Textuality of public place in the selected short stories of Ruskin Bond Rimpa Pal, 2020-12-08 Essay from the year 2020 in the subject Literature Asia language English abstract This paper deals with four major short stories of Ruskin Bond where railway

station is the setting and Bond attempts to build private relations in public atmosphere I have not specifically dealt with space theory but certain concepts like Augé's idea of non place Tuan's meaning of existence and the relation between man and environment which were necessary while justifying the tendency of the author to transform the railway station into a private place for expressing his character's personal desires The bond of human relationships emphasizes Bond's understanding of the human mentality nature thoughts and behaviour Bond's stories display human feelings like affection care kind heartedness insecurities sorrow and disgust As his art is often referred to as autobiographical his characters are real and we can find them in our neighbourhood The incomparable way in which he alters the unexciting dull things in our everybody life into something really striking and interesting fascinate not only the common reader but also the literary world Travelling and communication with masses is equally important for humanity which makes one socially upgraded and sometimes may give birth to inventive artists like Ruskin Bond
