Scott, 2020-03-02 Explores how and why narrative fiction engages empathy including Theory of Mind Offers a broad overview of current scientific work on the effects of fiction reading on empathy including Theory of Mind Provides an original intervention in the field of literary theory centring on the reflexive properties of the fictional stranger Includes stand alone close readings of three novels by important French authors This book studies recent psychological findings which suggest that reading fiction cultivates empathy encouraging us to be critically reflective suspicious readers as well as participatory naïve readers Scott draws on literary theory and close readings to argue that engagement with fictional stories also teaches us to resist uncritical forms of empathy and reminds us of the limitations of our ability to understand other people The book treats figures of the stranger in Balzac's *La Fille aux yeux d'or* Stendhal's *Le Rouge et le Noir* and Sand's *Indiana* as emblematic of the strangeness of narrative fiction both drawing us in and keeping us at a distance

When Things Seem Odd Michael Joseph Legare, 2016-01-13 As you will discover by reading this book the term stranger danger is not only misleading to children it actually does more harm than good By the constant reminder that a child encounters by media adults and television programs about never talking to strangers children are often left confused and powerless of how to deal with the many strangers they come across on a day to day basis Secondly this book aims to teach children to become aware of their instincts feelings of uneasiness suspicion or otherwise their apprehension when it is appropriate and important to do so and when it comes to people and situations they encounter as they go about their lives Not just people of whom they do not know strangers but also of people of whom they may already know Finally this book is in two parts The first part are the three short stories of Polly a fictional character that describes in detail certain dilemmas she encounters when she becomes lost first at a grocery store next at the fair and then in the third story the close encounter she experiences of nearly being abducted by a stranger The stories go into detail about the positive aspects that Polly took each time to protect herself in each case scenario The encounters are based on a realistic

chain of circumstances The second part of this book is aimed towards parents to look at self protection strategies suggested by some of the world s most prestigious experts on the subject of child safety and the criminal mind **Gamelife** Michael W.
