Looking For Longleaf The Fall And Rise Of An American Forest:

Looking for Longleaf Lawrence S. Earley, 2009-07-17 Covering 92 million acres from Virginia to Texas the longleaf pine ecosystem was in its prime one of the most extensive and biologically diverse ecosystems in North America Today these magnificent forests have declined to a fraction of their original extent threatening such species as the gopher tortoise the red cockaded woodpecker and the Venus fly trap Lawrence S Earley explores the history of these forests and the astonishing biodiversity within them drawing on extensive research and telling the story through first person travel accounts and interviews with foresters ecologists biologists botanists and landowners The compelling story Earley tells here offers hope that with continued human commitment the longleaf pine might not just survive but once again thrive *Looking for Longleaf* , *Looking for Longleaf* Lawrence S. Earley, 2005-10-12 Covering 92 million acres from Virginia to Texas the longleaf pine ecosystem was in its prime one of the most extensive and biologically diverse ecosystems in North America Today these magnificent forests have declined to a fraction of their original extent threatening such species as the gopher tortoise the red cockaded woodpecker and the Venus fly trap Conservationists have proclaimed longleaf restoration a major goal but has it come too late In *Looking for Longleaf* Lawrence S Earley explores the history of these forests and the astonishing biodiversity of the longleaf ecosystem drawing on extensive research and telling the story through first person travel accounts and interviews with foresters ecologists biologists botanists and landowners For centuries these vast grass covered forests provided pasture for large cattle herds in addition to serving as the world s greatest source of naval stores They sustained the exploitative turpentine and lumber industries until nearly all of the virgin longleaf had vanished *Looking for Longleaf* demonstrates how in the twentieth century forest managers and ecologists struggled to understand the special demands of longleaf and to halt its overall decline The compelling story Earley tells here offers hope that with continued human commitment the longleaf pine might not just survive but once again thrive **The Longleaf Pine Ecosystem** Shibu Jose, Eric J. Jokela, Deborah L. Miller, 2007-09-09 This book unites a wealth of current information on the ecology silviculture and restoration of the Longleaf Pine ecosystem The book includes a discussion of the significant historical social and political aspects of ecosystem management making it a valuable resource for students land managers ecologists private landowners government agencies consultants and the forest products industry **The Cow-Hunter** Charles Hudson, 2014-10-07 A poor Scottish immigrant finds work and Shakespearean drama on a ranch in the backcountry of colonial South Carolina in this novel Vividly set in the rich pluralistic culture and primeval landscape of colonial South Carolina this historical novel brings to life and back into our memory the birth of free range cattle herding that would later come to be associated exclusively with the American West Drawing on his accomplished career as a leading scholar of the anthropology and history of the early South Charles Hudson weaves a compelling tale of adventure and love in the colorful tapestry of Charles Town taverns backcountry trails pinewoods cattle ranges hidden villages of remnant native peoples river highways rice plantations and

more Hudson's narrative revolves around William MacGregor a young Scottish immigrant trying to establish himself in the New World A lover of philosophy and Shakespeare William is penniless which leads him to take work as a cow hunter colonial cowboy for a pinder colonial rancher of a cowpen colonial ranch in the Carolina backcountry The pinder an older man with three daughters sees his world unraveling as he ages The parallel to King Lear does not escape William who gets caught up in the family drama as he falls in love with the pinder's youngest daughter Except for the boss of his crew who is the pinder's son in law William's fellow cow hunters are slaves an old Indian captured in Spanish Florida a Fulani captured in Africa and two brothers half Indian and half African who were born into slavery in the New World A rogue bull adds a chilling element of danger and the romance is complicated by a rivalry with a wealthy rice planter's son William struggles to salvage something from the increasingly disastrous situation and the King Lear like dissolution of the cowpen proceeds apace as the story heads toward its conclusion With an ethnohistorian's attention to context and detail Charles Hudson has written a compelling novel about the eighteenth century Carolina backcountry and its memorable characters the likes of whom the documentary record rarely reveals Theda Perdue professor emerita of history University of North Carolina Chapel Hill Whether trudging through the dismal swamps riding through the solitary longleaf forest or just hanging out at the cowpen Hudson renders the life of an eighteenth century Southern cow hunter's life palatable and real With a true sense of place and time Hudson brings the little known colonial South Carolina backcountry to spectacular life Robbie Ethridge professor of anthropology The University of Mississippi The History of Florida Michael Gannon,2018-06-26 Previously published as The New History of Florida *Tracing the Cape Romain Archipelago* Bob Raynor,2009-09-15 Between Myrtle Beach and Charleston lies the Cape Romain archipelago which links with adjoining barrier islands to form a section of pristine protected coast designated as a UNESCO Biosphere Reserve Local sailing enthusiast Bob Raynor author of Exploring Bull Island spent years weaving through the archipelago in his silent sailboat Kingfisher On his many forays through the wild territory he encountered diverse and abundant wildlife Native American shell middens storms conservation efforts and plenty of cultural and natural history His captivating firsthand descriptions of the area which is under threat from coastal development offer a priceless glimpse into one of South Carolina's most important natural treasures *A Field Guide to Wildflowers of the Sandhills Region* Bruce A. Sorrie,2011-06-01 Featuring over 600 wildflowers flowering shrubs and vines this user friendly field guide is the first to focus on the rare fragile lands and species of the Sandhills region of the Carolinas and Georgia Characterized by longleaf pine forests rolling hills abundant blackwater streams several major rivers and porous sandy soils the Sandhills region stretches from Fayetteville North Carolina southwest to Columbus Georgia and represents the farthest advance of the Atlantic Ocean some 2 million years ago Wildflowers of the Sandhills Region is arranged by habitat with color tabs to facilitate easy browsing of the nine different natural communities whose plants are described here Bruce A Sorrie a botanist with over 30 years of experience includes common plants region specific endemics and local rarities each with its

own species description and over 540 color photos for easy identification The field guide s opening section includes an introduction to the Sandhills region s geology soil types and special relationship to fire ecology an overview of rare species and present conservation efforts a glossary and key to flower and leaf structures and a listing of gardens preserves and parklands in the Sandhills region and nearby where wildflowers can be seen and appreciated Wildflower enthusiasts and professional naturalists alike will find this comprehensive guide extremely useful Southern Gateways Guide is a registered trademark of the University of North Carolina Press

A Delicious Country Scott Huler, 2019-02-05 In 1700 a young man named John Lawson left London and landed in Charleston South Carolina hoping to make a name for himself For reasons unknown he soon undertook a two month journey through the still mysterious Carolina backcountry His travels yielded *A New Voyage to Carolina* in 1709 one of the most significant early American travel narratives rich with observations about the region's environment and Indigenous people Lawson later helped found North Carolina's first two cities Bath and New Bern became the colonial surveyor general contributed specimens to what is now the British Museum and was killed as the first casualty of the Tuscarora War Yet despite his great contributions and remarkable history Lawson is little remembered even in the Carolinas he documented In 2014 Scott Huler made a surprising decision to leave home and family for his own journey by foot and canoe faithfully retracing Lawson's route through the Carolinas This is the chronicle of that unlikely voyage revealing what it's like to rediscover your own home Combining a traveler's curiosity a naturalist's keen observation and a writer's wit Huler draws our attention to people and places we might pass regularly but never really see What he finds are surprising parallels between Lawson's time and our own with the locals and their world poised along a knife edge of change between a past they can't

forget and a future they can't quite envision

Nose Dive Harold McGee, 2020-10-20 The ultimate guide to the smells of the universe the ambrosial to the malodorous and everything in between from the author of the acclaimed culinary guides *On Food and Cooking* and *Keys to Good Cooking* From Harold McGee James Beard Award winning author and leading expert on the science of food and cooking comes an extensive exploration of the long overlooked world of smell In *Nose Dive* McGee takes us on a sensory adventure from the sulfurous nascent earth more than four billion years ago to the fruit filled Tian Shan mountain range north of the Himalayas to the keyboard of your laptop where trace notes of phenol and formaldehyde escape between the keys We'll sniff the ordinary wet pavement and cut grass and the extraordinary ambergris and truffles the delightful roses and vanilla and the challenging swamplands and durians We'll smell one another We'll smell ourselves Through it all McGee familiarizes us with the actual bits of matter that we breathe in the molecules that trigger our perceptions that prompt the citrusy smells of coriander and beer and the medicinal smells of daffodils and sea urchins And like everything in the physical world molecules have histories Many of the molecules that we smell every day existed long before any creature was around to smell them before there was even a planet for those creatures to live on Beginning with the origins of those molecules in interstellar space McGee moves onward through the smells of our planet the air and the oceans the forest and the meadows and the city all the way to the smells of incense perfume wine and food Here is a story of the world of every smell under our collective nose A work of astounding scholarship and originality *Nose Dive* distills the science behind the smells and translates it as only McGee can into an accessible and entertaining guide Incorporating the latest insights of biology and chemistry and interweaving them with personal observations he reveals how our sense of smell has the power to expose invisible intangible details of our material world and trigger in us feelings that are the very essence of being alive
