Looking Backward And Looking Forward Perspectives:

Looking Forward, Looking Back Jana Pohl, 2011 How is the life altering event of migration narrated for children especially if it was caused by Anti Semitism and poverty What of the country of origin is remembered and what is forgotten and what of the target country when the migration is imagined there a century later Looking Forward Looking Back examines today's representation of Jewish mass migration from Eastern Europe to America around the turn of the last century It explores the collective story that emerges when American authors look back at this exodus from an Eastern European home to a new one to be established in America Focusing on children's literature it investigates a wide range of texts including young adult literature as well as picture books and hence sheds light on the dynamics of the verbal and the visual in generating images of the self and other the familiar and the strange This book is of interest to scholars in the field of imagology children's literature cultural studies American studies Slavic studies and Jewish studies [Bullying in Schools](#) Peter K. Smith, Debra Pepler, Ken Rigby, 2004-10-21 Bullying in Schools is the first comparative account of the major intervention projects against school bullying that have been carried out by educationalists and researchers since the 1980s across Europe North America and Australasia Working on the principle that we can learn from both successes and failures this book examines the processes as well as the outcomes and critically assesses the likely reasons for success or failure With contributions from leading researchers in the field Bullying in Schools is an important addition to the current debate on tackling school bullying **Looking forward, looking back** Canada. Royal Commission on Aboriginal Peoples, 1996 As the first part of a set of volumes examining the evolution of the relationship among Aboriginal peoples and the Canadian government this volume studies that relationship from the earliest times to the present and examines policies that have affected that relationship The volume begins with a demographic profile of Canada's current Aboriginal population and then reviews the history of government Aboriginal relations in four stages before European contact the early contact and co operation period displacement and assimilation and the latest stage of negotiation and renewal of the relationship The volume then examines false assumptions involved in the government Aboriginal relationship and discusses four policies negatively affecting this relationship The Indian Act the residential schools policy the relocation of Aboriginal communities and the treatment of Aboriginal military veterans The volume ends with principles for building the foundations of a renewed relationship *Hitchcock's Moral Gaze* R. Barton Palmer, Homer B. Pettey, Steven M. Sanders, 2017-01-30 In his essays and interviews Alfred Hitchcock was guarded about substantive matters of morality preferring instead to focus on discussions of technique That has not however discouraged scholars and critics from trying to work out what his films imply about such moral matters as honesty fidelity jealousy courage love and loyalty Through discussions and analyses of such films as *Strangers on a Train* *Rear Window* *Vertigo* *North by Northwest* and *Frenzy* the contributors to this book strive to throw light on the way Hitchcock depicts a moral if not amoral or immoral world Drawing on perspectives from film studies philosophy

literature and other disciplines they offer new and compelling interpretations of the filmmaker's moral gaze and the inflection point it provides for modern cinema Looking Back, Looking Forward John Pepper, 2017-08-28 **Austrian Capital Theory** Peter Lewin, Nicolas Cachanosky, 2019-01-10 This Element presents a new framework for Austrian capital theory starting from the notion that capital is value Capital is the value attributed by the valuer at any moment in time to the combination of production goods and labor available for production Capital is the result obtained by calculating the current value of a business unit or business project that employs resources over time It is the result of a subjective entrepreneurial calculation process that relates the flow of consumptions goods to the value of the productive resources that will produce those consumptions goods The entrepreneur is a ubiquitous calculating presence In a review of the development of Austrian capital theory by Carl Menger Eugen von Böhm-Bawerk Ludwig von Mises Friedrich Hayek Ludwig Lachmann as well as recent contributions the Element incorporates the seminal contributions into the new framework in order to provide a more accessible perspective on Austrian capital theory Global Business Strategy: Asian Perspective (Second Edition) Hwy-chang Moon, 2022-01-07 As the second edition of Global Business Strategy this book provides novel insights on how a firm can formulate a successful approach toward its global business from both the Western and Asian perspectives In this respect the book's overall goal is to bridge the gap between these two different viewpoints This second edition includes more recent business theories techniques and cases within the field of global business strategy Specifically it includes new theories and techniques like creating shared value CSV the global value chain platform strategy and business ecosystem They are shown to be important tools for enhancing competitiveness and maintaining sustainability among firms in today's rapidly changing international business environment This is very much evident today given the critical challenges arising from the trade tensions between the United States and China emerging technologies such as artificial intelligence and digital transformation and the unprecedented disruptions brought on by the coronavirus pandemic We hope that this book will serve as a useful companion for students business practitioners policymakers and the more general readers interested in issues related to competitiveness and business **Language for Special Purposes** Felix Mayer, 2001 **Defensive Expectations** Liviu Voinea, 2020-12-09 This book explains why inflation remains subdued after recessions based on three revolutionary concepts defensive expectations compensatory savings and cumulative wage gap When income falls consumption falls and savings rise as people rebuild their past wealth Households will not spend more until they fully recover what they lost The revised Phillips Curve explains that current inflation depends on the cumulative difference between current income and past income This new theory is tested and validated by data for US since 1960 to date and for 35 OECD countries from 1990 to date A number of policy implications are derived from these results The book calls for an optimal policy mix between monetary policy and fiscal policy it also discusses the coronavirus crisis as an extreme case of defensive expectations *Future Perspectives on Positive Psychology: A Research Agenda* Marisa Salanova, Llewellyn Ellardus Van

