Library Programming for Families with Young Children Sue McCleaf Nespeca, 1994 Covers a wide range of programs and ideas on library programs for families to promote reading

Story Hour Jeri Kladder, 2003-07-10 Story time at the public library is the first exposure to books outside the home for many preschool children For the librarian it is an exciting opportunity to instill in youngsters a love of reading and books But coming up with

new ideas that hold the children's attention can be trying. Until now. Here are 55 tried and true story hour programs with a thematic approach. All are highly flexible and adaptable across the full preschool age range. Most of the ideas are arranged under one of eight specific themes that include four to eight one hour programs: barnyard animals, the Caldecott Medal, colors, families, a storytelling feast, the five senses, reptiles and amphibians, and around the world. There are also 18 individual holiday and seasonal programs. All story hours provide ideas for name tags, suggested audiovisual materials, recommended story poetry and song selections, additional titles, and a full description of the activity.

Literature for Young Children Joan I. Glazer, 1991. Designed to help both pre-service and in-service teachers recognize high quality and developmentally appropriate children's books to share with PreK-3 children, the major goal of this volume is to show how to use children's literature to help develop children's language skills and their intellectual capacity, encourage healthy social and moral development, and nurture children's creativity. Coverage encompasses discussions of both contemporary and classic literature for young children, providing teachers, parents, and child care professionals opportunities to talk about reading while engaging children in experiences with good books. Teachers and day care professionals will find a myriad of practical strategies, extensive book lists, and relevant websites valuable for PreK-3 curriculum planning. For teachers, parents, and child care professionals.

Raising Readers at Home Sheila E. Sapp, 2023-07-31. This book consists of an easy-to-follow plan designed to guide and assist parents in nurturing and developing pre-reading, pre-literacy skills needed to learn how to read. Parents/caregivers begin their journey by examining and exploring why some children have difficulty learning to read. It is also noted the role they can play in preparing their children for the learning-to-read process at home. They are guided through the development of pre-reading milestones and behavior characteristics of young children. Additionally, parents/caregivers complete a self-assessment to determine their thoughts about learning, which is important in setting up a creative and vibrant learning environment for their home. Before addressing the four components of the reading process, parents/caregivers are guided in setting the stage for learning to read in their home by establishing a print-rich environment.

A Guide to Family Reading in Two Languages Theodore Andersson, 1981. This book concerns a neglected aspect of the education of bilingual children, namely their potential desire and ability to learn to read before age 5. The basis of the study is considered in the chapter on children as early learners, which provides accounts of children being taught to read from the age of 6 months to 4 years. The next part of the study is presented in the chapter on preschool reading and the bilingual child. Here, accounts are given of how three families taught their children to read in two languages before the children entered kindergarten. It is noted that generally the parent/teacher's task consists of reading the child's wishes, inventing games to stimulate this interest, and including the child in their conversations and activities. It is also observed that early reading

seems to be related to establishing a sense of personal and social values The final chapter uses these accounts to develop specific methods and techniques for parents who wish to guide their children to early reading in two languages AMH
