Sighted Singer Two Works On Poetry For Readers And Writers:

The Sighted Singer : Two Works on Poetry for Readers and Writers Allen R. Grossman, Mark Halliday, 1992 The Sighted Singer makes available a revised and significantly expanded version of *Against Our Vanishing* and includes Grossman's recent treatise *Summa Lyrica A Primer of the Commonplaces in Speculative Poetry* This combined edition provides a sophisticated yet accessible discussion across generations of the fundamental discourse of poetic structure **The Sighted Singer** Allen Grossman, 1991-12-01 This combined edition provides a sophisticated yet accessible discussion across generations of the fundamental discourse of poetic structure **The Poem Electric** Seth Perlow, 2018-12-18 An enlightening examination of the relationship between poetry and the information technologies increasingly used to read and write it Many poets and their readers believe poetry helps us escape straightforward logical ways of thinking But what happens when poems confront the extraordinarily rational information technologies that are everywhere in the academy not to mention everyday life Examining a broad array of electronics including the radio telephone tape recorder Cold War era computers and modern day web browsers Seth Perlow considers how these technologies transform poems that we don't normally consider digital From fetishistic attachments to digital images of Emily Dickinson's manuscripts to Jackson Mac Low's appropriation of a huge book of random numbers originally used to design thermonuclear weapons these investigations take Perlow through a revealingly eclectic array of work offering both exciting new voices and reevaluations of poets we thought we knew With close readings of Gertrude Stein Frank O'Hara Amiri Baraka and many others The Poem Electric constructs a distinctive lineage of experimental writers from the 1860s to today Ultimately Perlow mounts an important investigation into how electronic media allows us to distinguish poetic thought from rationalism Posing a necessary challenge to the privilege of information in the digital humanities The Poem Electric develops new ways of reading poetry alongside and against the electronic equipment that is now ubiquitous in our world Lyric Encounters Daniel Morris, 2013-05-23 A new survey of twentieth century U S poetry that places a special emphasis on poets who have put lyric poetry in dialogue with other forms of creative expression including modern art the novel jazz memoir and letters Contesting readings of twentieth century American poetry as hermetic and narcissistic Morris interprets the lyric as a scene of instruction and thus as a public oriented genre American poets from Robert Frost to Sherman Alexie bring aesthetics to bear on an exchange that asks readers to think carefully about the ethical demands of reading texts as a reflection of how we metaphorically read the world around us and the persons places and things in it His survey focuses on poems that foreground scenes of conversation teaching and debate involving a strong willed lyric speaker and another self bent on resisting how the speaker imagines the world **Secular Lyric** John Michael, 2018-04-17 Secular Lyric interrogates the distinctively individual ways that Poe Whitman and Dickinson transformed classical romantic and early modern forms of lyric expression to address the developing conditions of Western modernity especially the heterogeneity of believers and beliefs in an increasingly secular society Analyzing historically and formally how

these poets inscribed the pressures of the modern crowd in the text of their poems John Michael shows how the masses appear in these poets work as potential readers to be courted and resisted often at the same time Unlike their more conventional contemporaries Poe Whitman and Dickinson resist advising sermonizing or consoling their audiences They resist most familiar senses of meaning as well For them the processes of signification in print rather than the communication of truths become central to poetry which in turn becomes a characteristic of modern verse in the Western world Poe Whitman and Dickinson in idiosyncratic but related ways each disrupt conventional expectations while foregrounding language s material density thereby revealing both the potential and the limitations of art in the modern age *A Defense of Judgment* Michael W. Clune, 2021-04-23 Teachers of literature make judgments about value They tell their students which works are powerful beautiful surprising strange or insightful and thus which are more worthy of time and attention than others Yet the field of literary studies has largely disavowed judgments of artistic value on the grounds that they are inevitably rooted in prejudice or entangled in problems of social status For several decades now professors have called their work value neutral simply a means for students to gain cultural political or historical knowledge Michael W Clune s provocative book challenges these objections to judgment and offers a positive account of literary studies as an institution of aesthetic education It is impossible Clune argues to separate judgments about literary value from the practices of interpretation and analysis that constitute any viable model of literary expertise Clune envisions a progressive politics freed from the strictures of dogmatic equality and enlivened by education in aesthetic judgment transcending consumer culture and market preferences Drawing on psychological and philosophical theories of knowledge and perception Clune advocates for the cultivation of what John Keats called negative capability the capacity to place existing criteria in doubt and to discover new concepts and new values in artworks Moving from theory to practice Clune takes up works by Keats Emily Dickinson Gwendolyn Brooks Samuel Beckett and Thomas Bernhard showing how close reading the profession s traditional key skill harnesses judgment to open new modes of perception **Reading Du Fu** Xiaofei Tian, 2020-06-23 This is the first collection of essays in English contributed by well known experts of Chinese literature as well as scholars of a younger generation dedicated to the poetry of Du Fu commonly regarded as the greatest Chinese poet These essays are engaged in historically nuanced close reading of Du Fu s poems both canonical and less known from new angles and in various contexts and discuss a series of critical issues including the local and the imperial the body politic and the individual body poetry and geography perspectives on the complicated relation of religion and literature materiality and contemporary reception of Du Fu poetry and visual art and tradition and modernity Many of the poems discussed in this book were written in the backwater town of Kuizhou far from Du Fu s earlier residence in the capital city Chang an at a time when the Tang dynasty was going through devastating social and political disturbances The authors contend that Du Fu s isolation from the elite literary establishments allowed him to become a pioneer who introduced a new order to the Chinese poetic discourse However his attention to

