Look At Birth:

Birth, Death & InBetween Arlene Corwin, 2013-01-25 Birth Death one is grieved one wonders at the disappearance the invisibility the untimeliness what was before what may come after No longer a matter of death and dying but of birth death and the in between The speechlessness turns into a need to speak You don't put together a collection of poetry overnight There is no arbitrary subject There are threads A collection is a matter of emphasis accentuation and priority One's generation begins to go the whole of the sidewalk full of people coming at you will be gone in a hundred years not a person coming at you left If that is not a source of wonderment what is Birth Death InBetween is a collection of 300 some odd poems written over a period of 40 years observing examining questioning accepting the plain facts and the elusive nuances

Birth Mothers and Transnational Adoption Practice in South Korea Hosu Kim, 2016-10-26 This book illuminates the hidden history of South Korean birth mothers involved in the 60 year long practice of transnational adoption The author presents a performance based ethnography of maternity homes a television search show an internet forum and an oral history collection to develop the concept of virtual mothering a theoretical framework in which the birth mothers experiences of separating from and then reconnecting with the child as well as their painful ambivalent narratives of adoption losses are rendered felt and registered In this the author refuses a universal notion of motherhood Her critique of transnational adoption and its relentless effects on birth mothers lives points to the everyday normalized gendered violence against working class poor single mothers in South Korea's modern nation state development and illuminates the biopolitical functions of transnational adoption in managing an excess population Simultaneously her creative analysis reveals a counter public and counter history proposing the collective grievances of birth mothers **The Birth Of Being** Osho,

American by Birth Carol Nackenoff, Julie Novkov, 2022-10-13 American by Birth explores the history and legacy of Wong Kim Ark and the 1898 Supreme Court case that bears his name which established the automatic citizenship of individuals born within the geographic boundaries of the United States In the late nineteenth century much like the present the United States was a difficult and at times threatening environment for people of color Chinese immigrants invited into the United States in the 1850s and 1860s as laborers and merchants faced a wave of hostility that played out in organized private violence discriminatory state laws and increasing congressional efforts to throttle immigration and remove many long term residents The federal courts backed by the Supreme Court supervised the development of an increasingly restrictive and exclusionary immigration regime that targeted Chinese people This was the situation faced by Wong Kim Ark who was born in San Francisco in the 1870s and who earned his living as a cook Like many members of the Chinese community in the American West he maintained ties to China He traveled there more than once carrying required reentry documents but when he attempted to return to the United States after a journey from 1894 to 1895 he was refused entry and detained Protesting that he was a citizen and therefore entitled to come home he challenged the administrative decision in court Remarkably the

Supreme Court granted him victory This victory was important for Wong Kim Ark for the ethnic Chinese community in the United States and for all immigrant communities then and to this day Though the principle had links to seventeenth century English common law and in the United States back to well before the American Civil War the Supreme Court s ruling was significant because it both inscribed the principle in constitutional terms and clarified that it extended even to the children of immigrants who were legally barred from becoming citizens American by Birth is a richly detailed account of the case and its implications in the ongoing conflicts over race and immigration in US history it also includes a discussion of current controversies over limiting the scope of birthright citizenship

Human Birth Wenda R. Trevathan,2017-07-05 The story of human evolution has been told hundreds of times each time with a focus that seems most informative of the teller No matter how it is told the primary characters are rarely mothers and infants Darwin argued survival but today we know that reproduction is what evolution is all about Centering on this Trevathan focuses on birth which gives the study of human evolution a crucial new dimension Unique among mammals humans are bipedal The evolution of bipedalism required fundamental changes in the pelvis and resulted in a narrow birth canal Humans are also large brained animals which means that birth is much more challenging for our species than for most other animals The result of this mismatch of large head and narrow pelvis is that women are highly dependent on assistance at birth and their babies are born in an unusually undeveloped state when the brain is still small Human Birth discusses how the birth process has evolved and ways in which human birth differs from birth in all other mammals Human Birth is also concerned with mother infant interaction immediately after birth While working as a midwife trainee Trevathan carefully documented

the births of more than one hundred women and recorded maternal and infant behaviors during the first hour after birth She suggests ways in which the interactions served not only to enhance mother infant bonding but also to ensure survival in the evolutionary past With clarity and compelling logic Trevathan argues that modern birth practices often fail to meet evolved needs of women and infants and suggests changes that could lead to better birth experiences This paperback edition includes a new introduction by the author *Birth to Big School* Karen Kearns,2016-09-12 Birth to Big School is designed to support the Certificate III in Early Childhood Education and Care in a holistic and integrated way while addressing the relevant units of the Training Package The text emphasises the importance of knowing the traditional domains of development and links them to the Early Years Learning Framework EYLF and the National Quality Standards NQS by using down to earth practical examples Questions enable students to check their understanding of the content and provide a reference point to the NQS
