Sicily Italy:

The Invention of Sicily Jamie Mackay, 2021-07-13 Sicily is at the crossroads of the Mediterranean and for over 2000 years has been the gateway between Europe Africa and the East It has long been seen as the frontier between Western Civilization and the rest but never definitively part of either Despite being conquered by empires Romans Byzantines Arabs Normans Hapsburg Spain it remains uniquely apart The island s story maps a mosaic that mixes the story of myth and wars maritime empires and reckless crusades and a people who refuse to be ruled In this riveting rich history Jamie Mackay peels away the layers of this most mysterious of islands This story finds its origins in ancient myth but has been reinventing itself across centuries in conquest and resistance Inseparable from these political and social developments are the artefacts of the nation s cultural patrimony ancient amphitheatres Arab gardens Baroque Cathedrals as well as great literature such as Giuseppe di Lampedusa s masterpiece *The Leopard* and the novels and plays of Luigi Pirandello In its modern era Sicily has been the site of revolution Cosa Nostra and in the twenty first century the epicentre of the refugee crisis *The Invention of Sicily* is a dazzling introduction to the island its history and its people
