Edgar Wind and Modern Art Ben Thomas, 2020-12-10 This book presents the first comprehensive study of the philosopher and art historian Edgar Wind s critique of modern art The first student of Erwin Panofsky and a close associate of Aby Warburg Edgar Wind was unusual among the Warburgians for his sustained interest in modern art together with his support for contemporary artists This culminated in his respected and influential book *Art and Anarchy* 1963 which seemed like a departure from his usual scholarly work on the iconography of Renaissance art Based on extensive archival research and bringing to light previously unpublished lectures Edgar Wind and Modern Art reveals the extent and seriousness of Wind s thinking about modern art and how it was bound up with theories about art and knowledge that he had developed during the 1920s and 30s Wind s ideas are placed in the context of a closely connected international cultural milieu consisting of some of the leading artists and thinkers of the twentieth century In particular the book discusses in detail his friendships with three significant artists Pavel Tchelitchew Ben Shahn and R B Kitaj In the process the existence of an alternative to the prevailing formalist approach of Alfred Barr and Clement Greenberg to modern art based on the enduring importance of the symbol is revealed *Painting the Wind* Kristen T.
