Shortcut To Decay The Case Of The Sudan:

Short-cut to Decay Terje Tvedt, 1994 The Sudan can demonstrate that while there is no short cut to progress there is one to decay and misery After eleven years of peace the second civil war has now lasted for more than ten years Regional ethnic and religious conflicts are intensifying all over the country The economy is in shambles while a small elite is enriching itself

One Foot in Heaven Karin Willemse, 2007 This innovative anthropological study based on biographic narratives recorded during extensive field research in Darfur Sudan 1990-95 provides a unique understanding of how in daily life working women of different classes negotiate their identities in the context of an Islamist regime **The Post-Colonial**

State and Civil War in Sudan Noah R. Bassil, 2015-08-25 The humanitarian crisis in Darfur a consequence of the civil war and ongoing violence has attracted significant international media attention Here Noah Bassil offers a re-conception of the conflict in Darfur by examining the origins and progression of the conflict through the broader issue of state failure in post colonial Sudan By moving away from a localised view of the conflict Bassil is able to demonstrate the extent to which the breakdown of social relations in Darfur is interconnected with the wider breakdown of Sudanese and post colonial societies offering an examination of the nexus between international national and local forces Through its coherent framework for understanding the causes of the civil war that erupted in the Darfur region in 2003 this book provides a unique examination of the conflict and the wider post colonial situation making it an important contribution to the fields of History International Relations and Peace Studies **Identity, Conflict and Cooperation in International River Systems** Jack

Kalpakistan, 2017-11-30 Kalpakian tests the dominant assumption that water disputes cause violent conflict between states and other actors in world politics Using case studies from arid regions to bias the effort towards this assumption he finds that issues related to identity have been the real source of conflict in the river basins studied This essential volume challenges conventional assumptions about water and conflict displaces the state as the sole actor in violent conflict reveals the link between conflict and identity This book invites the reader to address the complexity in the relationships binding peoples and states in an international river basin **Darfur** Gérard Prunier, 2011-04-27 Praise for the 2005 Edition A passionate and highly readable account of the current tragedy that combines intimate knowledge of the region's history politics and

sociology with a telling cynicism about the polite but ineffectual diplomatic efforts to end it It is the best account available of the Darfur crisis Foreign Affairs Does the conflict in Darfur however bloody qualify as genocide Or does the application of the word genocide to Darfur make it harder to understand this conflict in its awful peculiarity Is it possible that applying a generic label to Darfurian violence makes the task of stopping it harder Or is questioning the label simply insensitive implying that whatever has happened in Darfur isn't horrible enough to justify a claim on the world's conscience and thus invite inaction or even the dismissal of Darfur altogether These questions lie at the heart of a much needed new book by Gerard Prunier In this book Prunier casts aside labels and lays bare the anatomy of the Darfur crisis drawing on a mixture of

history and journalism to produce the most important book of the year on any African subject Salon com The emergency in Darfur in western Sudan is far from over as G rard Prunier points out in this comprehensive and authoritative book He concisely covers the history the conflicts and the players This book is essential for anyone wanting to learn about this complex conflict Library Journal If Darfuris are Muslim what is their quarrel with the Islamic government in Khartoum If they and the janjaweed evil horsemen driving them from their homes are both black how can it be Arab versus African If the Sudanese government is making peace with the south why would it be risking that by waging war in the west Above all is it genocide G rard Prunier has the answers An ethnographer and renowned Africa analyst he turns on the evasions of Khartoum the uncompromising eye that dissected Hutu power excuses for the Rwanda genocide a decade ago The Guardian Darfur A 21st Century Genocide explains what lies behind the conflict in Western Sudan how it came about why it is should not be oversimplified and why it is so relevant to the future of Africa As the world watches governments decide if when and how to intervene and international organizations struggle to distribute aid G rard Prunier s book provide crucial assistance The third edition features a new chapter covering events through mid 2008

The Darfur Conflict Osman Suliman,2011-01-05 Although it is often simplified as an ethnic conflict in popular media the current crisis in Darfur can only be superficially defined across ethnic lines Any long term solution to the conflict must also address the underlying social and environmental influences such as changing resource dynamics expanding poverty lack of infrastructure and political corruption which have brought the crisis to a head This project diverges from previous studies by examining how the dynamic interaction between the environment local governance and national policy in Sudan has resulted in the Darfur crisis It demonstrates how ecological degradation and the breakdown of community governance have destabilized the region and how corruption and incompetence at the national level have culminated in the current crisis Analyzing the interplay of these factors will yield valuable insights as to how a concerned international community can both end the tragic genocide and address the underlying injustices that engendered it The analysis presented will be informative and accessible to a wide readership of students academics and concerned citizens

