Loving Home Caring For African American Marriage And Families:

A Loving Home Lee H. Butler, 2000 African American Pastoral Care Edward P. Wimberly, 2010-10-01 Respond to God's unfolding drama to bring healing and reconciliation In this major revision of his classic book Dr Edward Wimberly updates his narrative methodology by examining current issues in African American pastoral care and counseling *The Bloomsbury Guide to Pastoral Care* Bernadette Flanagan, 2014-01-30 The Bloomsbury Guide to Pastoral Care provides a framework for reflection on pastoral care practice and identifies frontier learning from the new and challenging practical contexts which are important in pastoral care research today In this collection of essays from leading practitioner scholars Bernadette Flanagan and Sharon Thornton set out core principles underpinning professional identity and the practice of pastoral care in rapidly changing social settings Such pastoral challenges as developing compassionate and effective companionship to those who have suffered trauma torture catastrophic events social disintegration the moral wounds of war and cultural dislocation are treated with insight and deep care The new frontiers of pastoral care in more familiar circumstances such as family health settings where patients facing life challenging medical events and multi cultural communities are also explored With contributions from Kevin Egan Michael O Sullivan SJ Rita Nakashima Brock and Julia Prinz VDMF The Bloomsbury Guide to Pastoral Care is an essential reference for the theory and practice of pastoral care Faith, Health, and Healing in African American Life Stephanie Y. Mitchem, Emilie M. Townes, 2008-08-30 Black Americans are more likely than Whites to die of cancer and heart disease more likely to get diabetes and asthma and less likely to get preventive care and screening Some of this greater morbidity results from education income level and environment as well as access to health care But the traditional medical model does not always allow for a more holistic approach that takes into account the body the mind the spirit the family and the community This book offers a better understanding of the varieties of religiously based approaches to healing and alternative models of healing and health found in Black communities in the United States Contributors address the communal aspects of faith and health and explore the contexts in which individuals make choices about their health the roles that institutions play in shaping these decisions and the practices individuals engage in seeking better health or coping with the health they have By paying attention to the role of faith spirit and health this book offers a fuller sense of the varieties of ways Black health and health care are perceived and addressed from an inter religious perspective Community and religion based initiatives have emerged as one key way to address the health challenges found in the African American community In cities such as Atlanta Baltimore Dallas and Oakland residents organize exercise groups teach one another how to cook with healthy ingredients and encourage neighbors to get regular checkups Churches have become key sites for health education screening and testing Another set of responses to the challenge of Black health and healthcare in the United States comes from those who emphasize the body as a whole body mind soul and spirit often drawing on religious traditions such as Islam and African based religions such as Spiritism Santeria Vodun aka Voodoo Candomblé and others Understanding

Hopkins, 2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs *Black Theology Essays on Global Perspectives* bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today's international challenges The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures
