, *The Last Door* Gladys I. McCormick, 2025 As guerrilla groups sprouted up across Mexico in the early 1970s the military and police routinely resorted to extreme acts of violence including the systematic use of torture In *The Last Door* Gladys McCormick provides the most thorough account of how torture became a crucial and routine practice of the Mexican government s war against subversives Drawing from extensive oral history interviews and declassified government documents the reader is taken through experiences of arrest torture and detention in which forced disappearances became all too common and advocates for justice rallied around political prisoners Torture was not always about extracting information it was also about inflicting punishment on a faceless so called enemy and instilling terror into advocates of social change As McCormick argues torture became a quotidian practice of state making in Mexico during the 1970s leaving individuals and their families forever changed The lack of repercussions for government officials notorious for employing torture even in spite of a growing movement for truth and justice has led to entrenched impunity that is endemic in Mexico as its contemporary security crisis continues

EL CAMINO PASTORAL DE LA IGLESIA EN AMÉRICA LATINA Y EL CARIBE Luís Alvaro Cadavid Duque, 2010 *Constructing Identity in Contemporary Architecture* Peter Herrle, Stephanus Schmitz, 2009 The global spread of uniform modes of production and cultural values has been accompanied by a dissemination of stereotypes of modern architecture styles almost everywhere around the globe Paradoxically the reverse process has also emerged In some countries the elites feel the necessity to counterbalance the loss of identity and defend their own cultures against the intruding forces of globalization What started as a defensive notion has developed into a more progressive attempt to re create what has allegedly been lost This trend is being strongly expressed in discourses about architecture in countries of the South Who are the actors feeling compelled to construct new identities How are these new identities in architecture created in various parts of the world And which are the ingredients borrowed from various historical and ethnic traditions and other sources These and other questions are discussed in five case studies from different parts of the world written by renowned scholars from Brazil Mexico Egypt India and Singapore **Bibliografía peruana**

Learn Spanish News Vol.2: Nik Marcel, LEARN SPANISH NEWS Vol 2 English Spanish THIS EDITION The dual language text has been arranged into sentences and shorter paragraphs for quick and easy cross referencing The source text is the Spanish language edition of Voice of America VOA The Spanish text has been translated into English for this dual language project The reader can choose between four formats Section 1 English to Spanish Section 2 Spanish to English Section 3 English Section 4 Spanish A methodology for getting the most out of this bilingual format is explained in the book's Foreword The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully this way A reader might like to go back to reading dual language news for reinforcement and further development returning to foreign language only news with a deeper understanding By going back to the same old news you are going over words word patterns and passages with which you already have a certain familiarity The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way even though the news may seem a little dated The aim of informing the reader about actual news is secondary especially given that the content will become less current and less relevant over time If you are having trouble with the level of difficulty in the text a suggested path for learning languages is as follows Familiarise yourself with a basic language instruction book or re read the one you have Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called Spanish Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic Spanish book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable Spanish text a simple novel a Spanish news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a

device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books TÚ ERES PEDRO Mario Madrid-Malo Garizábal,2005 **Selecciones de Matemáticas Aplicadas** Max H. Alonso Minutti explores the intertextual connections between the multiple texts musical or otherwise that are present in Lavista's music Alonso Minutti argues that through adopting an interdisciplinary and transhistorical approach to music composition Lavista forged a cosmopolitan imaginary

that challenged stereotypes of what Mexican music should sound like This imaginary becomes a strategy of resistance against imperialist agendas placed upon postcolonial peripheries Departing from traditional biographical and chronological frameworks that exalt masters and masterworks the author offers a nuanced personal narrative informed by conversations with composers performers artists choreographers poets writers and filmmakers Through an innovative mosaic of methodologies from archival work to musical and intertextual analysis oral history and auto ethnography this book is the first in depth study of Lavista s compositional career and offers a contextual panorama of the contemporary music scene in Mexico
