Budgets for Acquisitions Sul H. Lee, 2019-12-05 This book first published in 1991 deals with the demanding problems of smaller acquisitions budgets In recent years librarians have seen their finances diminishing while the prices of serials and monographs have risen steadily Now with major decisions having to be made concerning such things as automation monograph collections and subscription renewals librarians are having to assume the role of business manager and dealer This book takes an in depth look at the situation and offers practical suggestions for working through the lean years Strategies for getting the most for your money when dealing with vendors selective collection development and maintenance and making calculated decisions on how to divide the library's funds are just a few of the topics covered in this helpful new book

Electronic Expectations Tony Stankus, 2000-04-18 Explore the future of Internet based Science Journals Electronic Expectations Science Journals on the Web chronicles the convergence of financial technical and public policy considerations that turned what seemed like science fiction twenty years ago into a library fact of life today The book shows that while electronic publication greatly speeds issuance of important scientific results of enduring value it also has the potential to lower the economic threshold at which crank papers and marginal publications can gain a wide if sadly misled audience in the short run In Electronic Expectations editor Tony Stankus predicts with splendid irony that the electronic journals that will matter the most to genuine scientific progress will be the web

versions of long standing leaders among traditional print journals whose electronic typesetting requirements gave the web its first format conventions and rules for safe content transmission Electronic Expectations will empower you to assess the existing print journal system and its prospects for improvement through electronic publishing discern the competing motivations and strategies of science researchers librarians publishers and journal aggregators in going electronic identify the web winners and losers after these first ten years understand the underlying business and technological warfare affecting the larger future of the internet Electronic Expectations demonstrates that while scientists invented the web they no longer control it and that even the very largest research organizations libraries publishers and journal aggregators will to a substantial degree be at the technological and economic mercy of commercial users of the web **Resources in Education**