details in everyday reality his preoccupation with domestic life and the larger issues embroiled in it his humor and his ability to surprise tend to be obscured by the cliché image of the poet sage and poet historian an image this collection of essays successfully complicates The scholarship that went into this collection of essays is extremely solid and fills an important gap in the study of China's greatest poet Du Fu The convincing and compelling collection of articles from distinguished scholars rereads Du Fu from fresh and different perspectives and informs the reader about the amazing power of intertextuality Kang I Sun Chang Yale University This rich and multilayered collection of essays about Du Fu all written by major scholars presents research of the highest quality and originality that succeeds most impressively in enriching and deepening our knowledge and appreciation of this great poet This volume has the potential to engender a new stage of Du Fu studies Antje Richter University of Colorado Boulder

Fate of the Flesh Daniel Juan Gil, 2021-01-05 In the seventeenth century the ancient hope for the physical resurrection of the body and its flesh began an unexpected second life as critical theory challenging the notion of an autonomous self and driving early modern avant garde poetry As an emerging empirical scientific world view and a rising Cartesian dualist ontology transformed the ancient hope for the resurrection of the flesh into the fantasy of a soul or mind living on separately from any body literature complicated the terms of the debate Such poets as Donne Herbert Vaughan and Jonson picked up the discarded idea of the resurrection of the flesh and bent it from an apocalyptic future into the here and now to imagine the self already infused with the strange vibrant materiality of the resurrection body Fate of the Flesh explores what happens when seventeenth century poets posit a resurrection body within the historical person These poets see the resurrection body as the precondition for the social person's identities and forms of agency and yet as deeply other to all such identities and agencies an alien within the self that both enables and undercuts life as a social person This perspective leads seventeenth century poets to a compelling awareness of the unsettling materiality within the heart of the self and allows them to re-imagine agency selfhood and the natural world in its light By developing a poetics that seeks a deranging materiality within the self these poets anticipate twentieth century avant garde poetics They frame their poems neither as simple representation nor as beautiful objects but as a form of social praxis that creates new communities of readers and writers assembled around a new experience of self as body mediated by poetry

Essays and Interviews on Contemporary American Poets, Poetry, and Pedagogy Daniel Morris, 2024-09-10 In sixteen chapters devoted to avant garde contemporary American poets including Kenneth Goldsmith Adeena Karasick Tyrone Williams Hannah Weiner and Barrett Watten prolific scholar and Purdue University professor Daniel Morris engages in a form of cultural repurposing by learning twice about how to attend to writers whose aesthetic contributions were not part of his education as a student in Boston and Chicago in the 1980s and 1990s when new formalism and post-confessional modes reigned supreme Morris's study demonstrates his interest in moving beyond formalism to offer what Stephen Fredman calls a wider cultural interpretation of literature that

