Hagen,1969 Kennan Frank Costigliola,2025-02-11 A definitive biography of the U S diplomat and prize winning historian George F Kennan The diplomat and historian George F Kennan 1904 2005 ranks as one of the most important figures in American foreign policy and one of its most complex Drawing on many previously untapped sources Frank Costigliola s authoritative biography offers a new picture of a man of extraordinary ability and ambition whose idea of containing the Soviet Union helped ignite the Cold War but who spent the next half century trying to extinguish it Always prescient Kennan in the 1990s warned that the eastward expansion of NATO would spur a new cold war with Russia Even as Kennan championed rational realism in foreign policy his personal and professional lives were marked by turmoil And though he was widely respected and honored by presidents and the public he judged his career a failure because he had been dropped as a pilot of U S foreign policy Impossible to classify Kennan was a sui generis thinker a trenchant critic of both communism and capitalism and a pioneering environmentalist Living between Russia and the United States he witnessed firsthand Stalin s tightening grip on the Soviet Union the collapse of Europe during World War II and the nuclear arms race of the Cold War An absorbing portrait of an eloquent insightful and sometimes blinkered iconoclast whose ideas are still powerfully relevant Kennan invites us to imagine a world that Kennan fought for but was unable to bring about one not of confrontations and crises but of dialogue and diplomacy
