Denouncement, Engagement and Dialect Jennifer Holt, 2010 The genre of the mystery novel offers an ideal medium to analyze social injustice The guise of criminal investigations allows for an examination of deviant behavior across diverse social strata and its causes and effects upon modern society In theory institutional justice in Italy extends equal rights and treatment to all citizens irrespective of social standing or political affiliation However an analysis of criminal activity and the manner in which it is investigated and prosecuted reveals that this principle does not always hold true These crimes each a labyrinth of social and political connections the daunting task of exposing those responsible and bringing them to justice within the framework of the legal system constitute the plot of the Sicilian mystery novel Despite the valiant and occasionally successful efforts of an investigator to solve these crimes it is impossible to prosecute the guilty parties within the framework of the legal system This break of the Sicilian mystery novel with the tradition of the genre prompted Italo Calvino to comment on the impossibility of the mystery novel within a Sicilian context Calvino Foreword To Each his Own
