Willeford, 1989-11-16 **The Physiology of the Novel** Nicholas Dames, 2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novel critics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked and soothed by authors newly aware of the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century *The Physiology of the Novel* challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture's way of reading responding and feeling *The Two Lolitas*

Michael Maar, 2017-08-22 Does it ring a bell The first person narrator a cultivated man of middle age looks back on the story of an amour fou It all starts when traveling abroad he takes a room as a lodger The moment he sees the daughter of the house he is lost She is a pre teen whose charms instantly enslave him Heedless of her age he becomes intimate with her In the end she dies and the narrator marked by her forever remains alone The name of the girl supplies the title of the story Lolita We know the girl and her story and we know the title But the author was Heinz von Eschwege whose tale of Lolita appeared in 1916 under the pseudonym Heinz von Lichberg forty years before Nabokov's celebrated novel took the world by storm Von Lichberg later became a prominent journalist in the Nazi era and his youthful work faded from view *The Two Lolitas* uncovers a remarkable series of parallels between the two works and their authors Did Vladimir Nabokov author of an imperishable Lolita who remained in Berlin until 1937 know of von Lichberg's tale And if so did he adopt it consciously or was this a classic case of cryptoamnesia with the earlier tale existing for Nabokov as a hidden unacknowledged memory In

The Colonial Comedy: Imperialism in the French Realist Novel Jennifer Yee, 2016-09-01 Nineteenth century French Realism focuses on metropolitan France with Paris as its undisputed heart Through Jennifer Yee's close reading of the great novelists of the French realist and naturalist canon Balzac Flaubert Zola Maupassant *The Colonial Comedy* reveals that the colonies play a role at a distance even in the most apparently metropolitan texts In what Edward Said called geographical notations of race and imperialism the presence of the colonies off stage is apparent as imported objects colonial merchandise and individuals whose colonial experience is transformative Indeed the realist novel registers the presence of the emerging global world system through networks of importation financial speculation and immigration as well as direct colonial violence and power structures The literature of the century responds to the last decades of French slavery and direct colonialism notably in Algeria but also economic imperialism and the extension of French influence elsewhere Far from imperialist triumphalism in the realist novel exotic objects are portrayed as fake or mass produced for the growing bourgeois market while economic imperialism is associated with fraud and manipulation The deliberate contrast of colonialism and exoticism within the metropolitan novel and ironic distancing of colonial narratives reveal the realist mode to be capable of questioning its own epistemological basis *The Colonial Comedy* argues for the existence in the nineteenth century of a Critical Orientalism characterized by critique of its own discursive foundations Using the tools of literary analysis within a materialist approach *The Colonial Comedy* opens up the domestic Paris Provinces axis to signifying chains pointing towards the colonial space
