustrates his fusion of Romanticism and Continental style derived from his interest in such artists as Rilke, Wordsworth, Yeats, Schiller, and Klee. His unique macabre pastoral landscapes wildly separate him from his contemporaries. *The Collected Poems of Sidney Keyes* Sidney Keyes, 1988 **The Collected**

Poetry Tim Kendall, 2007-02-22 The Handbook ranges widely and in depth across 20th century war poetry incorporating detailed discussions of some of the key poets of the period. It is an essential resource for scholars of particular poets and for those interested in wider debates. Contributors include some of the most important international poetry critics of our time.

Stonypath Days Ian Hamilton Finlay, 2016-09-26 These letters to and from Finlay's friend the English poet and scholar Stephen Bann centre on the initial development of the garden at Stonypath near Edinburgh, later to become the world renowned Little Sparta. They cover Finlay's turn away from poetry towards sculpture and garden design and the thinking behind and consequences of this development. *Collected Critical Writings* Geoffrey Hill, 2008-02-29 The Collected Critical Writings of Geoffrey Hill gathers more than forty years of Hill's published criticism in a revised final form and also adds much new work. It will serve as the canonical volume of criticism by Hill, the pre-eminent poet-critic whom A. N. Wilson has called probably the best writer alive in verse or in prose. In his criticism Hill ranges widely investigating both poets including Jonson, Dryden, Hopkins, Whitman, Eliot, and Yeats and prose writers such as Tyndale, Clarendon, Hobbes, Burton, Emerson, and F. H. Bradley. He is also steeped in the historical context, political, poetic, and religious of the writers he studies. Most importantly, he brings texts and contexts into new and telling relations, neither reducing texts to the circumstances of their utterance nor imagining that they can float free of them. A number of the essays have already established themselves as essential reading on particular subjects such as his analysis of Vaughan's *The Night*, his discussion of Gurney's poetry, and his critical account of *The Oxford English Dictionary*. Others confront the problems of language and the nature of value directly as in *Our Word is Our Bond*, *Language Suffering*, and *Value and Poetry and Value*. In all his criticism Hill reveals literature to be an essential

The Cambridge Companion to the Literature of World War II Marina MacKay, 2009-01-22 An overview of writing about the war from a global perspective aimed at students of modern literature **British Poetry of the Second World War** L. Shires, 1985-06-03 *Language, Truth, and Literature* Richard Gaskin, 2013-04-18 According to the literary humanist works of imaginative literature have an objective meaning which is fixed at the time of their production and which is the same for all readers then and thereafter not subject to the vagaries of individual readers' responses. Such works refer to the real world and make statements about that world which are of cognitive as well as aesthetic value: the two kinds of value are indeed intimately connected. Richard Gaskin offers a defence of literary humanism so understood against assault from two directions. On the one hand some analytic aestheticians have argued that works of literature do not bear referentially on the world and do not make true statements about it; others hold that such works do not make a contribution to knowledge; others again allow that works of literature may have cognitive value but deny that this depends on their having truth or reference. On the other hand reception theorists and deconstructionists have rejected the humanist's objectivist conception of literary meaning and typically take a pragmatist and anti-realist approach to truth and meaning. This latter poststructuralist treatment of literature has often been accompanied by a radical politicization of its study. In defending literary humanism against these various forms of attack Gaskin shows that the reading and appreciation of literature is a cognitive activity fully on a par with scientific investigation and that we can and should engage in it disinterestedly for the sake of what can be learnt about the world and our place in it. Twentieth-Century War Poetry Philippa Lyon, 2004-10-28 Poets have written about wars throughout the 20th century questioning protesting and sometimes celebrating the nature and purpose of conflict. Attracting an enthusiastic popular readership war poetry has often been seen as a way of remembering and re-imagining wars. Today war poems are not only part of our memorial culture on epitaphs and in Remembrance Day services but have inspired books and films and become studied widely around the world. This Guide examines the genesis and development of the important genre of war poetry in the twentieth century focusing in particular on the role of the two world wars in the literary and cultural construction of a war poetry category. Philippa Lyon draws upon a range of key historical and contemporary critical responses from poetic memoir and journalism to sophisticated academic criticism to demonstrate the rich diversity of expectations and evaluations elicited by the developing genre. Culture in Camouflage Patrick Deer, 2009-03-26 Examines how literary writers including Ford Madox Ford Siegfried Sassoon Wilfred Owen James Hanley Evelyn Waugh Graham Greene and others countered the war culture promoted by mass media war planners and military historians **Poetry of the Second World War** Tim Kendall, 2024-09-25 The Second World War is now recognized as a watershed for British poetry. The changes that arose were masked for some time by the enormous power and shock of the

conflict itself and by the restrictions on poetry publishing consequent on paper rationing and the general business of wartime. This anthology seeks to showcase not only the harrowingly beautiful poetry born from the conflict but also the radical changes to style and form that came from the epoch and altered the face of British poetry. Featuring generous selections of famous poets including Dylan Thomas, T. S. Eliot and W. H. Auden alongside works by civilians and soldiers, the collection offers a symphony of different voices all connected in their shared experience of the Second World War. Tim Kendall's introduction charts the history of the war poets' reception, explaining their relationship with their First World War predecessors and some of the reasons why they have never managed to reach such a wide audience. The work of each poet is prefaced with a biographical account which allows poems to be read in their historical context, and every poem is annotated with date of composition, publication history and a gloss of words and allusions.
