Hand-book of Raleigh, N.C. ,1908 , **Handbook of the Linguistic Atlas of the Middle and South Atlantic States** William A. Kretzschmar,William A. Kretzschmar Jr.,1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the Linguistic Atlas of the Middle and South Atlantic States LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical research Since much of the LAMSAS questionnaire concerns rural terms the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture For example LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing

findings the LAMSAS represents a benchmark study of the English language and this handbook is an indispensable guide to its riches Wake, Capital County of North Carolina Elizabeth Reid Murray,1983 **The State** ,1981-06 *The Quest for Progress* Sydney Nathans,1983 Few would have guessed in 1870 that within fifty years North Carolina would be the most industrialized state in the South The Quest for Progress recounts that half century of turbulent change and growth It is the fourth volume in The Way We Lived in North Carolina a pioneering series that uses historic places as windows to the past An accelerating pace of life was evident everywhere in North Carolina at the turn of the century from mill villages to mushrooming towns Sky scrapers and suburbs country estates and mountain resorts testified to the state s new wealth But new conflicts marked the era as well Farmers plagued by debt fought back in a Populist movement that carried its cause to the nation Working men and women fought to keep their independence on the factory floor Black North Carolinians despite violence and disenfranchisement built the churches colleges and businesses that prepared the next generation to reclaim its rights By 1920 North Carolina was a state transformed Sites used to illuminate this period include mill villages a tobacco factory depots schoolhouses general stores a fire station a drugstore and the Thomas Wolfe Memorial Each volume in The Way We Lived in North Carolina examines the social history of an era weaving interpretation around dozens of historic sites and the lives of ordinary people who lived and worked nearby The series is based on the premise that the past can be most fully understood through the joint experience of reading history and visiting historic places These volumes will appeal to all who are interested in North Carolina history historic preservation and social history **A Delicious Country** Scott Huler,2019-02-05 In 1700 a young man named John Lawson left London and landed in Charleston South Carolina hoping to make a name for himself For reasons unknown he soon undertook a two month journey through the still mysterious Carolina backcountry His travels yielded A New Voyage to Carolina in 1709 one of the most significant early American travel narratives rich with observations about the region s environment and Indigenous people Lawson later helped found North Carolina s first two cities Bath and New Bern became the colonial surveyor general contributed specimens to what is now the British Museum and was killed as the first casualty of the Tuscarora War Yet despite his great contributions and remarkable history Lawson is little remembered even in the Carolinas he documented In 2014 Scott Huler made a surprising decision to leave home and family for his own journey by foot and canoe faithfully retracing Lawson s route through the Carolinas This is the chronicle of that unlikely voyage revealing what it s like to rediscover your own home Combining a traveler s curiosity a naturalist s keen observation and a writer s wit Huler draws our attention to people and places we might pass regularly but never really see What he finds are surprising parallels between Lawson s time and our own with the locals and their world poised along a knife edge of change between a past they can t forget and a future they can t quite envision *Dictionary of North Carolina Biography* William S. Bishir,2014-03-19 This award winning lavishly illustrated history displays the wide range of North Carolina s architectural heritage from colonial times to the beginning of World War II North Carolina Architecture addresses the state s grand public and private buildings that have become familiar landmarks but it also focuses on the quieter beauty of more common structures farmhouses barns urban dwellings log houses mills factories and churches These buildings like the people who created them and who have used them are central to the character of North Carolina Now in a convenient new format this portable edition of North Carolina Architecture retains all of the text of the original edition as well as hundreds of halftones by master photographer Tim Buchman Catherine Bishir s narrative analyzes construction and design techniques and locates the structures in their cultural political and historical contexts This extraordinary history of North Carolina s built world presents a unique and valuable portrait of the state *The North Carolina Historical Review* ,1998 *Catalog of Copyright Entries.
