collection of new essays examine various ways in which George Lucas's saga touches upon contemporary social and political issues. Topics include the impact of the film's score on musical genres, feminism and NASA, the epic mimicry of Western African and Bedouin cultural motifs, gender identity construction, Cold War narratives in radio and national mythology, and fan interpretations of authorship and authenticity. *Sally Ride* Lynn Sherr, 2014-06-03 The definitive biography of Sally Ride, America's first woman in space, with exclusive insights from Ride's family and partner by the ABC reporter who covered NASA during its transformation from a test pilot boys club to a more inclusive elite. Sally Ride made history as the first American woman in space. A member of the first astronaut class to include women, she broke through a quarter century of white male fighter jocks when NASA chose her for the seventh shuttle mission, cracking the celestial ceiling and inspiring several generations of women. After a second flight, Ride served on the panels investigating the Challenger explosion and the Columbia disintegration that killed all aboard. In both instances, she faulted NASA's rush to meet mission deadlines and its organizational failures. She cofounded a company promoting science and education for children, especially girls. Sherr also writes about Ride's scrupulously guarded personal life; she kept her sexual orientation private, with exclusive access to Ride's partner, her former husband, her family, and countless friends and colleagues. Sherr draws from Ride's diaries, files, and letters. This is a rich biography of a fascinating woman whose life intersected with revolutionary social and scientific changes in America. Sherr's revealing portrait is warm and admiring but unsparing. It makes this extraordinarily talented and bold woman an inspiration to millions come alive. *Female Identity in Contemporary Fictional Purgatorial Worlds* Simon Bacon, 2023-08-10 Examining fictional purgatorial worlds in contemporary literature, film, and video games, this book examines the way in which the female characters trapped within them construct identity positions of resistance and change. With the rise of populism, the Alt Right, and isolationism in world politics in the second decade of the 21st Century, parallel purgatorial worlds seem to currently proliferate within popular culture across all media, including television shows and films such as *The Handmaid's Tale*, *Us*, *Watchmen*, and Margaret Atwood's *The Testaments*, among many others. These texts depict alternate worlds that express the darkness and violence of our own, arguably none more so than for women. Featuring essays from a broad range of international contributors on topics as wide-ranging as mental health in the *Silent Hill* franchise and liminal spaces in the work of David Mitchell, this book is an original, timely, and hope-filled analysis about overcoming the confines of a patriarchal fundamentalist world where the female imaginative might just be the last best hope. *Biographical Dictionary of Explorers* Alan Wexler, Jon Cunningham, 2019-06-01 An informative, fascinating resource suitable for students, researchers, and general readers, this biographical dictionary is a who was who of world and space explorers, giving readers a sense of the human drama, the achievements, and the challenges that those who go where few or none have gone before must face. The explorers covered include Jacques Cousteau, Sir Vivian Fuchs, John Glenn Jr., Aleksei Leonov, Annie Peck, Valentina Tereshkova, and many more. **Hooray for Heroes!** Dennis Denenberg, Lorraine Roscoe, 1994 Combines creative activities
