Schliemann's Discoveries Of The Ancient World:

Schliemann's Discoveries of the Ancient World Karl Schuchardt, 1971 *Schliemann's Discoveries of the Ancient World* Karl Schuchardt, 1979 In this book which was written under Schliemann's supervision and was published shortly after his death the dazzling accumulation of Schliemann's many findings has been systemized by Dr Schuchardt. He also updates them as Schliemann uncovered so much and was a tireless worker that he sometimes did not know precisely what he had found. After a short description of Schliemann's life Dr Schuchardt gives detailed accounts of Schliemann's discoveries at Troy, Tiryns and Mycenae. The great treasures found at Troy and Mycenae are thoroughly described as well as Schliemann's experimental method of unearthing them. All of these findings are illustrated by hundreds of illustrations, diagrams and maps. Written by a mixture of museum professionals and academics and ranging across Europe, North America and the Middle East this book examines the many ways in which museums were affected by major conflicts such as the World Wars, considers how and why they attempted to contribute to the war effort, analyses how wartime collecting shaped the nature of the objects held by a variety of museums and demonstrates how museums of war and of the military came into existence during this period. Closely focused around conflicts which had the most wide ranging impact on museums this collection includes reflections on museums such as the Louvre, the Stedelijk in the Netherlands, the Canadian War Museum and the State Art Collections, Dresden. Museums, Modernity and Conflict will be of interest to academics and students worldwide particularly those engaged in the study of museums, war and history. Showing how the past continues to shape contemporary museum work in a variety of different and sometimes unexpected ways the book will also be of interest to museum practitioners. **Building Bridges of Time, Places and People: Volume I** J. Marc Merrill, 2012-05-03 Mysteries associated with ancient Egypt are not confined to the pyramids of Giza. For example consider these: One Egyptian hieroglyph is patterned after a bird known as the jabiru, another is an image of a saguaro cactus. Both the jabiru and the saguaro are found only in the Western Hemisphere so how did they become hieroglyphs? Tutankhamen is referred to as the boy king by Egyptologists. Why then were statues found in the tomb portraits of a young

woman Hatshepsut is said to have been a female pharaoh who reigned for 22 years but then disappeared from the scene What happened to her And why was her image expunged from the walls of temples Senenmut a favorite of Hatshepsut wrote that he had access to all the writings of the prophets Which prophets did he mean Why does the face of the mummy of Ramesses II not match the statues of this great pharaoh Also why did the embalmers remove the stomach and place the heart on the right side of the thorax And why were diced tobacco leaves from the Western Hemisphere used to line the chest cavity Why was Yuya supposedly the father of the great Queen Tiy buried with three coffins while his wife had only two Moreover why did the mask that covered his face along with the face on the innermost coffin look totally different from the mummy and from each other Death masks were found not just in Egypt but in Greece as well The most famous of these came from grave 5 at Mycenae Each eye of this gold mask has double eyelids In addition like the Sphinx at Giza and the Shroud of Turin the left eye is higher than the right and the mouth is not centered How can such similarities be explained Turning to Italy on the underside of the right wrist of the Prima Porta statue of Augustus there is the distinct impression of the head of a spike According to historians this statue depicts the first emperor of Rome but what if it is instead a portrait of a man who was crucified These mysteries along with many others are examined in detail and then convincingly explained in this first of two volumes to explore crucial links between Egypt Israel Greece and Italy

Baker,2019-10-03 This book explores what visitors saw at the Trojan exhibition and why its contents including treasure plain pottery and human remains captured imaginations and divided opinions When Schliemann s Trojan collection was first exhibited in 1877 no one had seen anything like it Schliemann claimed these objects had been owned by participants in the Trojan War and that they were tangible evidence that Homer s epics were true Yet these objects did not reflect the heroic past imagined by Victorians and a fierce controversy broke out about the collection s value and significance Schliemann invited Londoners to see the very unclassical objects on display as the roots of classical culture Artists poets historians race theorists bankers and humourists took up this challenge but their conclusions were not always to Schliemann s liking Troy s appeal lay in its materiality visitors could apply analytical techniques from aesthetic appreciation to skull measuring to the collection and draw their own conclusions This book argues for a deep examination of museum exhibitions as a constructed spatial experience which can transform how the past is seen This new angle on a famous archaeological discovery shows the museum as a site of controversy where hard evidence and wild imagination came together to form a lasting image of Troy
