Cosmopolitanism, Globality Gesine Müller, Mariano Siskind, 2019-10-21 From today's vantage point it can be denied that the confidence in the abilities of globalism mobility and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken In the face of this crisis a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision World Literature Cosmopolitanism Globality Beyond Against Post Otherwise offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses aesthetics and political positions of liberal cosmopolitanism and neoliberal globalization Departing basically but not exclusively from different examples of Latin American literatures and cultures in globalized contexts this volume provides innovative insights into critical readings of World Literature and its related conceptualizations A timely book that embraces highly innovative perspectives it will be a must-read for all scholars involved in the field of the global dimensions of literature **The**

Routledge Companion to Literature and the Global South Alfred J. López, Ricardo Quintana-Vallejo, 2023-10-20 The Routledge Companion Literature and the Global South offers a comprehensive overview of the field at a key moment in its development a snapshot of where Global South literary studies stands in its second decade As the aftermath of a string of global cataclysms since the rise of neoliberal globalization has demonstrated it is the poor the disenfranchised and the marginalized who consistently bear the brunt of the suffering What defines the Global South is the recognition across the world that globalization's promised bounties have not materialized It has failed as a global master narrative Global South studies centers on three general areas Globalization its aftermath failure and how those on the economic bottom survive it Organized into three parts this volume consists of original essays by 25 contributors from around the world Part I focuses on the origins and objects of Global South studies and how this field has come to define and historicize its organizing concept Part II considers subsequent critical developments in Global South studies particularly those that embrace interdisciplinary and transdisciplinary approaches Part III features case studies which highlight a range of applications and interventions The

contributors critique the boundaries and definitions explored in the earlier parts and push settled literatures or methods into new analytical spaces This innovative collection is an invaluable resource for anyone studying and researching Global South studies and literature but also those interested in world literature contemporary literature postcolonialism decolonizing the curriculum critical race studies gender studies and politics Esperanza, pero no para nosotros. Capitalismo, técnica y estética en Walter Benjamin Horst Rolf Nitschack Nitschack, Miguel Vatter Rubio, 2021-08-19 Los autores resaltan en qué medida la crítica benjaminiana del mundo capitalista de la fantasmagoría de la mercancía de la pérdida del aura su crítica de la modernidad revela en sus medios técnicos y en su estética una dialéctica salvadora

Global Critical Theories Oliver Kozlarek, Gustavo Leyva Martínez, 2025-08-12 Today Critical Theory is no longer tied to a specific place in the world Rather genuine developments of Critical Theories can be observed in many academic contexts around the world The contributions collected in this book show that the various projects of Critical Theory have not always and not exclusively emerged from the reception of the so called Frankfurt School but that the successful global expansion of capitalist modernity has triggered developments of Critical Theories in many parts of the world as an appropriate academic and intellectual endeavor of critique Whether or not the tradition of the Frankfurt School is followed Critical Theories are always about an undogmatic reading of Marxist theory the critique of global capitalist modernity the question of how this critique should be normatively grounded and how different academic disciplines should complement each other in a common endeavor of critical social and cultural research The book provides an overview of debates and variants of critical theories in selected countries

The Savage Detectives Reread David Kurnick, 2022-02-01 The Savage Detectives elicits mixed feelings An instant classic in the Spanish speaking world upon its 1998 publication a critical and commercial smash on its 2007 translation into English Roberto Bolaño's novel has also been called an exercise in 1970s nostalgia an escapist fantasy of a romanticized Latin America and a publicity event propped up by the myth of the bad boy artist David Kurnick argues that the controversies surrounding Bolaño's life and work have obscured his achievements and that The Savage Detectives is still underappreciated for the subtlety and vitality of its portrait of collective life Kurnick explores The Savage Detectives as an epic of social structure and its decomposition a novel that restlessly moves between the big configurations of states continents and generations and the everyday stuff parties jobs moods sex conversation of which they're made For Kurnick Bolaño's book is a necromantic invocation of life in history one that demands surrender as much as analysis Kurnick alternates literary critical arguments with explorations of the novel's microclimates and neighborhoods the little atmospheric zones where some of Bolaño's most interesting rethinking of sexuality politics and literature takes place He also claims that The Savage Detectives holds particular interest for U.S. readers not because it panders to them but because it heralds the exhilarating prospect of a world

