Promoting Environmental Sustainability in Development Andrés Liebhenthal, 2002-01-01 OED's evaluation has been timed to inform the preparation of the new Environment Strategy Paper. The evaluation is based on the synthesis of self-evaluation assessments, case studies of selected countries, background reviews of selected areas, surveys and interviews of Bank staff and consultations with stakeholders in four regions. An Advisory Panel reviewed drafts and served as a sounding board for the recommendations. A concluding Workshop on the Bank's Environment Strategy and OED's Environment Review provided an opportunity for participants to comment on the Review findings and on the draft Environment Strategy and to discuss next steps in implementation. In addition to OED's Review, we are pleased to share with you the report of OED's Advisory Panel and the Facilitator's Summary of the concluding workshop.

The World Bank Group's Partnership with the Global Environment Facility The World Bank, 2015-11-18 The World Bank Group was a principal founding partner of the Global Environment Facility (GEF) in its pilot phase in 1991 and of the restructured GEF in 1994. The Bank plays three different roles in the GEF: a) as trustee of the GEF and related trust funds; b) as implementing agency including the implementation of private sector GEF projects by the International Finance Corporation (IFC) and c) as the host organization of the functionally independent GEF secretariat. Focusing primarily on the role of the Bank as an implementing agency, this review documents how the partnership that the GEF and the World Bank Group established in the early 1990s has evolved over time, offers explanations for observed changes and draws a number of lessons. The review addresses the following issues: The mutual relevance of the World Bank Group and the GEF; Inter-organizational coordination along the World Bank Group GEF project cycle; The introduction of the GEF's resource allocation systems in 2006 and 2010; The evolution and effectiveness of the Bank Group's GEF portfolio; Catalytic approaches in the Bank Group GEF partnership: co-financing, blending and mainstreaming; The World Bank's corporate activities as a GEF implementing agency. The principal purposes of this review are: a) to help improve the relevance and effectiveness of the Bank Group's partnership with the GEF and b) to draw lessons for the Bank Group's partnership with the GEF and other large global partnership programs.

Banking on the Environment Tamar L. Gutner, 2002-08-16 Multilateral development banks (MDBs) are increasingly expected to address environmental issues in their economic development lending. Yet the banks have been accused of failing to implement their own environmental policies, thereby contributing to environmental degradation in borrowing countries. In this book, Tamar Gutner analyzes the environmental policies of three MDBs: the World Bank, the European Bank for Reconstruction and Development, and the European Investment Bank. She compares their performance in Central and Eastern Europe, where the need for economic and environmental reform has been particularly urgent and where these MDBs are among the largest donors. Gutner finds many obstacles to efforts to green the three banks, most notably a mismatch between the environmental mandates and existing patterns of institutional design and incentives. The depth and scope of the banks' green activities reflect the degree of

shareholder commitment to environmental issues and how demand driven the MDB is designed to be Surprisingly the World Bank the most scrutinized and criticized of the three MDBs has been rather more responsive than its counterparts to its environmental mandate in the region The discussion is framed by larger explorations of the behavior of international organizations and the sources of their innovation and inertia in addressing new policy issues Gutner demonstrates the need to examine the impact of different stages of the policy process on new mandates and to incorporate both political and institutional variables when developing theories about the behavior of international institutions *International Organizations in World Politics* Tamar Gutner, 2016-01-29 This timely new title examines the importance and impact of major international organizations and their role in global governance International Organizations in World Politics focuses on the most influential IOs including the United Nations World Bank International Monetary Fund and World Trade Organization For each organization author Tamar Gutner describes their birth and evolution governance structure activities and performance A second chapter on each organization presents a case study that illuminates the constraints and challenges each IO faces Regional organizations and issues are also examined including the European Union and the euro crisis as well as a case study on the African Union's peace operations **International Organizations as Self-directed Actors** Joel E. Oestreich, 2012 This text illustrates and advances the argument that International Organizations IOs need to be taken seriously as actors in world affairs The text examines recent theories that suggest how IOs are able to set their own policies and implement them in meaningful ways Proceedings of the 3rd International Conference on Reinventing Business Practices, Start-ups and Sustainability (ICRBSS 2023) Meena Rani Nimmagadda, Catherine S., Praseeda Challapalli, V. Sasirekha, 2024-02-19 This is an open access book About the ICRBSS 2023 International Conference on Reinventing Business Practices Start ups and Sustainability Responsible Consumption and Production ICRBSS 2023 brings together scholars researchers educators and professionals from around the world to discuss the latest trends challenges and opportunities in the spheres of businesses regulatory environment consumer groups advocacy agencies and the environment at large The sub theme of the conference this year Responsible Consumption and Production is the 12th goal of the UN Sustainable Development Goals The conference provides a platform for industry experts policymakers and the academic fraternity to share their experiences and insights The sessions are designed to promote interaction among participants through keynote speaker sessions panel discussions presentations and the like **Michigan State Journal of International Law**, 2006 **The Routledge Handbook of Accounting for the Sustainable Development Goals** Andrea Venturelli, Chiara Mio, 2024-11-05 The introduction of Agenda 2030 and its 17 Sustainable Development Goals SDGs has traced a path for private and public entities interested in pursuing sustainable development This handbook identifies the recent challenges in accounting research and the SDGs by exploring the evolutionary pathways and future direction of sustainability reporting It explores the role of businesses as contributors to Agenda 2030 by assuming a multidisciplinary approach and provides a

measure of organisations contributions to the SDGs through the understanding of business strategies and policies on Agenda 2030 integration The book represents a substantial and multi faceted contribution to the debate on SDGs accounting by assembling international scholars and practitioners to effectively explore the practice and theory revolving around the current state of the art and highlight future research pathways By providing a comprehensive evaluation of accounting for the Sustainable Development Goals this volume will appeal to a wide variety of readers from students scholars researchers practitioners and policymakers interested in increasing their awareness of Agenda 2030 and offers a significant contribution to the evolution of accounting practices

Transboundary Environmental Impact Assessment in the European Union Simon Marsden,Timo Koivurova,2013-11-05 This book examines The Espoo Convention on Environmental Impact Assessment in a Transboundary Context which celebrates the twentieth anniversary of its adoption in 2011 and its Kiev Protocol on Strategic Environmental Assessment which came into force in July 2010 In addition to contributing to international environmental law the Convention has prompted significant changes to European environmental law The chapters in this collection explain the role of transboundary environmental impact assessment in international and European law and explore the relationship between international and European law in the context of potential application of the Convention They also examine examples of the Convention in practice and consider the potential application of the Protocol While the focus of the book is on the situation in the European Union reference is made to the relationship between EU and non EU member states notably in connection with important cases in the Arctic the Danube Delta and the Baltic Sea

Environmental Sustainability World Bank,2008-08-29 This evaluation assesses the Bank Group s support for environmental sustainability in both the public and private sectors over the past 15 years It identifies several crucial constraints that need to be addressed perhaps most importantly insufficient government commitment to environmental goals and weak institutional capacity to deal with them But constraints within the Bank Group including insufficient attention to longer term sustainable development must be reduced as well The Bank Group needs improved systems in place across the World Bank IFC and MIGA to monitor environmental outcomes and to assess impacts Better coordination among the three parts of the Bank Group is also among the key challenges
