Organising Music In Libraries Vol 1 Arrangement And Classification:

Music Classification Systems Mark McKnight, 2002-04-16 Due to the distinctive nature of music as a separate language that non musicians are often unable to read or understand the cataloging and classification of music materials frequently present special challenges In response to this often problematic situation this volume is designed to introduce the principles of music classification to beginning music catalogers as well as to non specialist catalogers and those who only occasionally deal with music materials It will surely relieve the stress level for general catalogers by providing practical guidelines as well as clarifying and explaining the most commonly used classification systems in the United States the Dewey Decimal Classification DDC the Library of Congress Classification LCC and the Alpha Numeric System for Classification of Recordings ANSCR Also included is a general historical overview of music classification from early attempts to organize specific collections to the efforts of Oscar Sonneck and others to adapt fundamental principles of classification to the distinctive characteristics of music materials as well as a discussion of the special needs of the users of those materials
