Alphatopbetics: Volume One:: Ideas We Live with and Live by Every Day of Our Life Jerry Dampier, 2017-04-17 Alphatopbetics Ideas We Live With and Live by Every Day of Our Life is a book inspired by the study of psychology theology history science and especially philosophy Influenced by the Greek philosophers Socrates Plato and Aristotle Jerry Dampier has combined life experience and informal discussions to arrive at the basis of Alphatopbetics The ideas written about in this book are not just research based although I have done extensive research over four or five years the ideas I have written about are ideas in which I have had many conversations the discussions or conversations were held with family and relatives friends and acquaintances academicians or college professors and classmates They along with the research I have put into this book have helped me to write it Jerry Dampier, 2005-12-01 Steven Leroy Zienner is a hard working hard driving hard headed economic materialist Money because of the influence it has over people and because of the things it buys is the highest value he places on life Unrestrained ambition in the pursuit of accumulating large profits Mr Zienner believes lies at

the heart of success and at the same time he believes wealth is the key to complete happiness As a result of his genius in the affairs of business that and the willingness to exploit his employees to maximum effect Mr Zienner became a multimillionaire before his 30th birthday The story takes place in the 1950 s in Cleveland Ohio Vicksburg Mississippi and Paris France At this point it should be noted that this story The Downfall and Rise of Steven Leroy Zienner is not merely a story about a man s company or the products that he sells or even his rise from humble beginnings to wealth and privilege It is a story about a choice a person ultimately makes between personal growth or self destruction when faced with personal tragedies and financial ruin It is about the stubbornness as well as the willingness to see different points of view it is about the desire to live in accordance with certain values and principles or the lack thereof it is also about the importance of family and friends and the discovery examination and triumph over some of the most unattractive and malevolent elements within human nature All in all it s about a man s downfall but more importantly his struggle to rise in the pursuit of the ethics of Happiness

Trapped Between the Extremes of Good and Evil Jerry Dampier,2006-10 Good and evil are as old as ethics or morality itself For without an understanding of religious or philosophical ethics the moral existence of good and evil would be impossible to comprehend the term good for example would be exclusively a matter of subjective personal likes and dislikes in other words a mere matter of taste differing from individual to individual with no real obligation to the public good or safety As it currently stands in philosophy for instance the term good may be understood as engaging in righteous conduct the term good may also be understood as an object that corresponds and fulfills natural needs inherent in human nature These natural needs for example which are deeply rooted in human nature manifest themselves in our human desire for life liberty and the pursuit of happiness among other things In these two senses the term good is an objective universal value based on the reality of man by man I mean human beings everywhere of course From natural needs we derive the doctrine of human rights It logically follows that the things we have a natural human need for we as human beings also have a natural right to This idea is not only used in the real world that you and I live in it is also used in the storyteller s world of fiction or imaginary literature Anything working to defeat or frustrate the good in the real world or in the storyteller s world is judged evil This is of the utmost importance to those who believe in right and wrong For right and wrong always follow good and evil Society can never know what right or wrong is in the domain of social human affairs without first knowing what is good and what is evil and what makes it so In Trapped Between the Extremes of Good and Evil we enter a fictional world and explore the phenomenon of good and evil through the actions of an international serial killer angels and demons one twin brother s hatred of the other and a San Francisco detective caught in the middle of it all Journal of Education ,1911 **The Publishers' Trade List Annual** ,1883 **Alphatopbetics Volume One - Ideas We Live with and Live by Every Day of Our Life** Jerry Dampier,2011-08-01 Alphatopbetics Ideas We Live With and Live by Every Day of Our Life is a book inspired by the study of psychology theology history science and especially philosophy Influenced by the Greek philosophers Socrates
