The Office of Ceremonies and Advancement in Curial Rome, 1466-1528 Jennifer Mara DeSilva, 2022-02-07 This cultural and institutional history explores the careers of men who served in Rome's Office of Ceremonies during the papal court's growth period c 1466-1528 in order to understand how the smallest papal college stands as a model of early modern curial advancement. The experiences and textual contributions of three ceremonialists Agostino Patrizi, Johann Burchard, and Paris de Grassi show diverse strategies and origins but similar concerns and achievements. In a period of heightened competition and increasing pressure for regularization and reform, the Office's professionalization and their combined office holding networks and textual production reveal how early modern curialists got ahead. This study shows the complexity of successful advancement strategies that were cultivated over decades and stretched far beyond papal support.

Art and the Augustinian Order in Early Renaissance Italy Anne Dunlop, 2016-12-05 The rise of the mendicant orders in the later Middle Ages coincided with rapid and dramatic shifts in the visual arts. The mendicants were prolific patrons relying on artworks to instruct and impress their diverse lay congregations. Churches and chapels were built and new images and iconographies developed to propagate mendicant cults. But how should the two phenomena be related? How much were these orders actively responsible for artistic change and how much did they simply benefit from it? To explore these questions *Art and the Augustinian Order in Early Renaissance Italy* looks at art in the formative period of the Augustinian Hermits, an order with a particularly difficult relation to art. As a first detailed study of visual culture in the Augustinian order, this book will be a basic resource making available previously inaccessible material, discussing both well-known and more neglected artworks and engaging with fundamental methodological questions for pre-modern art and church history from the creation of religious iconographies to the role of gender in art.

*Italian Renaissance Art* Laurie Schneider Adams, 2018-05-04 The chronology of the Italian Renaissance, its character and context, have long been a topic of discussion among scholars. Some date its beginnings to the fourteenth-century work of Giotto; others to the generation of Masaccio, Brunelleschi, and Donatello that flourished from around 1400. The close of the Renaissance has also proved elusive. Mannerism, for example, is variously considered to be an independent but subsidiary late aspect of Renaissance style or a distinct style in its own right.

**Etruscan Italy** John Franklin Hall, 1996 Livy describes the Etruscans as filling the whole of ancient Italy with their power and influence. While Etruscan rule throughout large parts of the Italian peninsula endured for but a few centuries, Etruscan influence was so extensive that in some respects it continues into the present. Outside the Etruscan heartland, Rome itself was perhaps the best preserver of things Etruscan. The fourteen essays comprising this volume explore Etruscan Italy and examine the influence exerted by Etruscan civilization upon the cultures of Italy in Roman and post-Roman times. Represented are contributions from various disciplines which converge to employ multiple methodologies in a comprehensive approach to delineating the enduring themes of Etruscan Italy.
