The Descent of Love Bert Bender, 2015-11-16 Upon its publication in 1871 Charles Darwin's *The Descent of Man and Selection in Relation to Sex* sent shock waves through the scientific community and the public at large In an original and persuasive study Bert Bender demonstrates that it is this treatise on sexual selection rather than any of Darwin's earlier works on evolution that provoked the most immediate and vigorous response from American fiction writers These authors embraced and incorporated Darwin's theories insights and language creating an increasingly dark and violent view of sexual love in American realist literature In *The Descent of Love* Bender carefully rereads the works of William Dean Howells Henry James Elizabeth Stuart Phelps Sarah Orne Jewett Kate Chopin Harold Frederic Charles W Chesnutt Edith Wharton and Ernest Hemingway teasing from them a startling but utterly convincing preoccupation with questions of sexual selection Competing for readership as novelists who best grasped the real nature of human love these writers also participated in a heated social debate over racial and sexual differences and the nature of sex itself Influenced more by *The Descent of Man* than by *The Origin of Species* Bender's novelists built upon Darwin's anthropological and zoological materials to anatomize their characters' courtship behavior returning consistently to concerns with physical beauty natural dominance and the power to select a mate Bringing the resources of the history of science and intellectual history to this the first full length study of the impact of Darwin's theories in American literature Bender revises accepted views of social Darwinism American literary realism and modernism in American literature forever changing our perceptions of courtship and sexual interaction in American fiction from 1871 to 1926 and beyond

On Sibling Love, Queer Attachment and American Writing Denis Flannery, 2016-12-05 Sibling bonds both literal and figurative have had a crucial role in American writings of queer desire and identity In nuanced and original readings Denis Flannery demonstrates the centrality of fraternal and sororal love to queer strands of nineteenth and twentieth century texts from the elemental wildnesses of *Moby Dick* to David Fincher's postmodern cinema from the brutal and comic decorum of Henry James's major fiction to the elegiac memoir writing of Jamaica Kincaid Questions driving Flannery's exploration of sibling relations How do we characterize the relationship between sibling love queer possibility and the formal intensities of American writing Why do so many American texts rely on the presence of sibling love to articulate queer desire Why is brotherhood invoked as a positive value in announcements of United States national aspirations but used repeatedly and ominously in that nation's texts to herald a fall Written with lyrical clarity and verve *On Sibling Love Queer Attachment and American Writing* is an important contribution to queer theory to American studies and to the study of culture writing and affect
