Bright, Infinite Future Mark Green, 2016-05-03

Blending the historical, biographical, and political, the wide-ranging *Bright Infinite Future* describes how the values of the 60s are creating a new progressive majority in 16. The multi-faceted Mark Green, bestselling author, public interest lawyer, and elected official, is our guide through contemporary American politics as Nader launches the modern consumer movement, Clinton wins the 1992 New York primary, and therefore the nomination, and Green loses the closest NYC mayoral election in a century to Bloomberg after 9/11 in a perfect storm of money, terrorism, and race. As Public Advocate, Green is Mayor Giuliani's bête noir, exposing NYPD's racial profiling, killing off Joe Camel, and then running against a Murderer's Row of Cuomo, de Blasio, Schumer, and Bloomberg. Starting with the consequential movements of the 60s, Green shows how a rising tide of minority and millennial voters, GOP's lurch from mainstream to extreme, and the contrast between the presidencies of Bush and Clinton, Obama, are leading to a new era of Progressive Patriotism built on four cornerstones: an Economy for All, Democracy for All, Compact on Race Justice, and Sustainable Climate. Full of behind-the-scenes stories about bold-faced names, this will be the 2016 book for liberals looking to a bright infinite future.

Moving Violations Lee Vinsel, 2019-07-16

The first comprehensive history of auto regulation in the United States, *Regulation* has shaped the evolution of the automobile from the beginning. In *Moving Violations*, Lee Vinsel shows that contrary to popular opinion, these restrictions have not hindered technological change. Rather, by drawing together communities of scientific and technical experts, auto regulations have actually fostered innovation. Vinsel tracks the history of American auto regulation from the era of horseless carriages and the first faltering efforts to establish speed limits in cities to recent experiments with self-driving cars. He examines how the government has tried to address car-related problems from accidents to air pollution and demonstrates that automotive safety, emissions, and fuel economy have all improved massively over time. Touching on fuel economy standards, the rise of traffic laws, the birth of drivers' education classes, and the science of distraction, he also describes how the government's changing activities have reshaped the automobile and its drivers, as well as the country's entire system of roadways and supporting technologies, including traffic lights and gas pumps. *Moving Violations* examines how policymakers, elected officials, consumer advocates, environmentalists, and other interested parties wrestled to control the negative aspects of American car culture while attempting to preserve what they saw as its positive contributions to society. Written in a clear, approachable, and jargon-free voice, *Moving Violations* will appeal to makers and analysts of policy, historians of science,

technology business and the environment and any readers interested in the history of cars and government     *The Democracy Fix* Caroline Fredrickson,2019-04-23 The former special assistant for legislative affairs to President Clinton president of the American Constitution Society and author of the damn fine *Elle Under the Bus* shows how the left can undo the right s damage and take the country back Despite representing the beliefs of a minority of the American public on many issues conservatives are in power not just in Washington DC but also in state capitals and courtrooms across the country They got there because while progressives fought to death over the nuances of policy and to bring attention to specific issues conservatives focused on simply gaining power by gaming our democracy They understood that policy follows power not the other way around Now in a sensational new book Caroline Fredrickson who has had a front row seat on the political drama in DC for decades while working to shape progressive policies as special assistant for legislative affairs to President Clinton chief of staff to Senator Maria Cantwell deputy chief of staff to Senator Tom Daschle and president of the American Constitution Society argues that it s time for progressives to focus on winning She shows us how we can learn from the Right by having the determination to focus on judicial elections state power and voter laws without stooping to their dishonest rule breaking tactics We must be ruthless in thinking through how to change the rules of the game to regain power expand the franchise end voter suppression win judicial elections and fight for transparency and fairness in our political system and Fredrickson shows us how     **Your Reading** Jean E.
