

Don't Confuse the Photostat with any other apparatus

THE Photostat is not an experiment—its almost unlimited scope and its great value as a time and money saver and an efficiency promoter are now recognized facts.

The Photostat cannot make a mistake because it simply makes a photographic reproduction directly upon paper and further, because the focusing does not depend on the operator, it being an entirely mechanical operation. You can reduce a blueprint, for instance, any amount within the range of the machine and to scale.

This does away with the time you've always wasted in checking up the work of your men in tracing or of your typists in duplicating plans and specifications.

Consider the space that two thousand letter, non-replicable blueprints occupy—then consider that two thousand PHOTOSTAT copies would go into an ordinary letter file.

You could slip a hundred Photostat prints in your pocket—but never blueprints.

Photostat prints are permanent—they can be kept flat—

they are clear and easily read—they are accurate, they cannot be otherwise.

You know what a nuisance it is to have to make a tracing of every pencil drawing. You no longer need do it—just Photostat it.

The same thing holds good with plans and specifications records and documents. No matter how old they may be, how faded, the Photostat will give you just as good a copy as the original. Specifications need no longer be typed or printed—just Photostat them as many times as you like.

One firm, in a pinch, made its duplication in an hour and twenty minutes on their Photostat—another firm averages 166 prints of varying sizes per day.

Still another firm saves \$250 per month with their Photostat by doing away with two draftsmen and a stenographer—another saves \$200 per month and another \$1000 per year. That is PHOTO-STAT SAYING.

Send us work to photostat and get the book—

Just write us on your firm letter head. Send us a blue-print; a letter; a check; an old worn out letter; a pencil drawing; and anything else you wish to have photostated. We will Photostat your material free and send you the print together with THE PHOTO-STAT BOOK. No obligation. Send NOW.
