Other World Spiritualism And Psychical Research In England 1850 1914:

The Other World Janet Oppenheim,1985 A study of the public fascination with spiritualism and psychical research in Victorian and Edwardian times *Spiritualism and British Society Between the Wars* Jenny Hazelgrove,2000-09-02

Historians of modern British culture have long assumed that under pressure from secular forces interest in spiritualism had faded by the end of the Great War Jenny Hazelgrove challenges this assumption and shows how spiritualism grew between the wars and became part of the fabric of popular culture This book provides a fascinating and lively insight into an alternative culture that flourished and continues to flourish alongside more conventional outlets for spiritual beliefs and needs **The Encyclopedia of Parapsychology** Courtney M. Block,2022-09-14 Superbly organized and researched this

book by Block provides a comprehensive presentation about parapsychology Library Journal Starred Review The Encyclopedia of Parapsychology covers the history of parapsychology key international figures and a decade by decade annotated bibliography of research It includes find information on early psychical researchers from around the globe and how the work of those psychical researchers inspired the creation of the modern field of parapsychology Alongside biographical entries about key figures are sketches of those at the center of psychical inquiry like mediums and others who seemingly have the ability to manifest strange phenomena The Encyclopedia covers the Spiritualism era which influenced early psychical inquiry and how it influenced psychical thought around the globe More contemporary coverage includes biographical entries for current international researchers who continue to investigate the depths of psi phenomena In order to provide comprehensive coverage of historical and modern research into psi phenomena the Encyclopedia features a decade by decade bibliography of resources that highlight the shifting theories and experiments of the field starting from the 1870s and going through the 2020s This section includes a wide variety of research into topics such as psychokinesis hauntings poltergeists also known as recurrent spontaneous psychokinesis near death experiences extrasensory perception remote viewing and much more Appendices provide information on international parapsychological research organizations and a quick start research guide With information on key figures and research on an international scale The Encyclopedia of Parapsychology provides an approachable yet comprehensive compendium of information *The Invention of Telepathy, 1870-1901* Roger Luckhurst,2002 The Invention of Telepathy explores one of the enduring concepts to emerge from the late nineteenth century Telepathy was coined by Frederic Myers in 1882 He defined it as the communication of any kind from one mind to another independently of the recognised channels of sense By 1901 it had become a disputed phenomenon amongst physical scientists yet was the royal road to the unconscious mind Telepathy was discussed by eminent men and women of the day including Sigmund Freud Thomas Huxley Henry and William James Mary Kingsley Andrew Lang Vernon Lee W T Stead and Oscar Wilde Did telepathy signal evolutionary advance or possible decline Could it be a means of binding the Empire closer together or was it used by natives to subvert imperial communications Were women more sensitive than men

and if so why Roger Luckhurst investigates these questions in an exciting and accessible study that mixes history of science with cultural history and literary analysis *Spectres of the Self* Shane McCorristine, 2010-07-22 Examines the culture of ghost seeing arguing that the ghost represents a symbol of the psychological hauntedness of modern experience

Victorian Interdisciplinarity and the Sciences Bernard Lightman, Efram Sera-Shriar, 2024-05-14 The specialization thesis the idea that nineteenth century science fragmented into separate forms of knowledge that led to the creation of modern disciplines has played an integral role in the way historians have described the changing disciplinary map of nineteenth century British science This volume critically reevaluates this dominant narrative in the historiography While new disciplines did emerge during the nineteenth century the intellectual landscape was far muddier and in many cases new forms of specialist knowledge continued to cross boundaries while integrating ideas from other areas of study Through a history of Victorian interdisciplinarity this volume offers a more complicated and innovative analysis of discipline formation Harnessing the techniques of cultural and intellectual history studies of visual culture Victorian studies and literary studies contributors break out of subject based silos exposing the tension between the rhetorical push for specialization and the actual practice of knowledge sharing across disciplines during the nineteenth century **Common Phantoms** Alicia Puglionesi, 2020-08-25 S ances clairvoyance and telepathy captivated public imagination in the United States from the 1850s well into the twentieth century Though skeptics dismissed these experiences as delusions a new kind of investigator emerged to seek the science behind such phenomena With new technologies like the telegraph collapsing the boundaries of time and space an explanation seemed within reach As Americans took up psychical experiments in their homes the boundaries of the mind began to waver Common Phantoms brings these experiments back to life while modeling a new approach to the history of psychology and the mind sciences Drawing on previously untapped archives of participant reported data Alicia Puglionesi recounts how an eclectic group of investigators tried to capture the most elusive dimensions of human consciousness A vast though flawed experiment in democratic science psychical research gave participants valuable tools with which to study their experiences on their own terms Academic psychology would ultimately disown this effort as both a scientific failure and a remnant of magical thinking but its challenge to the limits of science the mind and the soul still reverberates today *F.C.S. Schiller and the Dawn of Pragmatism* Mark J. Porrovecchio, 2011-01-01 The intellectual history of pragmatism traditionally posits that its origins are found in the works of C S Peirce William James and John Dewey What if that story is only partially true Ferdinand Canning Scott Schiller the foremost first generation British pragmatist was one of the most vocal proponents of pragmatism in the late 1800s and early 1900s He penned over a dozen books authored hundreds of essays and reviews and sought to popularize the philosophy of practicalism Yet in the years before and after his death both he and his critics engaged in arguments that helped to erase him from the story of pragmatism *F C S Schiller and the Dawn of Pragmatism The Rhetoric of a Philosophical Rebel* by Mark J Porrovecchio is the first comprehensive biography of Schiller ever undertaken It seeks to

answer questions like Why were Schiller's own arguments used against him Why were his interests philosophical and otherwise central to his erasure Why would the pragmatism of today gain by reclaiming a neglected figure from its past A crucial part of understanding those questions relates to the rhetorical strategies at play in the arguments Schiller made Pragmatism today is a vital and vibrant part of interdisciplinary discussions that range from philosophy to religion to science to politics But it is intellectually incomplete and historically inaccurate Reclaiming Schiller means asking hard questions about the functions and scope of pragmatism Though the answers will not suit everyone they will help to make pragmatism past present and future more honest more engaging and more interesting

Victorian Occultism and the Making of Modern Magic A. Butler, 2011-01-05 The late Victorian period witnessed the remarkable revival of magical practice and belief Butler examines the individuals institutions and literature associated with this revival and demonstrates how Victorian occultism provided an alternative to the tightening camps of science and religion in a social environment that nurtured magical beliefs

William James and the Transatlantic Conversation Martin Halliwell, Joel D. S. Rasmussen, 2014-01-30 William James and the Transatlantic Conversation focuses on the American philosopher and psychologist William James 1842-1910 and his engagements with European thought together with the multidisciplinary reception of his work on both sides of the Atlantic since his death James's encounters with European thinkers and ideas ran throughout his early life and across his distinguished international career in which he participated in a number of transatlantic conversations in science philosophy psychology religion ethics and literature This volume explores and extends these conversations by drawing together twelve scholars from a range of disciplines on both sides of the Atlantic to assess James's work in all its variety to trace his multidisciplinary reception across the twentieth century and to evaluate his legacy in the twenty-first century The first half of the book considers James's many intellectual influences and the second half focuses on *A Pluralistic Universe* 1909 the published text of his 1908 Hibbert Lectures at Oxford University as a key text for assessing James's transatlantic conversations The pluralistic transatlantic currents addressed in the first part of the volume enable a fuller understanding of James's philosophy of pluralism that forms the explicit focus for the second part Taken as a collection the volume is unique in scholarship on James in generating transatlantic interdisciplinary and cross-generational dialogues and it repositions James as an important international thinker and arguably the most distinctive American intellectual figure of the nineteenth and twentieth centuries

Apartment Stories Sharon Marcus, 2023-11-15 In urban studies the nineteenth century is the age of great cities In feminist studies it is the era of the separate domestic sphere But what of the city's homes In the course of answering this question *Apartment Stories* provides a singular and radically new framework for understanding the urban and the domestic Turning to an element of the cityscape that is thoroughly familiar yet frequently overlooked Sharon Marcus argues that the apartment house embodied the intersections of city and home public and private and masculine and feminine spheres Moving deftly from novels to architectural treatises legal debates and popular urban observation Marcus compares

the representation of the apartment house in Paris and London Along the way she excavates the urban ghost tales that encoded Londoners ambivalence about city dwellings contends that Haussmannization enclosed Paris in a new regime of privacy and locates a female counterpart to the fl neur and the omniscient realist narrator the porti re who supervised the apartment building In urban studies the nineteenth century is the age of great cities In feminist studies it is the era of the separate domestic sphere But what of the city s homes In the course of answering this question Apartment Stories provides a singular

