A. G. van Meerhaeghe, 2012-12-06 What made me write this book was a feeling that students of international economics needed to find out their knowledge of the theory with work on the practice of the major international economic organizations many of which are having a growing influence on the national economies of their members There was no single volume given over to a concise treatment of these organizations of the international organizations themselves can be seen The annual reports resulted of course but as a rule these are not noted for being brief and to the point the items of importance have to be fished out of a sea of useless detail nor do they go in for criticism of their own activities In selecting the organizations to be dealt with in the book I was guided by the influence they exert I have left out those whose activities consist mainly in the drafting recommendations to which however meritorious they may be little or no attention is paid Some of them are included in the Introduction which provides a summary of a number of institutions not discussed separately in the body of the work There are however two exceptions the Organization for Economic Cooperation and Development OECD as the organization replacing the Organization for European Economic Cooperation OEEC and the United Nations Conference on Trade and Development UNCTAD whose meetings have succeeded in drawing much attention of the press *Trade Effects of Public Subsidies to Private Enterprise* Geoffrey Denton, 1975-06-18 Regional Cooperation, Organizations and Problems Rudolf Bernhardt, 2014-05-12 Encyclopedia of Public International Law 6 Regional Cooperation Organizations and Problems focuses on regional organizations cooperation and problems including boundary disputes membership and functions of organizations The publication first elaborates on the American Canadian Boundary Disputes and Cooperation American Mexican Boundary Disputes and Cooperation Andean common market League of Arab States and the Association of South east Asian Nations

Discussions focus on structure and organization activities evaluation membership functions and establishment objectives and principles The text then examines the Balkan Pact of 1953 1954 Belgium Luxembourg Economic Union Benelux Economic Union and boundary disputes between China and USSR The manuscript considers the boundary disputes in Latin America and Africa Council for Mutual Economic Assistance European Atomic Energy Community European Coal and Steel Community and the European Conference of Postal and Telecommunications Administrations The publication also takes a look at the Economic Community of West African States European Atomic Energy Community and the European Atomic Energy Society The book is a vital source of information for researchers interested in regional organizations cooperation and problems
