STRENGTHS

It counterbalances primarily white perspectives that were dominant in the writing of history about others.

Postcolonialism seeks to intervene and amplify marginalized viewpoints. It tries to change the way people think and act to produce better relations between different peoples and cultures.

The Post-colonial Studies Reader
 Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 1995 The Post Colonial Studies Reader is the most comprehensive selection of key texts in post colonial theory and criticism yet compiled This collection covers a huge range of topics featuring nearly ninety of the discipline's most widely read works The Reader's 90 extracts are designed to introduce the major issues and debates in the field of post colonial literary studies This field itself however has become so varied that no collection of readings could encompass every voice which is now giving itself the name post colonial The editors in order to avoid a volume which is simply a critical canon have selected works representing arguments with which they do not necessarily agree but rather which above all stimulate discussion thought and further exploration Post colonial theory has occurred in all societies into which the imperial force of Europe has intruded though not always in the official form of theoretical text Like the description of any other field the term has come to mean many things but this volume hinges on one incontestable phenomenon the historical fact of colonialism and the palpable consequences to which this phenomenon gave rise The topic involves talk about experience of various kinds migration slavery suppression resistance representation difference race gender place and reaction to the European influence and about the fundamental experiences of speaking and writing by which all these come

into being In compiling this reader the editors have sought to stimulate people to ask How might a genuinely post colonial literary enterprise proceed The fourteen sections include Issues and Debates Universality and Difference Textual Representation and Resistance Postmodernism and Post Colonialism Nationalism Hybridity Ethnicity and Indigeneity Feminism and Post Colonialism Language The Body and Performance History Place Education and Production and Consumption Contributors include many of the leading post colonial theorists and critics such as Franz Fanon Chinua Achebe Gayatri Chakravorty Spivak Ngugi wa Thiong'o Homi Bhabha Derek Walcott Edward Said and Trinh T Minh ha in addition to a number of the discourse's newer voices The Post Colonial Studies Reader will prove an authoritative compilation representing an invaluable contribution to the study of post colonial theory and criticism

Postcolonial Theory Leela Gandhi, 1998 The book provides an overview of postcolonialism's pervasiveness in the academy and lucidly illustrates the debates about the often conflicting consensus regarding the proper content scope and relevance of its concerns From its influence in Marxism and poststructuralism from the work of Edward Said to Salman Rushdie from feminist imperialism to globalization and hybridity Gandhi demonstrates the ethical concern that postcolonial theory can offer how to take into account diversity without erasing distinct diasporas of difference

Contemporary Postcolonial Theory Padmini Mongia, 2021-01-07 There is a crisis in contemporary postcolonial theory while an enormous body of challenging research has been produced under its auspices severely critical questions about the validity and usefulness of this theory have also been raised This Reader is positioned at the juncture where it can address these contestations It makes available some of the classics of the field engages with the issues raised by contemporary practitioners but also offers several of the arguments that strongly critique postcolonial theory Although postcolonial theory purports to be inter disciplinary and frequently anti foundationalist traces of disciplinary formations and linearity have continued to haunt its articulations This Reader on the other hand offers a uniquely inter disciplinary mapping It is concerned with three main areas definitional problems and contests including the current challenges to postcolonial theory the disciplining of knowledge where the multiple resonances of the word disciplining are all

engaged and the location of practice where the relations between intellectual practice and historical conditions are explored Finally since the guiding principle of this Reader is simultaneous attention to the enabling and constraining mechanisms of historical realities and institutional practices the commentary problematizes the writing of histories the formations of canons and indeed the production of Readers

Postcolonial Theory and Autobiography David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference Postcolonial theory has challenged these limitations of cultural theory and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn Despite the fact that autobiography is frequently dismissed for its Western masculine bias David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity Focusing on the influence of post structuralist theory on postcolonial theory and vice versa this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories Offering a fresh perspective on familiar critical figures like Edward W Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida Gilles Deleuze and Alain Badiou this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience investigation and knowledge
