Blindness and Writing Heather Tilley, 2018 In this innovative and important study Heather Tilley examines the huge shifts that took place in the experience and conceptualisation of blindness during the nineteenth century and demonstrates how new writing technologies for blind people had transformative effects on literary culture Considering the ways in which visually impaired people used textual means to shape their own identities the book argues that blindness was also a significant trope through which writers reflected on the act of crafting literary form Supported by an illuminating range of

archival material including unpublished letters from Wordsworth's circle early ophthalmologic texts embossed books and autobiographies this is a rich account of blind people's experience and reveals the close and often surprising personal engagement that canonical writers had with visual impairment Drawing on the insights of disability studies and cultural phenomenology Tilley highlights the importance of attending to embodied experience in the production and consumption of texts

Parables for the Virtual Brian Massumi, 2021-08-30

Since its publication twenty years ago Brian Massumi's pioneering *Parables for the Virtual* has become an essential text for interdisciplinary scholars across the humanities Massumi views the body and media such as television film and the internet as cultural formations that operate on multiple registers of sensation Renewing and assessing William James's radical empiricism and Henri Bergson's philosophy of perception through the filter of the postwar French philosophy of Deleuze Guattari and Foucault Massumi links a cultural logic of variation to questions of movement affect and sensation Replacing the traditional opposition of literal and figural with distinctions between stasis and motion and between actual and virtual Massumi tackles related theoretical issues by applying them to cultural mediums as diverse as architecture body art the digital art of Stelarc and Ronald Reagan's acting career The result is an intriguing combination of cultural theory science and

philosophy that asserts itself in a crystalline and multifaceted argument This twentieth anniversary edition includes a new preface in which Massumi situates the book in relation to developments since its publication and outlines the evolution of its main concepts It also includes two short texts Keywords for Affect and Missed Conceptions about Affect in which Massumi explicates his approach to affect in ways that emphasize the book's political and philosophical stakes *Making It Work*
