DiPaolo, 2004-11-18 When someone offered Michael DiPaolo 5 000 to help make a Digital Video horror film he jumped at the chance to test a theory an ultra low budget feature shot in less than a week with a paid cast and crew could be successful if meticulously planned Using one computer and one camcorder he produced and edited Daddy which had its theatrical premier in New York City in 2004 This book breaks down the production through a detailed daily diary emphasizing that the most important aspects of successful producing are careful planning and camaraderie in the group The work covers many points important for the low budget filmmaker including selecting a story budgeting scheduling picking cast and crew scouting locations finding wardrobe food and transportation and what to do if you run out of time or money Postproduction is also covered editing computer work and sound design as is the result of all this hard work screenings
