Shrines Of Power:

Power and Place Gregory Stevenson, 2012-08-06 Archaeological epigraphic numismatic and historical research is used to illuminate the meaning and function of temples in both Jewish and Greco Roman cultures This evidence is then brought into a dialogue with a literary analysis of how the temple functions as a symbol in Revelation The Gates of Power Mikael S. Adolphson, 2000-07-01 The political influence of temples in premodern Japan most clearly manifested in divine demonstrations where rowdy monks and shrine servants brought holy symbols to the capital to exert pressure on courtiers has traditionally been condemned and is poorly understood In an impressive examination of this intriguing aspect of medieval Japan the author employs a wide range of previously neglected sources to argue that religious protest was a symptom of political factionalism in the capital rather than its cause It is his contention that religious violence can be traced primarily to attempts by secular leaders to rearrange religious and political hierarchies to their own advantage thereby leaving disfavored religious institutions to fend for their accustomed rights and status In this context divine demonstrations became the preferred negotiating tool for monastic complexes For almost three centuries such strategies allowed a handful of elite temples to maintain enough of an equilibrium to sustain and defend the old style of rulership even against the efforts of the Ashikaga Shogunate in the mid fourteenth century By acknowledging temples and monks as legitimate co rulers The Gates of Power provides a new synthesis of Japanese rulership from the late Heian 794 1185 to the early Muromachi 1336 1573 eras offering a unique and comprehensive analysis that brings together the spheres of art religion ideas and politics in medieval Japan **Missiology with Power** Charles H. Kraft, 2024-12-31 Healing the sick bringing freedom from evil spirits proclaiming the good news of the kingdom of God these instructions are the core of what Jesus commanded the Twelve and seventy to do as he sent them out on mission Missiology the study of mission explores how the good news of the kingdom of God and of Jesus is communicated across cultures Many involved in mission have found that this communication requires more than words it also entails visible demonstrations of God s power to heal set people free from spiritual oppression and challenge unbiblical adherence to harmful animistic and folk practices This book by renowned missiologist Charles H Kraft explores what missiology informed by and infused with Jesus centered spiritual power looks like It is packed with insights based on a lifetime of practical experience field research and biblical reflection In Missiology with Power Kraft addresses topics such as spiritual power and authority ways cultures see invisible spiritual realities and how Jesus can be followed in culturally relevant ways that also challenge and change unbiblical traditional beliefs in magic divination cursing worship of spirits and other related practices Exceedingly practical and challenging this short work Kraft s final book does not disappoint Power Encounter in Spiritual Warfare Charles H. Kraft, 2017-05-18 Acceptance of Christianity in Southern Polynesia during the eighteenth century proceeded rapidly without missionary activity This fact attracted the attention of Alan Tippett who served for twenty years as an Australian missionary to the Fiji Islands What he found was that the key to

their conversion lay in the fact that without missionary presence the south sea islanders responded to demonstrations of what Tippett learned to call power encounters These were contests some staged some not staged in which there was a power encounter between the true God and the gods of the islanders in which the traditional gods were defeated Kraft here discusses the fact that this power principle applies much more widely **Culture and Power in Banaras** Sandria B.

Köck,Brigitte Pickl-Kolaczia,Bernhard Scheid,2021-04-08 This book sheds new light on the relationship between religion and state in early modern Japan and demonstrates the growing awareness of Shinto in both the political and the intellectual elite of Tokugawa Japan even though Buddhism remained the privileged means of stately religious control The first part analyses how the Tokugawa government aimed to control the populace via Buddhism and at the same time submitted Buddhism to the sacralization of the Tokugawa dynasty The second part focuses on the religious protests throughout the entire period with chapters on the suppression of Christians heterodox Buddhist sects and unwanted folk practitioners The third part tackles the question of why early Tokugawa Confucianism was particularly interested in Shinto as an alternative to Buddhism and what Shinto actually meant from a Confucian stance The final part of the book explores attempts to curtail the institutional power of Buddhism by reforming Shinto shrines an important step in the so called Shintoization of shrines including the development of a self contained Shinto clergy Goddess Durga and Sacred Female Power Laura Amazzone,2012-07-10

