Meier, 2019-11-26 A comprehensive theory to practice guidebook, *Supporting Literacies for Children of Color* argues for a new strength-based view of teaching to support the literacy talents and abilities of preschool-aged children of Color. The early childhood field is at a critical juncture in preschool literacy education as educators confront an ever-changing array of curricular approaches and assessment measures while still trying to meet the social, cultural, language, and literacy needs of individual children. By integrating parent and teacher literacy perspectives as well as calling on the author's own decades of teaching, this book offers practical tools and strategies for culturally responsive pedagogy and demonstrates effective methods for using oral language and multilingualism to celebrate and deepen the literacy capabilities of children of Color. Featuring examples of children's literacy processes and products both at home and in preschools to illustrate effective instructional strategies as well as boxes noting important ideas and strategies, in each major section this text will guide students and educators toward creating a supportive learning environment for children of Color.
