

The ant and the grasshopper

A little ant and a grasshopper lived together in a rocky green area. The little ant always got up early to collect and store grains for the winter. However, the grasshopper spent its time flying and jumping in the area. The little ant advised it many times to collect its food before the difficult winter, but the grasshopper didn't care and spent its time playing. The difficult winter came and the grasshopper didn't find enough food to eat.

The Preface Ross K. Tangedal,2021-11-06 Building on insights from the fields of textual criticism bibliography narratology authorship studies and book history The Preface American Authorship in the Twentieth Century examines the

role that prefaces played in the development of professional authorship in America. Many of the prefaces written by American writers in the twentieth century catalogue the shifting landscape of a more self-consciously professionalized trade one fraught with tension and compromise and influenced by evolving reading publics. With analyses of Willa Cather, Ring Lardner, F. Scott Fitzgerald, Ernest Hemingway, Robert Penn Warren, and Toni Morrison, Ross K. Tangedal argues that writers used prefaces as a means of expanding and complicating authority over their work and ultimately as a way to write about their careers. Tangedal's approach offers a new way of examining American writers in the evolving literary marketplace of the twentieth century.