The Spell of Power H.G.C. Schulte Nordholt, 2010-01-01 Note: This title was out of print. Re-issued in its original form in 2010. The first comprehensive history of Balinese politics from the middle of the 17th century till the end of Dutch colonial rule in 1942. Based on extensive research in colonial archives in the Netherlands and Indonesia, a variety of Balinese historical narratives, interviews with former colonial officials, as well as many Balinese and fieldwork data concerning temples, rituals, and oral histories, Schulte Nordholt traces Balinese history by means of a collective biography of the Mengwi dynasty, describing the rise to power, the formation and expansion of a *negara*, the subsequent crises, and its fall in 1891. Between 1906 and 1942, Bali became part of the Dutch colonial state and experienced bureaucratic rule and processes that resulted in a traditionalization of Balinese kingship and culture. The story of the Mengwi dynasty under colonial rule ended in a conflict between two factions. This conflict had an unexpected but devastating outcome.

The Power of the Bull Michael Rice, 2014-02-25 Everyone has heard of the Minotaur in the labyrinth on Crete, and many know that the Greek gods would adopt the guise of a bull to seduce mortal women. But what lies behind these legends? *The Power of the Bull* discusses mankind's enduring obsession with bulls. The bull is an almost universal symbol throughout Indo-European cultures. Bull cults proliferated in the Middle East and in many parts of North Africa, and one cult, Mithraism, was the greatest rival to Christianity in the Roman Empire. The cults are divergent yet have certain core elements in common. Michael Rice argues that the ancient bulls were the supreme sacrificial animal. An examination of evidence from earliest prehistory onwards reveals the bull to be a symbol of political authority, sexual potency, economic wealth, and vast subterranean powers. In some areas, representations of the bull have varied little from earliest times; in others, it has changed vastly over centuries. This volume provides a well-illustrated and accessible analysis of the exceptionally rich artistic

inheritance associated with the bull **Architecture, Power, and Religion** David Warburton, 2012 This book explores the fundamental question of the origins and nature of monumental religious architecture The principal argument is that the origins of monumental religious architecture were basically aspatial and that the gradual incorporation of functional space into religious architecture can be related to transformations in religious thought Although the discussion ranges across the Old World the argument centers on Egypt and the Egyptian female king Hatshepsut she set the tone for the New Kingdom by tying her legitimacy to Amun and the monuments she built for him This leads into the issues of power and political legitimacy and their relevance to myths The basic contention is that the political ideologies of the Near Eastern Bronze Age contributed fundamentally to what later became the phenomenon we know as religion and that the history of the architecture must be understood in order to understand both religion and architectural space Series Articles on Archaeology Beitrage zur Archaeologie Vol 7 History and Magical Power in a Chinese Community P. Sangren, 1987-09-01 This book is a case study of history and culture in the Taiwanese town of Ta ch i and the group of rural villages that constitute its standard marketing community However its scope exceeds that of most community studies The author attempts to construct a holistic view of Chinese culture from an analysis of the relationship between history and ritual in a particular locality The author argues that social institutions and collective representations are dialectically connected in the process of social and cultural reproduction He describes this dialectical process through an analysis of the key cultural concept of ling the magical power attributed to ghosts gods and ancestors In analyzing the symbolic logic of ling he asserts that it can be fully understood only as a product of the reproduction of social institutions and as a manifestation of a native historical consciousness Structuralist and Marxist insights are combined to explain how ling is best understood as both a cultural logic of symbolic relations and a material logic of social relations The book is in three parts Part I is a social and economic history that outlines what one might call an objectivist or positivist view of Ta ch i s history describing events as they were regardless of the perceptions of local participants This material is a background to the synchronic sociological analysis of local territorial cults that constitutes Part II In Part III the author unsettles the objectivist assumptions of Part I by showing how the idiom of ling underlies Taiwanese constructions of history and identity and how the cultural construction of history dialectically reproduces society and creates history The book is illustrated with 8 pages of photographs 17 line drawings and 9 maps Itineraries of Power Terry Kawashima, 2020-05-11 Movements of people and groups through travel migration exile and diaspora are central to understanding both local and global power relationships But what of more literary moves textual techniques such as distinct patterns of narrative flow abrupt leaps between genres and poetic figures that flatten geographical distance This book examines what happens when both types of tropes literal traversals and literary shifts coexist Itineraries of Power examines prose narratives and poetry of the mid Heian to medieval eras 900 1400 that conspicuously feature tropes of movement Terry Kawashima argues that the appearance of a character s physical motion alongside literary techniques identified with motion

is a textual signpost in a story urging readers to focus on how the work conceptualizes relations of power and claims to authority From the gendered intersection of register shifts in narrative and physical displacement in the Heian period to a dizzying tale of travel retold multiple times in a single medieval text the motion in these works gestures toward internal conflicts and alternatives to existing structures of power The book concludes that texts crucially concerned with such tropes of movement suggest that power is always simultaneously manufactured and dismantled from within

