Las *siete*7 bolas de cristal Georges Remy, 1961 La calle de las camelias Mercé Rodoreda, 2023-02-15 Rodoreda nos conduce en La calle de las Camelias hacia el descenso a los infiernos de Cecilia una mujer profundamente marcada por el abandono que sufrió al nacer A pesar de ser recogida y criada por una amorosa pareja de señores de mediana edad Cecilia no logra encontrar un espacio en el mundo y lo busca desesperada e infructuosamente en la cama de diversos hombres Con un

prosa que parece hilada de forma sencilla empapada de lenguaje hablado Rodoreda combina las relaciones amorosas de Cecilia con el conmovedor sentimiento de soledad y nostalgia que caracteriza habitualmente a sus personajes siempre en busca de la libertad. Así, la calle de las Camelias es sencillamente una obra inolvidable que supone la culminación de la técnica realista que Merc Rodoreda iniciara con inusitado éxito en La plaza del Diamante. Porque nadie como Rodoreda ha logrado dotar de un mundo interior tan rico a sus personajes femeninos.

Grandes juristas

Alejandro Vergara Blanco, 2024-04-01. El derecho como fenómeno social no está constituido únicamente por la ley. El derecho se nos presenta en cuatro dimensiones: las normas de las que deriva el derecho normativo o legal, el hecho jurídico del que se deriva la costumbre, de los que se desprende el derecho vivido, la jurisprudencia que emana de las sentencias emitidas por los jueces y por último, la doctrina dedicada a la construcción de disciplinas especializadas y a la elaboración de escritos académicos, manuales y tratados. Es en medio de esta última fuente, en donde aparecen los juristas, pues son los autores de los libros de doctrina. Dentro de esta obra, tendremos la posibilidad de distinguir los distintos roles que cumplen aquellos técnicos formados en las ciencias del derecho que llamamos juristas. La estructura del libro consta de una presentación, una breve reseña sobre el contenido del libro, veinticuatro capítulos que contienen los textos escritos por especialistas referentes a los juristas en estudio y al final se ofrece una breve biografía de cada jurista.

El rito y la historia. La configuración de la memoria en el mundo andino Antoinette

Molinié, 2023-03-01. El rito y la historia. La configuración de la memoria en el mundo andino. reúne una serie de trabajos de Antoinette Molini que en su conjunto ofrecen un panorama amplio y articulado de cómo los andinos recuerdan su pasado y forjan su memoria histórica y cultural y por ende su misma identidad a través de celebraciones y fiestas. Mediante un refinado análisis antropológico de rituales clave del Estado inca y de un acervo de precisos y novedosos datos etnográficos recogidos durante años de trabajo de campo en la región del Cuzco y el altiplano boliviano, la autora evidencia cómo cargados de historicidad, pueden estar determinados ritos andinos del pasado y del presente, así como las conexiones profundas entre los unos y los otros. Además, siguiendo los pasos de grandes antropólogos del pasado como José María Arguedas y Julian Pitt Rivers, Molini coteja sus observaciones sobre rituales en los Andes con la información levantada en sus investigaciones etnográficas en España. Lo que le permite establecer fecundas comparaciones entre la tradición ibérica y la andina. Asimismo, los ritos de historicidad descritos y analizados en este libro no quedan circunscritos a las sociedades indígenas tradicionales y al aporte colonial del campo hispanico, sino que llegan a abarcar también fenómenos contemporáneos urbanos como el neoincasmo y el neoindianismo. Es así como *El rito y la historia* termina siendo un fascinante estudio completo a la vez estructural y diacrónico de la configuración de la memoria en el mundo andino en sus diferentes y dinámicas manifestaciones en el tiempo y el espacio.