emphasizes the new historicist concerns with hybridity ethnicity power relations material culture politics and religion Essays address from multiple perspectives prophetic diasporic ethical the vexing problems and sublime potential of disseminating lyrics the ancient form of transmission and preservation of the singular private human voice across time and space to an individual reader in an environment in which e poetry and digitalized poetics pose a crisis understood as both opportunity and threat to traditional page poetry *My Poetics* Maureen N. McLane, 2024-04-29 This new collection from the acclaimed poet and critic Maureen McLane works in an innovative register of essayistic writing conversable yet grounded in scholarship close readerly but far seeing McLane s encounters with poems and modellings of poetry illuminate her own poetics and suggest more generally all that poetics can encompass With characteristic brilliance McLane pursues a number of open questions How do poems shape our condition and conditioning as sentient creatures How do they generate modes for thinking How does rhyme help us measure out thought What is the relation of poetry to its surround to the environment and how do specific poems activate that relation What is the difference between a poetry of finding rather than of inspiration And how should we understand poetries invested in the notational and others committed to projects as many contemporary poets are as Wordsworth was in his Prelude As these questions suggest *My Poetics* does not offer a brief for or against a position on poetry Instead its artful arrangement of readings and divagations and even occasionally verse show us a way to be with poems and poetics

Made Flesh Kimberly Johnson, 2014-01-30 During the Reformation the mystery of the Eucharist was the subject of contentious debate and a nexus of concerns over how the material might embody the sublime and how the absent might be made present For Kimberly Johnson the question of how exactly Christ can be present in bread and wine is

fundamentally an issue of representation and one that bears directly upon the mechanics of poetry In *Made Flesh* she explores the sacramental conjunction of text with materiality and word with flesh through the peculiar poetic strategies of the seventeenth century English lyric *Made Flesh* examines the ways in which the works of John Donne George Herbert Richard Crashaw Edward Taylor and other devotional poets explicitly engaged in issues of signification sacrament worship and the ontological value of the material world Johnson reads the turn toward interpretively obstructive and difficult forms in the seventeenth century English lyric as a strategy to accomplish what the Eucharist itself cannot the transubstantiation of absence into perceptual presence by emphasizing the material artifact of the poem At its core Johnson demonstrates the Reformation debate about the Eucharist was an issue of semiotics a reimagining of the relationship between language and materiality The self asserting flourishes of technique that developed in response to sixteenth century sacramental controversy have far reaching effects persisting from the post Reformation period into literary postmodernity

Lyric and Liberalism in the Age of American Empire Hugh Foley, 2022-08-15 What is the difference between the I of a poem the lyric subject and the liberal subject of rights *Lyric and Liberalism in the Age of American Empire* uses this question to re examine the work of five major American poets changing our understanding of their writing and the field of post war American poetry Through extended readings of the work of Elizabeth Bishop Robert Lowell Amiri Baraka John Ashbery and Jorie Graham Hugh Foley shows how poets have imagined liberalism as a problem for poetry Foley s book offers a new approach to ongoing debates about the nature of lyric by demonstrating the entanglement of ideas about the lyric poem with the development of twentieth century liberal discussions of individuality Arguing that the nature of American empire in this period underpinned by the discourse of individual rights forced poets to reckon with this entanglement it demonstrates how this reckoning helped to shape poetry in the post war period By tracing the ways a lyric poem performs personhood and the ways that this person can be distinguished from the individual envisioned by post war liberalism Foley shows how each poet stages a critique of liberalism from inside the standpoint of lyric This book demonstrates the capacities of poetry for rethinking its own relation to history and politics providing a new perspective on a vital era of American poetry

Ballad Collection, Lyric, and the Canon Steve Newman, 2013-04-23 The humble ballad defined in 1728 as a song commonly sung up and down the streets was widely used in elite literature in the eighteenth century and beyond Authors ranging from John Gay to William Blake to Felicia Hemans incorporated the seemingly incongruous genre of the ballad into their work Ballads were central to the Scottish Enlightenment s theorization of culture and nationality to Shakespeare s canonization in the eighteenth century and to the New Criticism s most influential work *Understanding Poetry* Just how and why did the ballad appeal to so many authors from the Restoration period to the end of the Romantic era and into the twentieth century Exploring the widespread breach of the wall that separated high and low Steve Newman challenges our current understanding of lyric poetry He shows how the lesser lyric of the ballad changed lyric poetry as a whole and in so doing

helped to transform literature from polite writing in general into the body of imaginative writing that became known as the English literary canon For Newman the ballad's early lack of prestige actually increased its value for elite authors after 1660 Easily circulated and understood ballads moved literature away from the exclusive domain of the courtly while keeping it rooted in English history and culture Indeed elite authors felt freer to rewrite and reshape the common speech of the ballad Newman also shows how the ballad allowed authors to access the common speech of the public sphere while avoiding what they perceived as the unpalatable qualities of that same public's increasingly avaricious commercial society