The Power of Your Subconscious Mind Joseph Murphy, 2017-05-23 How This Book Can Work Miracles in Your Life I have seen miracles happen to men and women in all walks of life all over the world Miracles will happen to you too when you begin using the magic power of your subconscious mind This book is designed to teach you that your habitual thinking and imagery mold fashion and create your destiny for as a man thinketh in his subconscious mind so is he Do You Know the Answers Why is one man sad and another man happy Why is one man joyous and prosperous and another man poor and miserable Why is one man fearful and anxious and another full of faith and confidence Why does one man have a beautiful luxurious home while another man lives out a meager existence in a slum Why is one man a great success and another an abject failure Why is one speaker outstanding and immensely popular and another mediocre and unpopular Get Your Copy Now

Music and the Play of Power in the Middle East, North Africa and Central Asia Laudan Nooshin, 2016-04-29 What is it about the history geographical position and cultures of the Middle East North Africa and Central Asia that has made music such a potent and powerful agent This volume presents the first direct look at the complex relationship between music and power across a range of musical genres and countries Discourses of power in the region centre on some of the most contested social issues most notably in relation to nationhood gender and religion Individual chapters examine the ways in which music serves as a forum for playing out issues of power ideology resistance and subversion How does music become a space for promoting or conversely resisting or subverting particular ideologies or positions of authority How does it accrue symbolic power in ways that are very particular perhaps unique And how does music become a site of social control or alternatively a vehicle for agency and empowerment at times overt and at others highly subtle What is it about music that facilitates and sometimes disrupts the exercise and flows of power Who controls such flows how and for what purposes In asking such questions in the context of countries such as Afghanistan Egypt Iran Tunisia and Tajikistan the book draws on a wide range of relevant theoretical and critical ideas and many disciplines including ethnomusicology anthropology sociology politics Middle Eastern studies globalization studies gender studies and cultural and media studies The countries and areas explored share a great deal in historical and cultural terms including a legacy of colonial and neo colonial encounters and predominantly Judeo Muslim religious traditions It is hoped that the volume will contribute ultimately to a richer understanding of the role that music plays in these societies

Constructions of Power and Piety in Medieval Aleppo Yasser Tabbaa, 2010-11-01 Tabbaa argues that the intense palatial and religious architectural activity of the period was intended to create a royal image

of the Ayyubid state while also fostering links between it and the urban population His study is based on an entirely new evaluation of the architectural and epigraphic aspects of the standing monuments of the period It presents for the first time full photographic coverage of these monuments as well as many new plans and other renderings and pays close attention to monumental inscriptions correcting and augmenting previous studies The book utilizes the full panoply of the available literary sources including topographies chronicles travel accounts and poetry **The Ordinance Power of the Japanese Emperor** Tomio Nakano,1923 *Mao's Road to Power: Revolutionary Writings, 1912-49: v. 3: From the Jinggangshan to the Establishment of the Jiangxi Soviets, July 1927-December 1930* Zedong Mao,Nancy J. Hodes,2018-04-17 This projected ten volume edition of Mao Zedong s writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including the many new texts that appeared in 1993 Mao s centenary

Infrastructures of Religion and Power Edward Swenson,2024-02-06 This book explores the central role of religion in place making and infrastructural projects in ancient polities It presents a trilectic approach to archaeological study of religious landscapes that combines Indigenous philosophies with the spatial and semiotic thinking of Lefebvre Peirce and proponents of assemblage theories Case studies from ancient Angkor and the Andes reveal how rituals of place making activated processes of territorialization and semiosis fundamental to the experience of political worlds that shaped power relations in past societies The perspectives developed in the book permit a reconstruction of how landscapes were variably conceived perceived and lived in the spirit of Henri Lefebvre and how these registers may have aligned or clashed In the end the examination of built environments infrastructures and rituals staged within specialized buildings demonstrates how archaeologists can better infer past ontologies cosmologies ideologies of time and place and historically specific political struggles The study will appeal to students and researchers interested in ritual infrastructures landscape archaeological theory political institutions semiotics human geography and the civilizations of the ancient Andes and Angkor **Indian Industries and Power** ,1919
