Justin A Williams

Rap Attack 2:

Rap Attack 3 David Toop, 2000 Rap Attack 3 takes hip hop culture as its central focus for an investigation of African American rapping in all its forms It begins with the music's African roots and ends with the global acceptance of rap Rap Attack 2 David Toop, 1994 Spectacular Vernaculars Russell A. Potter, 1995-08-31 Spectacular Vernaculars examines hip hop's cultural rebellion in terms of its specific implications for postmodern theory and practice using the politics of reception as its primary rhetorical ground Hip hop culture in general and rap music in particular present model sites for such an inquiry since they enact both postmodern modes of production the appropriation of tropes technologies and material culture and a potential means of resistance to the commodification of cultural forms under late capitalism By paying specific attention to the historical and cultural context of hip hop as a black artform and locating its practice of resistance in terms of a postmodernist reading of consumer culture this book offers a complex reading of hip hop as a postmodern practice with implications both for theories of postmodernism and cultural studies as a whole *That's the Joint!* Murray Forman, Mark Anthony Neal, 2004 Spanning 25 years of serious writing on hip hop by noted scholars and mainstream journalists this comprehensive anthology includes observations and critiques on groundbreaking hip hop recordings *The rap attack* David Toop, 1982 **Rhymin' and Stealin'** Justin A Williams, 2013-07-25 The first book length study of one of the most essential elements of hip hop musical borrowing **Hip-Hop Redemption** Ralph Basui Watkins, Ralph C. Schloss, 2014-11-20 Winner of IASPM's 2005 International Book Award Based on ten years of research among hip hop producers Making Beats was the first work of scholarship to explore the goals methods and values of a surprisingly insular community Focusing on a variety of subjects from hip hop artists pedagogical methods to the Afrodiasporic roots of the sampling process to the social significance of digging for rare records Joseph G Schloss examines the way hip hop artists have managed to create a form of expression that reflects their creative aspirations moral beliefs political values and cultural realities This second edition of the book includes a new foreword by Jeff Chang and a new afterword by the author **Popular Music** Simon Frith, 2004 Popular music studies is a rapidly expanding field with changing emphases and agendas The music industry has changed in recent years as has governmental involvement in popular music schemes as part of the culture industry The distinction between the major record labels and the outsider independents has become blurred over time Popular music as part of this umbrella of the culture industry has been progressively globalized and globalizing The tensions within popular music are now no longer between national cultural identity and popular music but between the local and the global This four volume collection examines the changing status of

popular music against this background Simon Frith examines the heritage of popular music and how technology has changed not only the production but the reception of this brand of sound The collection examines how the traditional genres of rock pop and soul have broken down and what has replaced them as well as showing how this proliferation of musical styles has also splintered the audience of popular music **Sound Tracks** John Connell,Chris Gibson,2003-09-02 Sound Tracks is the first comprehensive book on the new geography of popular music examining the complex links between places music and cultural identities It provides an interdisciplinary perspective on local national and global scenes from the Mersey and Icelandic sounds to world music and explores the diverse meanings of music in a range of regional contexts In a world of intensified globalisation links between space music and identity are increasingly tenuous yet places give credibility to music not least in the country and music is commonly linked to place as a stake to originality a claim to tradition and as a marketing device This book develops new perspectives on these relationships and how they are situated within cultural and geographical thought
