to embrace the full cultural diversity of the British Isles Within its pages canonical authors mingle with newly visible writers English accents are heard next to Anglo Norman Welsh Gaelic and Scottish ones female and male voices are set in dialogue literature from the British Isles is integrated with post colonial writing and major works are illuminated by clusters of shorter texts that bring literary social and historical issues vividly to life Fresh and up to date introductions and notes are written by an editorial team whose members are all actively engaged in teaching and in current scholarship and 150 illustrations show both artistic and cultural developments from the medieval period to the present The Fourth Edition builds on the pioneering features of the previous three editions expanding the strong core of frequently taught works while continuing to lead the way in responding to the shifting interests of the discipline

Rural Space in the Middle Ages and Early Modern Age Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic
