Lau, 2011 This study demonstrates the importance of including narrative ethics in a construction of Old Testament ethics as a correction for the current state of marginalisation of narrative in this discipline To this end the concept of identity is used as a lens through which to understand and derive ethics Since self conception in ancient Israel is generally held to be predominantly collectivist in orientation social identity theory is used to understand ancient Israelite identity Although collectivist sensitivities are important a social identity approach also incorporates an understanding of individuality This approach highlights the social emphases of a biblical text and consequently assists in understanding a text's original ethical message The book of Ruth is used as a test case employing a social identity approach for understanding the narrative but also to model the approach so that it can be implemented more widely in study of the Old Testament and narrative ethics Each of the protagonists in the book of Ruth is examined in regards to their personal and social self components This study reveals that the narrative functions to shape or reinforce the identity of an ancient Israelite implied reader Since behavioural norms are an aspect of identity narrative also influences behaviour A social identity approach can also highlight the social processes within a society The social processes taking place in the two most commonly proposed provenances for the book of Ruth are discussed the Monarchic and Persian Periods It is found that the social emphases of the book of Ruth most closely correspond to the social undercurrents of the Persian Period On this basis a composition for the book of Ruth in the Restoration period is proposed

Israel's Only Shepherd Wayne Baxter, 2012-01-26 A comparison of the shepherd metaphor in Matthew's Gospel with its use in early Jewish Christian and Graeco Roman writings shedding light on Matthew's socio religious location Exile: A Conversation with N. T. Wright James M. Scott, 2017-07-07 N T Wright is well known for his view that the majority of Second Temple Jews saw themselves as living within an ongoing exile This book engages a lively conversation with this idea beginning with a lengthy thesis from Wright responses from eleven New Testament scholars and a concluding essay from Wright responding to his interlocutors For the Nation Nicholas R. Brown, 2016-09-29 The nature of the kingdom Jesus proclaims in the Gospels has long been a subject of intense theological debate More recently the lines of this debate have dramatically shifted as several leading historical Jesus scholars and Christian social ethicists have argued that Jesus kingdom proclamation most likely expresses a first century Jewish hope for Israel's restoration Yet while several are now sanguine that Jesus kingdom vision constitutes nothing less than a full throated restoration of Israel's nationality they are just as certain it rejects a restoration of Israel's land As such it has become increasingly fashionable to say that an authentic practice of the kingdom ethic that Jesus enunciates must necessarily be a territorial The purpose of this work is to respond to these arguments and show why this can and indeed should not be the case Through a careful and detailed process of historical investigation biblical exegesis theological exploration and ethical analysis we will come to see that not only is the kingdom that Jesus proclaims inextricably landed but also why such a kingdom is integral to articulating a Christian ethic of territorial governance Historiography and Identity (Re)formulation in Second Temple Historiographical Literature Louis Jonker, 2011-05-11 It is commonly accepted in various disciplines and contexts that history writing often if not always contribute to the process of identity re formation Using the past in order to find a renewed identity in new socio political and socio religious circumstances is something that we also witness in Hebrew Bible historiographies The so called Deuteronomistic History as well as the works of Chronicles and Ezra Nehemiah are often read from the perspective of a community trying to find a new identity in changed circumstances In the Historical Books section at the 2008 Auckland SBL International Meeting this perspective was investigated further The papers presented included theoretical reflections on the relationship between historiography and identity re formation as well as illustrations from Hebrew Bible historiographies of the Exilic and Second Temple periods These papers together with a few responses to the papers are offered here to a wider scholarly audience Contributors include Jon Berquist Mark Brett Louis Jonker Mark Leuchter Christine Mitchell Klaas Spronk

Gerrie Snyman Ray Person Armin Siedlecki and Jacob Wright **Yiddish Paris** Nick Underwood, 2022-03 Yiddish Paris explores how Yiddish speaking emigrants from Eastern Europe in Paris in the 1920s and 1930s created a Yiddish diaspora nation in Western Europe and how they presented that nation to themselves and to others in France In this meticulously researched and first full length study of interwar Yiddish culture in France author Nicholas Underwood argues that the emergence of a Yiddish Paris was depended on culture makers mostly left wing Jews from Socialist and Communist backgrounds who created cultural and scholarly organizations and institutions including the French branch of YIVO a research institution focused on East European Jews theater troupes choruses and a pavilion at the Paris World s Fair of 1937 Yiddish Paris examines how these left wing Yiddish speaking Jews insisted that even in France a country known for demanding the assimilation of immigrant and minority groups they could remain a distinct group part of a transnational Yiddish speaking Jewish nation Yet in the process they in fact created a French inflected version of Jewish diaspora nationalism finding allies among French intellectuals largely on the left Roots of Rabbinic Judaism Boccaccini, 2002 In a bold challenge to the long held scholarly notion that Rabbinic Judaism already was an established presence during the Second Temple period Boccaccini argues that Rabbinic Judaism was a daring reform movement that developed following the destruction of the Jerusalem temple and took shape in the first centuries of the common era Jews, Sovereignty, and International Law Rotem Giladi, 2021 Jews Sovereignty and International Law explores Israel s engagement with international law during the early years of statehood Drawing upon three case studies Giladi illuminates the shift from Jewish advocacy to Israeli diplomacy **The Boundaries of Jewishness in the Southern Levant 200 BCE-132 CE** John Van Maaren, 2022-06-06 Recent research has considered how changing imperial contexts influence conceptions of Jewishness among ruling elites esp Eckhardt Ethnos und Herrschaft 2013 This study integrates other often marginal conceptions with elite perspectives It uses the ethnic boundary making model an empirically based sociological model to link macro level characteristics of the social field with individual agency in ethnic construction It uses a wide range of written sources as evidence for constructions of Jewishness and relates these to a local specific understanding of demographic and institutional characteristics informed by material culture The result is a diachronic study of how institutional changes under Seleucid Hasmonean and Early Roman rule influenced the ways that members of the ruling elite retainer class and marginalized groups presented their preferred visions of Jewishness These sometimes competing visions advance different strategies to maintain rework or blur the boundaries between Jews and others The study provides the next step toward a thick description of Jewishness in antiquity by introducing needed systematization for relating written sources from different social strata with their contexts The Torah in 1Maccabees Francis Borchardt, 2014-02-27 This volume addresses two pivotal questions surrounding the composition of 1Maccabees It sets out to discern the place and function of the torah within the community described by the book However before addressing the main problem the author must first determine the composition history

of the text Given that the former orthodoxy of a unitary authorship seems to be breaking down and no consensus has taken its place a literary critical investigation occupies a necessary and lengthy portion of the work Once a recommendation for the book s composition history is reached attitudes toward the inherited Judean tradition are described in each of the strata discovered The resulting study reveals a wide variety of opinions on the Judean traditions and their function in society This contributes to the current trend in scholarship of the Hellenistic period questioning the dichotomy between Judaism and Hellenism by demonstrating the different attitudes within even one text **Herod's Judaea** Samuel Rocca, 2015-03-30
