Literary Theory and Criticism Samiran Kumar Paul, 2020-12-08 Literary theory and criticism aims to cater to the academic requirements of college and university students and research scholars Among the students of English literature it is found

that they are mostly engaged in genres like poetry novel drama prose and essay My endeavour for such students and scholars is to make this book a supplement to their marginalized genres such as theory and criticism The Transnational in Literary Studies Kai Wiegandt,2020-07-06 This volume clarifies the meanings and applications of the concept of the transnational and identifies areas in which the concept can be particularly useful The division of the volume into three parts reflects areas which seem particularly amenable to analysis through a transnational lens The chapters in Part 1 present case studies in which the concept replaces or complements traditionally dominant concepts in literary studies These chapters demonstrate for example why some dramatic texts and performances can better be described as transnational than as postcolonial and how the transnational underlies and complements concepts such as world literature Part 2 assesses the advantages and limitations of writing literary history with a transnational focus These chapters illustrate how such a perspective loosens the epistemic stranglehold of national historiographies but they also argue that the transnational and national agendas of literary historiography are frequently entangled The chapters in Part 3 identify transnational genres such as the transnational historical novel transnational migrant fiction and translinguistic theatre and analyse the specific poetics and politics of these genres **(Re)mapping the Latina/o Literary Landscape** Cristina Herrera,Larissa M. Mercado-López,2016-08-10 This book broadens the scope of Latina o criticism to include both widely read and understudied nineteenth through twenty first century fictional works that engage in critical discussions of gender race sexuality and identity The essays in this collection do not simply seek inclusion for the texts they critically discuss but suggest that we more thoughtfully consider the utility of mapping whether we are mapping land borders time migration or connections and disconnections across time and space Using new and rigorous methodological approaches to reading Latina o literature contributors reveal a varied and textured landscape challenging us to reconsider the process and influence of literary production across borders *Thinking through Children's Literature in the Classroom* Agustín Reyes-Torres,Luis S. Villacañas-de-Castro,Betlem Soler Pardo,2014-06-30 This book is the result of understanding literature as a central part of children s education Fiction and nonfiction literary works constitute a source to open young minds and to help them understand how and why people themselves included live as they do or to question through critical lenses whether they could live otherwise By integrating philological cultural and pedagogical inquiries *Thinking through Children s Literature in the Classroom* approaches the use of literature as a crucial factor to motivate students not only to improve their literacy skills but also to develop their literary competence one that prepares them to produce independent and sensible interpretations of the world Of course the endeavor of forming young readers and fostering their ability to think begins primarily by having well read teachers who are enthusiastic about teaching and secondly by having students who are willing to learn To encourage and sustain them through the critical turns of their own thinking processes educators must surely display a sound pedagogic knowledge apart from deep literary expertise Modern Chinese Literature and Culture ,2007 Routledge Handbook of

Martin Guiney, 2017-05-31 This book argues for the importance of literature studies using the historical debate between the disinterested disciplines art for art s sake and utilitarian or productive disciplines Forgoing the traditional argument that literature is a unique spiritual resource as well as the utilitarian thought that literary pedagogy promotes skills that are relevant to a post industrial economy Guiney suggests that literary pedagogy must enable mutual access between the classroom and the outside world It must recognize the need for every human being to become a conscious producer of culture rather than a consumer through an active process of literary reading and writing Using the history of French curricular reforms as a case study for his analysis Guiney provides a contextualized redefinition of literature s social value Gregg Reporting Shortcuts John Robert Gregg, 1922