Citizens Plus Alan C. Cairns,2011-11-01 We are in the midst of a fundamental re evaluation of the desired relation of Aboriginal and non Aboriginal peoples to each other and of how the former are to be institutionally and constitutionally accommodated within Canada Words matter How we think about where we are and about the future goal of our relationship can confine us in an intellectual prison or liberate us from choices we will otherwise regret In Citizens Plus Alan Cairns unravels the historical record to clarify the current impasse in negotiations between Aboriginal peoples and the state He considers the

assimilationist policy assumptions of the imperial era examines more recent government initiatives and analyzes the emergence of the nation to nation paradigm given massive support by the Royal Commission on Aboriginal Peoples We are battered by contending visions he argues a revised assimilation policy that finds its support in the Canadian Alliance Party is countered by the nation to nation vision which frames our future as coexisting solitudes Citizens Plus stakes out a middle ground with its support for constitutional and institutional arrangements which will simultaneously recognize Aboriginal difference and reinforce a solidarity which binds us together in common citizenship Essential reading for those in political science history Native studies public administration and law Citizens Plus will also appeal to the general public interested in one of the most important and complex issues on our agenda Selected as a BC Book for Everybody *Resources in Education*, 1998 Fresh Perspectives on Later Life Learning Brian Findsen, 2018-10-29 Over the last decade there has been a resurgence of interest in what adults learn in their later years often described as beyond 65 and how this learning is linked to current personal social and global issues This learning commonly occurs in informal ways as seniors go about their daily lives This kind of informal learning can be supplemented by non formal education via participation in planned learning as members of organizations and less frequently in formal education structures such as universities This book highlights how older people are learning in a myriad of ways and conditions It covers everything from individualistic learning through to national issues of older adult education Fresh perspectives are provided on biographical insights into retirement and higher education how older people generate know how in the company of others and in cross cultural aspects such as Chinese elders in Hong Kong and Mori seniors in Aotearoa New Zealand In addition the links between health and learning are explored as well as the commitment universities in three countries have made to become age friendly This book was originally published as a special issue of the International Journal of Lifelong Education

Critical Perspectives in Rural Development Studies Saturnino M. Borras Jr., 2013-09-13 Agrarian transformations within and across countries have been significantly and dynamically altered during the past few decades compared to previous eras provoking a variety of reactions from rural poor communities worldwide The recent convergence of various crises financial food energy and environmental has put the nexus between rural development and development in general back onto the center stage of theoretical policy and political agendas in the world today Confronting these issues will require re engaging with critical theories taking politics seriously and utilizing rigorous and appropriate research methodologies These are the common messages and implications of the various contributions to this collection in the context of a scholarship that is critical in two senses questioning prescriptions from mainstream perspectives and interrogating popular conventions in radical thinking This book focuses on key perspectives frameworks and methodologies in agrarian change and peasant studies The contributors are leading scholars in the field of rural development studies Henry Bernstein Terence J Byres Saturnino M Borras Jr Marc Edelman Crist bal Kay Benedict Kerkvliet Philip McMichael Shahra Razavi Ian Scoones and Teodor Shanin This book was previously published as a

special issue of the Journal of Peasant Studies Water Resources Perspectives: Evaluation, Management and Policy W.W. Wood, A.S. Alsharhan, 2003-12-09 Many countries in the world have made great efforts to remedy the water shortage by providing financial and technical backing for water desalination treatment of wastewater and improved management and conservation techniques Water ministries universities and research centres have supported scientific research and applied the most recent technologies in search of new and alternative water supplies Laws have been promulgated economic and public relation campaigns developed to promote and encourage the practice of efficient water use and the conservation of this scarce commodity This book covers water resources and management and provides a new vision of water resources management water conservation and legislations water law and modern techniques of water resources investigation

Volker Braun in Perspective ,2016-08-29 On the occasion of Volker Braun s 65th and GDR German Monitor s 25th birthday an attempt is made to re evaluate Braun s contribution to 20th and 21st century German literature The seventeen essays of the collection written by a truly international set of scholars demonstrate the unique quality and breadth of Braun s writing spanning all literary genres But not only that they also reveal the diversity of interpretative perspectives which Braun s oeuvre productively stimulates They showcase an author who refuses to indulge complacently in past achievements and an opus that defies all attempts at labelling Braun s texts so the verdict of the contributors are driven by an insatiable thirst for the whole story the depth beneath the superficial the complex truth of our human predicament for the precise expression which is not caught up in the limitations of the dominant ideology whatever it might be *The Routledge Companion to the Philosophies of Painting and Sculpture* Noël Carroll, Jonathan Gilmore, 2023-06-30 Comprising 45 chapters written especially for this volume by an international team of leading experts The Routledge Companion to the Philosophies of Painting and Sculpture is the first handbook of its kind The editors have organized the chapters across eight broader sections Artforms History Questions of form style and address Art and science Comparisons among the arts Questions of value Philosophers of art Institutional questions Individual topics include art and cognitive science evolutionary origins of art art and perception pictorial realism artistic taste style issues of race and gender art and religion art and philosophy and the end of art The work of selected philosophers is also discussed including Diderot Hegel Ruskin Gombrich Goodman Wollheim and Danto With an introduction from the editors and comprehensively indexed The Routledge Companion to the Philosophies of Painting and Sculpture serves as a point of entry to the subject for a broad range of students as well as an up to date reference for scholars in the field **The Psychology of Perspective and Renaissance Art** Michael Kubovy, 1986 Michael Kubovy an experimental psychologist recounts the lively history of the invention of perspective in the fifteenth century and shows how as soon as the invention spread it was used to achieve subtle and fascinating aesthetic effects A clear presentation of the fundamental concepts of perspective and the reasons for its effectiveness drawing on the latest laboratory research on how people perceive leads into the development of a new theory to explain why Renaissance artists such as Leonardo and

Mantegna used perspective in unorthodox ways which have puzzled art scholars This theory illuminates the author's broader consideration of the evolution of art the book proposes a resolution of the debate between those who believe that the invention/discovery of perspective is a stage in the steady progress of art and those who believe that perspective is merely a conventional and arbitrary system for the representation of space
