The All-Consuming Nation Mark H. Lytle,2021 The All Consuming Nation examines how planners

during World War II laid the foundation for a mass consumption economy. High wages, full employment, new technologies, and a rapid growth in population known as the Baby Boom ushered in a golden age of economic growth. By the end of the twentieth century, consumerism triumphed over communism, socialism, and all other isms seeking to win hearts and minds around the world. Mark Lytle investigates the environmental and sociocultural costs of the consumer capitalism framework set in place in the twentieth century, shedding light on both the catalysts and consequences of a national identity forged through mass consumption.

A Consumers' Republic Lizabeth Cohen, 2008-12-24. In this signal work of history, Bancroft Prize winner and Pulitzer Prize finalist Lizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life. Trumpeted as a means to promote the general welfare, mass consumption quickly outgrew its economic objectives and became synonymous with patriotism, social equality, and the American Dream. Material goods came to embody the promise of America, and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change. Yet despite undeniable successes and unprecedented affluence, mass consumption also fostered economic inequality and the fracturing of society along gender, class, and racial lines. In charting the complex legacy of our Consumers Republic, Lizabeth Cohen has written a bold, encompassing and profoundly influential book.