The United Nations Security Council in the Age of Human Rights Jared Genser,Bruno Stagno Ugarte,2014-06-05 The first comprehensive look at the human rights dimensions of the work of the only UN body capable of compelling action by its member states

Democratic Transitions in the Arab World Ibrahim Elbadawi,Samir Makdisi,2016-12-24 In the wake of the unprecedented uprisings that swept across North Africa and the Middle East in late 2010 and 2011 there was much speculation that these events heralded the beginning of a new age of democratic transition across the region The result of a four year research project this book offers a cross country analysis of the dynamics of democratic transition and of the state of democracy and authoritarianism from Tunisia Sudan and Egypt to Syria Kuwait and Lebanon Elbadawi and Makdisi identify specific economic political and social conditions influencing the transition across the region and in each of the individual countries as well as the requisite conditions for consolidating

democracy once the process is initiated It examines the struggling halted and painful transitions where these have for the time being failed as well as instances in which democratic consolidation can be observed This is a unique and wide ranging examination of Arab development and democracy for those examining the fate of authoritarian regimes Darfur Allegory Rogaia Mustafa Abusaraf,2021-03-16 The Darfur conflict exploded in early 2003 when two rebel groups the Sudan Liberation Movement and the Justice and Equality Movement struck national military installations in Darfur to send a hard hitting message of resentment over the region s political and economic marginalization The conflict devastated the region s economy shredded its fragile social fabric and drove millions of people from their homes Darfur Allegory is a dispatch from the humanitarian crisis that explains the historical and ethnographic background to competing narratives that have informed international responses At the heart of the book is Sudanese anthropologist Rogaia Abusharaf s critique of the pseudoscientific notions of race and ethnicity that posit divisions between Arab northerners and African Darfuris Elaborated in colonial times and enshrined in policy afterwards such binary categories have been adopted by the media to explain the civil war in Darfur The narratives that circulate internationally are thus highly fraught and cover over to counterproductive effect forms of Darfurian activism that have emerged in the conflict s wake Darfur Allegory marries the analytical precision of a committed anthropologist with an insider s view of Sudanese politics at home and in the diaspora laying bare the power of words to heal or perpetuate civil conflict *Sudan* Abdel Salam Sidahmed,Alsir Sidahmed,2004-11-10 Stretching between the savannah and the equator Sudan is a microcosm of Africa with one leg in the Arab world and the other in Africa Sudan s development however has failed to address the differences within the country between its diverse ethnic communities This has resulted in political instability and a lack of national consensus ultimately leading to long term civil war This useful book provides a comprehensive introduction to contemporary Sudan outlining the evolution of the state with emphasis on its post independence experience It includes chapters on the history politics society international relations and economy of the country **Ethnic Politics and State Power in Africa** Philip Roessler,2016-12-15 Why are some African countries trapped in vicious cycles of ethnic exclusion and civil war while others experience relative peace In this groundbreaking book Philip Roessler addresses this question Roessler models Africa s weak ethnically divided states as confronting rulers with a coup civil war trap sharing power with ethnic rivals is necessary to underwrite societal peace and prevent civil war but increases rivals capabilities to seize sovereign power in a coup d tat How rulers respond to this strategic trade off is shown to be a function of their country s ethnic geography and the distribution of threat capabilities it produces Moving between in depth case studies of Sudan and the Democratic Republic of the Congo based on years of field work and statistical analyses of powersharing coups and civil war across sub Saharan Africa the book serves as an exemplar of the benefits of mixed methods research for theory building and testing in comparative politics **Anthropology in the Sudan** Abdel Ghaffar Muhammad Ahmad,2003 This collection of essays on the Sudan highlights the country s critical role in anthropology research and in

studies of social change and development in rural Africa Spanning 25 years the scholarship reveals the strengths and weaknesses of anthropology from its exploitive and colonial roots in Africa to its current liberating manifestation While questioning the modernization paradigm this critical discussion does not entirely reject development and reveals how development anthropology can serve as a progressive force on the continent Africa Bibliography 1995 Chris Allen,1997-10-29 This volume contains works on Africa published during 1995 **Nomadic Peoples** ,2004 **Big African States** Christopher S.
