numerous individuals turn to each year as the challenges and stress of daily living exceed their normal coping abilities. Counselling is practised by counsellors, social workers, psychiatric nurses, psychologists and psychiatrists. It will also be a useful resource for undergraduate and graduate students as well as professionals from other specialties. Covering all of the major theories, approaches and contemporary issues in counselling, the set includes over 600 entries. The Encyclopedia will consist of four volumes: a) changes and challenges facing counseling, b) personal counseling for mental health problems, c) career counseling and d) cross cultural counseling. Each volume is organized alphabetically and will contain a comprehensive index and cross referencing system to entries in other volumes.