Resisting history Rhodri Hayward,2013-07-19 How can historians make sense of visions hauntings and demonic possession Do miraculous events have any place in a world governed by cause and effect In Resisting history Rhodri Hayward examines the cumulative attempts of theologians historians and psychologists to create a consistent and rational narrative capable of containing the inexplicable This lucid and provocative account argues that the psychological theories we routinely use to make sense of supernatural experience were born out of struggles between popular mystics and conservative authorities Hayward s lively analysis of the Victorian disciplines of Christology psychology and psychical research reveals how our modern concept of the subconscious was developed as a tool for policing religious inspiration Written in a clear and accessible style Resisting history provides a fresh and entertaining perspective for anyone interested in questioning the concepts that underlie historical writing and psychological thought today

The Parapsychology Revolution Robert M. Schoch,Logan Yonavjak,2008-01-31 Grounded in both scientific acumen and constructive inquiry this anthology shines a rare clarifying light on the controversial realms of psychical and paranormal research surveying reports essays and arguments from more than a century of investigation into matters such as clairvoyance telepathy and past life regression In the past one hundred and twenty five years despite a relative paucity of funding and the troubling persistence of fraud serious inquiry into the paranormal particularly as it relates to clairvoyance and psychical perception has successfully entered the scientific age Studies in the modern laboratory employing rigorous methodology and peer reviewed oversight have conclusively detected statistical anomalies that suggest the presence of some not yet understood faculty of the human mind In The Parapsychology Revolution Robert M Schoch Ph D a scholar widely known for his geological theories that question the conventional dating of the Great Sphinx and researcher Logan Yonavjak introduce and anthologize core writings that underscore the range and continuing challenges of psychical research The book s extensive introduction and the editors commentary on individual essays and sections highlight milestones feuds and key players that mark the nascent history of this fascinating and important field of research Finally The Parapsychology Revolution addresses and clarifies the all important question Is there legitimate evidence for a world beyond the ordinary

The New Prometheans Courtenay Raia,2019-12-04 The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical

research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even space phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths

Weird Fiction and Science at the Fin de Siècle Emily Alder,2020-01-07 This book explores how nineteenth century science stimulated the emergence of weird tales at the fin de siècle and examines weird fiction by British writers who preceded and influenced H P Lovecraft the most famous author of weird fiction From laboratory experiments thermodynamics and Darwinian evolutionary theory to psychology Theosophy and the new physics of atoms and forces science illuminated supernatural realms with rational theories and practices Changing scientific philosophies and questioning of traditional positivism produced new ways of knowing the world fertile borderlands for fictional as well as real world scientists to explore Reading Robert Louis Stevenson's Strange Case of Dr Jekyll and Mr Hyde 1886 as an inaugural weird tale the author goes on to analyse stories by Arthur Machen Edith Nesbit H G Wells William Hope Hodgson E and H Heron and Algernon Blackwood to show how this radical fantasy mode can be scientific and how sciences themselves were often already weird

Henry Sidgwick - Eye of the Universe Bart Schultz,2004-06-07 Henry Sidgwick was one of the great intellectual figures of nineteenth century Britain He was first and foremost a great moral philosopher whose masterwork The Methods of Ethics is still widely studied today He also wrote on economics politics education and literature He was deeply involved in the founding of the first college for women at the University of Cambridge He was also much concerned with the sexual politics of his close friend John Addington Symonds a pioneer of gay studies Through his famous student G E Moore a direct line can be traced from Sidgwick and his circle to the Bloomsbury group Bart Schultz has written a magisterial overview of this great Victorian sage This biography will be eagerly sought out by readers interested in philosophy Victorian literary studies the history of ideas the history of psychology and gender and gay studies

Thinking about Other People in Nineteenth-Century British Writing Adela Pinch,2010-07-08 Nineteenth century life and literature are full of strange accounts that describe the act of one person thinking about another as an ethically problematic sometimes even a dangerously powerful thing to do In this book Adela Pinch explains why when and under what conditions it is possible or desirable to believe that thinking about another person could affect them She explains why nineteenth century British writers poets novelists philosophers psychologists devotees of the occult were both attracted to and repulsed by

radical or substantial notions of purely mental relations between persons and why they moralized about the practice of thinking about other people in interesting ways Working at the intersection of literary studies and philosophy this book both sheds new light on a neglected aspect of Victorian literature and thought and explores the consequences of and the value placed on this strand of thinking about thinking

The Place of Enchantment Alex Owen, 2006-12-15 By the end of the nineteenth century Victorians were seeking rational explanations for the world in which they lived The radical ideas of Charles Darwin had shaken traditional religious beliefs Sigmund Freud was developing his innovative models of the conscious and unconscious mind And anthropologist James George Frazer was subjecting magic myth and ritual to systematic inquiry Why then in this quintessentially modern moment did late Victorian and Edwardian men and women become absorbed by metaphysical quests heterodox spiritual encounters and occult experimentation In answering this question for the first time *The Place of Enchantment* breaks new ground in its consideration of the role of occultism in British culture prior to World War I Rescuing occultism from its status as an irrational indulgence and situating it at the center of British intellectual life Owen argues that an involvement with the occult was a leitmotif of the intellectual avant garde Carefully placing a serious engagement with esotericism squarely alongside revolutionary understandings of rationality and consciousness Owen demonstrates how a newly psychologized magic operated in conjunction with the developing patterns of modern life She details such fascinating examples of occult practice as the sex magic of Aleister Crowley the pharmacological experimentation of W B Yeats and complex forms of astral clairvoyance as taught in secret and hierarchical magical societies like the Hermetic Order of the Golden Dawn Through a remarkable blend of theoretical discussion and intellectual history Owen has produced a work that moves far beyond a consideration of occultists and their world Bearing directly on our understanding of modernity her conclusions will force us to rethink the place of the irrational in modern culture An intelligent well argued and richly detailed work of cultural history that offers a substantial contribution to our understanding of Britain Nick Freeman Washington Times

Haunted America FAQ Dave Thompson, 2015-09-01 FAQ Pop Culture Take a fast paced survey of the ghosties ghouls and associated denizens of the country's haunted history with *Haunted America FAQ* Tracing local ghost stories back to Native American legends and then forward through horror tales both ancient and modern the book revisits some of the best known haunted locales as well as some of the most obscure creepy places in America Delving deep into the cultural history of American hauntings *Haunted America FAQ* includes chapters on ghostly books movies and television Also included is an A Z of reality TV ghost hunts and a state by state gazetteer of haunted spots

Ether and Modernity Jaume Navarro, 2018-08-30 *Ether and Modernity* offers a snapshot of the status of an epistemic object the ether or aether in the early twentieth century The contributed papers show that the ether was often regarded as one of the objects of modernity hand in hand with the electron radioactivity or X rays and not simply as the stubborn residue of an old fashioned long discarded science The prestige and authority of scientists and popularisers like Oliver Lodge and

Arthur Eddington in Britain Phillip Lenard in Germany or Dayton C Miller in the USA was instrumental in the preservation defence or even re emergence of the ether in the 1920s Moreover the consolidation of wireless communications and radio broadcasting indeed a very modern technology brought the ether into audiences that would otherwise never have heard about such an esoteric entity The ether also played a pivotal role among some artists in the early twentieth century the values of modernism found in the complexities and contradictions of modern physics such as wireless action or wave particle puzzles a fertile ground for the development of new artistic languages in literature as much as in the pictorial and performing arts Essays on the intellectual foundations of Umberto Boccioni s art the linguistic techniques of Lodge and Ernst Mach s considerations on aesthetics and physics witness to the imbricate relationship between the ether and modernism Last but not least the ether played a fundamental part in the resurgence of modern spiritualism in the aftermath of the Great War This book examines the complex array of meanings strategies and milieus that enabled the ether to remain an active part in scientific and cultural debates well into the 1930s but not beyond This portrait may be easily regarded as the swan song of an epistemic object that was soon to fade away as shown by Paul Dirac s unsuccessful attempt to resuscitate some kind of aether in 1951 with which this book finishes

Other World Spiritualism And Psychical Research In England 1850 1914 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Other World Spiritualism And Psychical Research In England 1850 1914 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Other World Spiritualism And Psychical Research In England 1850 1914 has opened up a world of possibilities. Downloading Other World Spiritualism And Psychical Research In England 1850 1914 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Other World Spiritualism And Psychical Research In England 1850 1914 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Other World Spiritualism And Psychical Research In England 1850 1914. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Other World Spiritualism And Psychical Research In England 1850 1914. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Other World Spiritualism And Psychical Research In England 1850 1914, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Other World Spiritualism And Psychical Research In England 1850 1914 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the

vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Other World Spiritualism And Psychical Research In England 1850 1914 Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience.
