A Short Reference Grammar of Moroccan Arabic Richard Slade Harrell, 2004 A Short Reference Grammar of Moroccan Arabic with Audio CD is a practical reference grammar for the student who has had introductory Moroccan Arabic The accompanying CD is keyed to the text demonstrating the pronunciation of the Arabic transcribed in the book It teaches the phonology morphology and syntax of the dialect spoken by the educated urban speakers of the northwestern part of Morocco especially Fez Rabat and Casablanca The British National Bibliography Arthur James Wells, 2006 *Modern Arabic* Clive Holes, 2004 The revised and updated edition of Modern Arabic takes this authoritative concise linguistic description of the structure and use of modern Arabic to an invaluable new level Clive Holes traces the development of the Arabic language from Classical Arabic the written language used in the 7th century for the Qur'an and poetry through the increasingly symbiotic use of Modern Standard Arabic or MSA the language of writing and formal speech and dialectal Arabic the language of normal conversation He shows how Arabic has been shaped over the centuries by migration urbanization and education giving us a balanced dispassionate and accurate picture of the structures functions and varieties of the contemporary Arabic language Holes explains the structural characteristics phonology morphology syntax semantics and lexical and stylistic developments that the majority of the dialects share as distinguished from Modern Standard Arabic He also shows how native speakers use both types of Arabic for different purposes with MSA being the language of power and control as used on television and in political speeches and the dialects serving as the language of intimacy and domesticity He further shows how MSA and spoken dialects are not as compartmentalized as one might be led to believe Modern Arabic illustrates the use of the Arabic language in real life whether in conversation news bulletins and newspaper articles serious literature or song This new edition takes into account research published in several areas of Arabic linguistics since the first edition was published in 1995 It includes more extensive comment on the North African Arabic vocabulary of Modern Standard Arabic more information about mixed varieties of written Arabic that are not in MSA especially in Egypt updated references explanations and many new examples All Arabic is transcribed except for an appendix presenting the Arabic alphabet and script Students of the Arabic language will find Modern Arabic without peer as will those general linguists who are interested in discovering how Arabic compares structurally and sociolinguistically with European languages