in which American culture has lost its presumptive centrality

La tarea del traductor Walter Benjamin Walter Benjamin, Nora Catelli, 2021-09-21 El prólogo que Walter Benjamin escribió en 1923 para su traducción de los *Tableaux parisiens* de Baudelaire iba a convertirse décadas más tarde en uno de los documentos centrales del debate sobre traducción y teoría de la literatura teológica deconstrucción y hermenéutica Como dice Nora Catelli hacia finales de los años setenta del siglo XX La tarea del traductor abandonó su lugar marginal y se transformó en un texto apócrifo Apócrifo por lo inesplicable y a la vez seminal debido a su potencia y sus posibilidades interpretativas El presente volumen es un recorrido de ese texto y sus derivas recorrido en sentido literal puesto que Catelli glosa y expande cada uno de sus doce párrafos Recorrido en sentido histórico de cómo ese prólogo escrito para ocupar una posición liminal en la traducción de uno de los clásicos de la modernidad del poeta que ocupó a Benjamin durante buena parte de su trabajo sobre literatura se convirtió en un capítulo ineludible del devenir intelectual del siglo XX Y en fin recorrido de lo más relevante de la constelación que orbita en torno a ese escrito de Benjamin Particularmente el trabajo de Paul de Man Conclusiones acerca de La tarea del traductor de Walter Benjamin 1983 pero también La era de la traducción de Antoine Berman 2008 De modo que este libro puede leerse también como un compendio de las ideas centrales acerca de la traducción y del cruce de disciplinas que suponen las reflexiones en torno a la traducción en los últimos cincuenta años Edgardo Dobry

Caminos a la autoficción Diana Diaconu, 2022-01-18 Frente a los enfoques temáticos y de corte formal este ensayo trae a primera plana un aspecto crucial para una teoría de la autoficción latinoamericana Se trata del significado estético y cultural del nuevo género narrativo en América Latina es decir de su dimensión histórica que permite entenderlo como una manera distinta de interpretar y evaluar la realidad contemporánea y la tradición literaria Aquí se parte de la premisa según la cual la autoficción en sus expresiones genuinas es uno de los caminos centrales de renovación en el mapa a través del trazar de la narrativa latinoamericana contemporánea Después de un estudio dedicado a la obra de Fernando Vallejo en este se explora el camino que lleva al surgimiento de un nuevo y desconcertante género narrativo la autoficción con sus particularidades propias de la contemporaneidad latinoamericana Razón por la cual urge rescatarla del gran saco donde cabe todo bajo la etiqueta de las escrituras del yo que recae de manera arbitraria la producción narrativa contemporánea en primera persona y donde se pierde su particular y valioso mensaje A través de la lectura paralela de tres libros de excepción como sin remedio de Antonio Caballero Los detectives alvajes de Roberto Bolaño y Respiración artificial de Ricardo Piglia se enfocan aspectos esenciales que conducen al género el pacto de lectura específico que propone el nuevo lector que crea la figura de autor que inventa y las estrategias narrativas que convierten en escritura este ambicioso y retador proyecto estético

Discourse, 2010 **Capitalismo cansado** Luis Arenas, 2021-03-15 Ha pasado ya más de una década desde que la crisis de 2008 acabara de resquebrajar el mundo surgido tras la Segunda Guerra Mundial Desde entonces los esfuerzos por clarificar este horizonte convulso y aparentemente ininteligible siguen dando escasos resultados La desorientación se extiende en los ámbitos políticos y en los económicos ante las amenazas que impone un entorno

caracterizado por graves tensiones medioambientales por el desafío de la robotización e informatización y la inteligencia artificial por los flujos migratorios por el calentamiento global por la irrupción de la extrema derecha o por la creciente desigualdad e injusticia global. Todos los datos apuntan a un agotamiento sistémico cuyo síntoma más evidente es el cansancio que parece mostrar el capitalismo desde hace más de una década. En este contexto resulta en extremo optimista dar por asumidos logros culturales, políticos y civilizatorios que se creía consolidados hasta hace poco por lo que vale la pena repensar de manera radical para las próximas décadas los supuestos económicos, ecológicos, geopolíticos, culturales, pedagógicos asumidos acríticamente como telón de fondo de nuestras vidas. Porque incluso si como muchos sospechan estamos ante el amanecer de un sistema completamente distinto al que conocimos, no hay garantías de que lo que finalmente acabe por triunfar se parezca más a nuestros sueños políticos que a nuestras pesadillas. Lo fascinante de la encrucijada a la que nos enfrentamos es que sabemos que el pasado quedará para siempre y no volver, pero aún no somos capaces de vislumbrar qué será lo que lo sustituya.
